with truth, be called medical tinkers. These entlemen are content to patch up the distern. Their aim is to suppress rather than to eradicate. Professor Holloway belongs to a different school. His cures are not superficial and temporary, but complete and Thomas Chesnut, Market Lessee, com- permanent. His theory of external diseases al as to tie down the valve of a steam boiler el sore breusts, and ulcers of all kinds Ane | These exterior affictions are the indi pills is to disinfect and purity the animal thuids in which that corruption exists. The poison carried by the blood vessels to the surface is met and neutralized by the Ointment, and thus the disease is quenched at its sources, and at the points where it is developed, at one and the same time. The result is that no relapse occurs, for the poisl onous elements being annihilated, there is

d clared it impracticable ... In a letter on the

The absurd report you refer to has been so that I have long ago given up all notice of it t is, however, very remarkable that no one has has ever been referred to as containing it : no is lopinion att red even in private conversation arxplicable of all unfounded rumors. I think it would not be amiss to request the next per-

NEW ORLEANS, June L. We have received later intelligence from Texas, by which we learn of a desperate battle that was fought in the Northern part of the state, between the Rangers, under Capt. Ford, and a large body of Camanche captured by the whites. Capt. Ford's loss 'was only two killed and two wounded; one of the killed was a white.
