TRUE TIME. AMERICAN WATCHES.

These superior Watches are made by the 192 aid of new and original machinery, expressly designed to secure with a low price. a fine substantial and uniformly retiable time-keeper. The movements are new in construction, have been pronounced by the highest authorities to be faultless in principle and quality, and have been proved by 192 the most exacting tests to be untailing in action. These watches are made entire from the crude materials, in a single establishment, by connected and uniform processes-the factory being organized upon the same system that has been adopted in the production of the unequalled American fire-arms, -- which enables us to produce a movement at one-half the price of a foreign movement of the same quality. Each

All foreign watches are made by hand, \* LADY EGLINTON, the American watches being the only ones made by machinery upon a uniform system Will sail, upon her second voyage, from throughout. Nearly all hand-made watch-MONTREAL on the 14th, and from QUE- es are defective, and are continually getting out of order. In many parts of the country it is impossible to find good watch repairers, and watch repairing is always uncertain and expensive. The introduction of American watches disposes of this difficulty, and country merchants, as well as watch dealers, can keep watches as a part of their miscellaneous stock, and thus supply their customers with a new Staple, which may be used as any other article, without mys-
