From long practical observation of the treat-London and Paris for those discuses referre to in the above work, the Author has somewhat unusual facilities for acquiring t accuracy of diognosis, and uniform succe which have characterized his practice, for many years in the country, in which the mentable neglect of these diseases by meaby morcury, copaibs, sarsaparille, &c., have produced most distressing results. Lasting benefit in such cases can only be reasonable expected at the hands of the legally qualific medical man who devotes his chief attention to their removal; and to him only who show his possession of the necessary qualcations, can confidence be safely extended. Dr. D. R. re ers with pride to the numbers he has been instrumental in restoring to health and happiness; and to those who may be in

need of such aid, he offers every assurance of speedy restoration. Persons residing abroad can be successfully treated by correspondence, on sending a detail of their case, with a Bank note, or ou a Loudon house for £5, in order to have a packet of med cines sufficient to meet the exe gencies of the case, sent out by next mail thus avoiding unnecessary loss of valuable time. and much suffering which might otherwise o
