Tas Burned Steamer.

New York, Sept. 25. A private despatch from Halifax to Mr. C nard says the Cuptain of the Roseneath thought th burning steam r had a walking beam, but he did not observe any puddle-boxes. thought she was a wooden ship, but his matestates that she was of iron. She had a long overhanging boat. Offers of 25 per cent., t

Halifax, Sept. 25. Captain Shaw of the bark Arabian, , which arrived this a.m., r ports that at 7 o'clock on the morning of the 15th inst. he fell in with an iron screw steamer on fire, apparently of 1,200 tons. She had a gilt crown cagle bead, and a straight stem head raked well forward and her bottom had red paint on. Her upper works were destroved and the wood work above and below was all consumed. Her masts were gone and was laying on the starboard side, but steamer, but no name was distinguishable THE UNKNOWN STEAMER BURNED .-- She is supposed to have been burning 48 hours could have been, which the ship Rosen- | fering in the distance. Despatches to private would seem to show that the former is the ill bowsprit, and Engine working through the fated steamer, that of the Alps being merely scroll head, while the Austria's was an Aus-
