For the BRITISH WHIG. An Excursion in the North Country.

& ... along the St. Lawrence to Niagara to pay for I cense. Falls, and to the great lakes, have become so frequent of late that I thought I would vary the programme, and turn my attention shades floated on the midnight breeze the foad lay, westward along the northern tismal howl of the wolf, where the red deer at the first sniff of danger bounded away the most marked improvements have been swifter than the arrow of the savage, hiding made in the road from Harrowsmith here his form behind the green arches of the since I used to travel it. A great part of sulted in the appointment of a committee overhanging forest, or timidiy watching, roads of the country; and as I passed along initiate all necessary arrangements. from salety secured, on the opposite side of so easily and rapidly over it, memory remirror framed in precious stones. But, them, would I be pained to see the poor alas, for this land of romantic pictures! Its animal miss his footing and plunge down Saunder's boat, formerly Mr. O'Gorman's satisfaction for the injury done to wild beauty has been invaded by the ruthforcests have disappeared; the greedy saw- upon the uncertain footing again. Now a barna led from the start, and won in 2h. triumphant, less hand of the white man; its magnificent mills have converted the waving pine trees firm road of stone lies there in defiance of 21m. The Magdala followed a very class mired as the excellence of beauty has been expended in building it. is the object of my writing. So let us begin

at the beginning. HARROWSMITH. About six o'clock in the evening of the 4th of August, 1868, I found myself in the beautiful little village of Harrowsmith. and 7 in the 5th con, of Portland. To one driving into the village from the Kingston ug the road just before entering the village are some very graceful elms; and off to abundance that paragon of beauty, the the view render the scene pertectly charm and on doing so I found that my progress tended." every Club with which the long drive on a hot day. Harrowsmith was greatly facilitated. Arriving in a hall, &c. There are two hot is opposite cently passed; and as I stood gazing from by the main street, the "Shibley the pinnacle of a lofty rock, it seemed to by Mr. Smart's Gotlow. House" on the left, besides several stores, one or two carriage shops, several blackone or two carriage shops, several black- a state of violent ebullition, and being the Two Mountain Indians and Ottawa colonial, and that great work will almost lage is steadily improving both in size and of melt d rock had time to subside. In If Harrowsmith possessed water power to these huge rocks are not more than from drive machinery, it would become one or these huge rocks are not more than from the most thriving villages north of Kingrods long. Sometimes the rocks form in-

the rear of the viriage, and continued up a that fully two-thirds of the surface are this afternoon. Mr Rose entered into explana- boat to go to Ferguson's Point, to take part tions with regard to bis fine soil mission to gradual ascent for about a mile, when I descended another very steep hill into an immense cedar swamp. A large portion and support of the cattle disease. This having been another from the cattle disease. of this swamp still remains in a state of there is, however, of good quality, and nature, but where the timber has been from its situation between the contained cannot be contained to the contained to the contained cannot be contained to the contained cannot be contained to the contained cannot be contained to the contained to the contained cannot be contained to the co withstanding the drouth. The habit which when it receives a supply of moisture from plaining the unfortunate state of matters on was held up by Mr. T.Graham, who struggled prevails in Canada of clearing off all the underground soakage, is well calculated to the Pacific coast. bigh and thin land, and neglecting the withstand a drouth; and what crops I saw Sir George E. Cartier is expected here toawamps, which contain the deep, rich and there, netwithstanding the uncommon dry morrow. best soil, is showing its disastrous eff cts westher of this summer, seemed to be of a The Ottawa Provisional Battalion Rifles Mr. Graham supported her by the waist, Mr. during these dry years, when the grain and parture are scorching upon the hills for of the country here is disagreeable from the in their annual drill. lack of either moisture or shade, and the slovenly manner in which the land is dool swamp land remains unproductive and inaccessible, on account of the abundant and every wet place, are allowed to grow growth of timber which covers it. When over with ash and bass-wood sprouts, aiders and willows; and many of the stumps in one arrives at the high land beyond this sw. mp, an exc. lient tract of farming country is pread out before him on every side. With a surface as level as a western growth of timber were encouraged upon the piaced this statuette in front of his office and a black rich soil of great lepth, this neighborhood presen sevidences of wealth and comfort.

Although the lack of rain has been severely felt, the crops generally present a favorable appearance, and the fine stone larm-houses dotting the landscap; give it an aspect of thrift and beauty, and speak an aspect of thrift and beauty, and speak well for its general productiveness. This is guite that the stole anything. It is quite the former and 11 cents for the latter.

We have seen it stated that deceased, in which state Mr. Johnson supports of the body for about another hour, within about ten minutes of the rescue, and he was such the intervening valleys into gardens, that he stole anything. It is quite the former and 11 cents for the latter.

BIED. seventh, and part of the eighth concessions tive by the richness of the decaying vege- lous than some men would be about many Mr. S. Mitchel, who took from the wreck Miss testile tract of land is situated in the sixth, of Portland, and in fact the first seven/conof this township contain some the wealthiest farmers in the County Frontenac, -- as Denis Lake, the Shibleys, ton, Herchemer, and others.

Shortly a'ter leaving this fine neighbor hood, I descended the last lime-tone hill northward, called Kings on's Hill, and entered one of the low bogs covered with almore industrious, enterprising and order class of farmers trke their places.

down at the base of every hill. ert seitlere ; but as if it had been said self upon my mind. Geologists suppose their "thus tar shalt thou go and no farther" the primitive rocks, unless disturbed by compa e with their enterprising neighbors, mean is simply this; Butler was a thief, a brought ashore, by the untiring efforts of Mrs. ome internal or external forces. Now, they prefer seeking new tracts to open up, robber, an insuler of women, a blundering Draper and neighbors, he was restored to here we have the limestone deposit from where the circumstances and surroundings | general. By his order, in New Orleans the sensibility, having three times become partie the bare granite lying immediately beside definitely.
