A FEW WORDS, TO MOTHERS.

THE MORTALITY AMONG CHILDREN

American mothers know, to their sorrow, that cholera infantum or summer complaint. is one of the most destructive diseases e our climate. There is probably no country is the world where the mortality among chill dren bears so large a proportion to the sunr total of deaths as in the United States. About one third of the weakly interments registered in the city of New-Fork may be i classed under the head of in ant mortality. and from May to November the majority of present session, to introduce any measure the young children who die are swept off In the Council, yesterday, the Receiver on the subject of the fludson's Bay Territory by diseases of the bowels.
