The New Remedy for Worms in Children or Adults

—

BARKER'S WORM SYRUP.

GREAT difficulty has been experienced in obtaining a medicine that can be administered to young Children in a convenient form. Lozenges, Candy, &c., have not been found to answer the purpose, on account of children refusing to eat them; also on account of the number of worthless preparations now before the public. Thousands of lives are sacrificed for the want of a certain and reliable medicine.

The want of a convenient, and at the same time an effectual medicine, has been long required. This WORM SYRUP will supply that want, and having paid particular attention to its preparation, the Proprietor can with confidence recommend it to the public as a certain, safe and sure remedy for destroying Worms in Children or Adults. It can be administered with perfect safety to the most delicate children, and on account of its pleasant taste children will take it freely. A large number of certificates have been received from parties who have used this Syrup with the greatest success; also from several Physicians, recommending its use.

The symptoms of worms are so well known that it is not necessary here to describe them; but it is a well known fact that thousands of children are hurried to an early grave for want of proper attention.

ANNUAL INCOME, £220,000 Sterling: Yearly Increasing at the rate of £25,000 Sterling.

THE important and peculiar feature originally introduced by this Company in applying the periodical Bonuses, so as to make Policies payable during life, without any higher rate of premiums being charged, has caused the success of the BRITON MEDICAL AND GENERAL to be almost unparalleled in the history of Life Assurance. *Life Policies on the Profit Scale become payable during the lifetime of the Assured, thus rendering a Policy of Assurance a means of subsistence in old age, as well as a protection for a family*, and a more valuable security to creditors in the event of early death; and effectually meeting the often urged objection, that persons do not themselves reap the benefit of their own prudence and forethought.

HOSTETTER'S BITTERS, MISHLER BITTERS, RICHARDSON'S BITTERS, PLANTATION BITTERS, &c.

There is no form in which distilled spirits or diluted alcohol is presented to the public more likely to create confirmed habits of tippling, and a final and fatal slavery to the cup than in the forms suggested by the heading of this article. These compounds are nothing more nor less than whisky or rum, disguised by the addition of some bitter barks, woods and roots, of which a man with a tolerable acquaintance with botany might gather a cart load in almost any patch of woodland in our country. * * * These bitter makers are building fortunes out of the sale of bittered whiskey, and out of the credulity and conscientiousness of thousands in Wines, impaired nervous systems there is a demand for stimulants or narcotics, and who have yet too much regard for an improved public sentiment, and too much conscience to drink whiskey raw from a whiskey saloon or a bar-room. In a future number of the Advocate I propose to unmask with an unsparing hand of smooth hypocrisy, mock philanthropy and affected sympathy for suffering humanity with which this colored whiskey business is so artfully gilded. In the meantime, let all friends of temperance and lovers of their country and race beware of the whiskey devil disguised as medicine.—Charles Jewett.

Laboratory of Department of Agriculture

Washington, Dec. 23, 1869.

A. M. F. Gianelli's (of Montreal) "Wine Bitters," tested in this Laboratory, yielded the following results: "Royal Italian Bitters" (2 bottles examined) specific gravity 1.0009.

Mean of several determinations

Alcohol (by weight).....	15.2-00 per cent
Sugar (cane).....	3.37 do.
Do. (fruit).....	63 do.

The extraction was abundant, and contained several aromatic odors. Upon evaporation, precipitation and re-precipitation with the usual re-agents, it yielded a substance having the reaction "Quanthine" of Faure. Tartaric acid was separable in appreciable quantity and easily detected.

Solution of Nitrate of Silver was not reduced by the liquid ("Bitters") nor was there any other evidence of the presence of Fusil Oil.

This analysis shows that the ethereal principle of Wine (Oenanthine) is present in considerable amount—that the peculiar acid of Sherry Wine is also present, and that no trace of Fusil Oil can be detected.—

From these reactions it is evident that Wine has been used in the manufacture of the "Italian Wine Bitters," and that no whiskey—as this latter is usually sold (i.e., without high rectification), has been used in the manufacture.

The greater portion of the alcohol found certainly belonged to Wine present in the Bitters, and not to whiskey. (Signed)

THOS. ANTICELL, M.D.,
Chief Chemist U. S. Dept. Agriculture

To A. M. F. Gianelli, Esq.

DEAR SIR,—After a fair trial, I take pleasure in recommending your "Royal Italian Bitters." It is a very excellent stimulating tonic, aiding digestion and giving tone to the digestive organs. In your note you informed me of the ingredients. I think it is a most admirable combination; a pleasant, useful, and reliable tonic.

Yours truly,
R. T. COOKE, M. D.,
New York Jail

MR. GIANELLI.

From the World-renowned Tragedienne
MADAME RISTORI.

(TRANSLATION.)

PARIS, BOULEVARD DES MALESHERBES, No. 48, 4th July, 1867.

Al Signo Angelo M. F. Gianelli,
Montreal, Canada:

Gentilissimo Signore:

Fearing that a former letter which addressed you, and sent by a gentleman who was going to Montreal, might not have reached you, I beg to—in effect—duplicate it. On my arrival here I opened the two cases of "Tonico Reale" which I purchased from you when in Montreal, and had many opportunities of submitting it to the judgment of very many distinguished persons who have honored me with their attentions during my sojourn here.

I have very great pleasure in acquainting you that the Tonico met with universal approval, both among Ladies and Gentlemen, and for myself I must say that I have derived great benefit from its use.

An eminent chemist of this city says that you committed a grave error in omitting to send a sample to this great Exposition, feeling assured that it would have received distinguished honor.

As many of my friends are now almost habituated to it, I will thank you to forward by the first steamer, through your agent in New York, five cases, together with the bill for the same, on receipt of which I will immediately remit the amount.

With best wishes of success,

I remain, truly yours,

ADELAIDE RISTORI DE GRILLO.

In adducing the foregoing unimpeachable testimonials to the salutary properties of my "Royal Italian Bitters," I would earnestly protest against the imputation of being a promoter of the improper use of intoxicating drinks. I believe, indeed, that Wine, as one of the Creator's gifts to man, is good in itself, and its temperate use allowable to all; and, therefore, have no hesitation in admitting it to be an ingredient in my preparation, with as much of the alcoholic principle as is inseparable from its nature. But I am no apologist for drunkenness or drunkards, and believe that those who have not sufficient self-control to avoid running into excess had better abstain altogether from its use.

ARRIVED AT LAST.

THIS elegant Turkish Tonic is one of the most salutary and delicate preparations ever submitted for public approval in this hemisphere, and assumes its pretensions to patronage on the following grounds:—

That it is a preparation of one of the most eminent Physicians to the Ottoman Court.

It prevents acidity of the stomach.

It relieves headaches of spirits.

It is a mild and invigorating tonic, and a most efficient but innocuous stimulant.

It renders the breath sweet and agreeable.

It stimulates the appetite if taken *before* meals.

It promotes digestion if taken *after* meals.

It neutralizes the propensity for strong liquors.

It renders the intellect bright and clear.

If taken habitually it imparts vitality and energy to all the bodily organs.

By its use the man of 70 will become, as it were, restored to the elasticity of 30; and to persons of delicate constitutions it is strongly recommended.

It is an especial favorite with Oriental ladies.

Secure then health, longevity and vital energy by the habitual use of the ALKABASAR TURKISH TONIC.
