Town and Country.

LENTEN SERVICES in St. George's Cathedral this evening.

THE schr. Irene has made her fourth trip to Cape Vincent with grain.

THE schr. Fanny Ledford left Wolfe Island for Brockville yesterday, with a cargo of wheat.

THE schr. Glad tone, which passed down on Friday, had not reached Brockville yesterday from some cause or other.

THE *Army and Navy Gazette* states that the 1st Battalion 60th Rifles is to be brought home from Canada during the summer or autumn.

MILITIA.—It is proposed to increase the strength of the Canadian field batteries from seventy-five to one hundred men, and from four to six guns of the latest pattern.

THE Belleville Registrar of births, marriages &c., has given notice for the 57th time that persons will be prosecuted under the act for neglect of registering. The officials up there are very careful.

THERE will be a contested election somewhere up west. The county paper says that the price of oats in those parts has declined since Tuesday last from $10 per bushel to thirty cents.

IT is the height of sarcasm for a reporter to chronicle.—The slush yesterday was delightful. We could be sarcastic this morning, as the warm sunshine has come again, and played havoc with the last installment of the snow.

CRICKET STAND.—Subscriptions have been received from the citizens sufficient to furnish funds for the erection of a handsome stand on the Cricket ground to replace the one blown down last Fall. It will be an improvement on the last, and there is room for it, too.

MILITARY SCHOOL.—Yesterday afternoon the following Cadets passed their final examination at the Kingston Military School Mr. C. M. Ferguson, Kingston; Mr. W. H. Hindmarsh, Kingston; and Mr. E. J. Rogers, Grafton. The examination was highly satisfactory, having elicited the expression of Col. Paterson's approval. A compliment in itself.

QUEEN'S UNIVERSITY.—A meeting of convocation will be held in Convocation Hall on Thursday at three o'clock, for the purpose of laureating the graduates lately mentioned in the *British Whig* as having passed the medical examinations. The public are invited to attend.

AURORA TURF CLUB.—In consequence of the Queen's Plate being advertized to be run for at Kingston on the 24th May, the Aurora Turf Club of Toronto will not hold their meeting as intended on that day, but on Wednesday and Thursday, May 31st and June 31st.

POINT ISLAND LIGHT.—Mr. Eccles, the keeper of this new light, cannot display it because the apparatus was taken away last Fall for repairs, it being then newly put up and found to be inefficient. He has telegraphed to Ottawa for information respecting it.

NEW BOAT.—Mr. Robert Davis, of this city, has entered into an arrangement with some of the merchants of Gananoque, as a result of which a large steamer is to be placed on the route between Kingston and Gananoque this season, to make daily trips, and to be useful besides for excursions and pic-nics. They are conjointly under negotiation at present for the purchase of a suitable boat in Montreal.

PRESENTATION.—The workmen of Messrs. George Offord and Co's shoe establishment, have presented Mr. W. J. Dick, book-keeper of the firm, who is about to leave the employment, with a handsome gold chain and a piece of silver for Mrs. Dick, as a mark of their esteem and respect. An address containing expressions of regret at Mr. Dick's leaving was read, and suitably replied to.

OBNOXIOUS ROBBERY.—A man named Dyke, living at Barriefield, complained of having been robbed on Saturday night by a couple of young men as he was crossing the Cataraqui Bridge on his way home from the city. They went through him to the extent of fifty cents, a knife, and his house key. The knife was found on the prisoner Procter, arrested on Sunday on Barriefield common as a vagrant. He wants to know who put that knife there.

ANTE *versus* ANTI.—Whenever a compositor makes a blunder, he is almost always sure to make the sence the precise contrary to that of the writer,—a ludicrous instance of this sort was in yesterday's issue. The writer spoke of an 'ante'-mortem examination meanning an examination before death. The compositor made it 'anti,' against death. This latter kind of examination would be very popular, if it could be made.

THE SIX PENNY READINGS.—The last Reading of the Lenten Series comes off to-morrow in the City Hall. It will be the gala affair of all, so that the parting recollection of the large and appreciative audiences which have patronized them will be a very agreeable one. We have great expectations, because several of the amateurs most highly thought of and favorable known have retained their best peices to the last, refusing on that account to take part in the preceding entertainments. The programme will be a very attractive one.

THE INQUEST IN PITTSBURG.—The adjourned inquest on the body of the late Mr. Peter Hagarty was resumed in Pittsburg yesterday afternoon, before Dr. Barker, coroner at his own residence. The young man Patterso, with whom he had the unfortunate squabble, was taken in charge by Detective McAulay near his home yesterday, and was present at the Inquest. The evidence of several persons who were witnesses of the affray was taken, as well as the testimony of the medical attendant who had made the post mortem examination, and who discovered the cause of death to be the bursting of a blood vessel in the head through the effects of a blow.

THE LITTLE WORMS has passed away, and March goes out as gaily as it came in. The quantity of snow that fell on Sunday night and part of Monday was greater than any that fell during the earlier part of the winter, being fully six inches, if not more, on a level, and yet such is the heat of the sun, that by the time this reaches the eye of the reader, it will be all gone, and the fields again be ready for the Spring work. The couple of days sleighing afforded by the late fall of snow came very gratefully, and was duly taken advantage of by all and sundry.

INTERIM SESSIONS.—The young boys, Gray, Shaver, Williams, Hutchinson and McCutcheon, committed for trial from the Police Court on Thursday last, were brought before His Honor Judge Burrowes in Interim Sessions on Monday, and with the exception of Gray, elected to be tried summarily before the Judge. To-day the trial will take place. Gray will be indicted at the Assizes in April.

THE HEALTH OF THE CITY.—The health inspection of the city is proceeding satisfactorily. Spring time has come, and with it we may expect diptheria, typhoid and scarlet fever to be more or less prevalent. These diseases almost invariably arise from a violation of sanitary laws, dirty lanes, with heaps of garbage left rotting in the sons, sewers with constant poisonous exhalations, and wells which are frequently in such close proximity to dirt heaps, that the water is most dangerously contaminated. We believe the police will report against a number of nuisances of this character, and the Board of Health are bound to take immediate steps to abate them.

SIX PENNY READINGS.—Should these readings be continued at any future time, it would be imperatively necessary to procure a Piano Forte of sufficient power to fill the City Hall. Few persons who have such an instrument like to lend it, and the hire is very great. It might be as well, should the Readings be resumed, to purchase one and allow the proceeds of the Readings to defray the cost. If the City Council gave a handsome subscription towards the purchase, the Piano Forte could remain in their charge, and be let out for concerts or on hire. It would very soon pay for itself.

THE CENSUS FOR 1871.—The census for the whole Dominion of Canada will be commenced on Monday the 3rd of April, and continued until finished. The census, if properly taken, will be a very complete one, and it should be properly taken, for the Agricultural Department has taken the utmost pains, giving the plainest instructions to make it complete. Among other things it enjoins the utmost secrecy on the part of the Enumerators. They are not to give any information of any kind whatsoever to any person, not to the Commissioner who appoints, but their Schedules are when received, to be immediately returned to the Department without revision. The matter of secrecy on the part of the Enumerators cannot be too well known prior to Monday next. The taking of the Census is expected to be finished in about three weeks.

THE CENSUS.—A copy of the people's schedules has been left at each house in the city and country, and in a great number of cases has been simply thrown in the doors, and the occupants left to come to the best possible conclusion themselves as to what is required of them. This is not what the Department officers designed altogether; they called for greater care. However even we may say that the census is to be taken on Monday next, April 3rd, and that the enumerators have to distribute the schedules, which show what questions the law compels every householder to answer. One of these is left in every house, in order that the householder may be prepared, either by charging his memory, by leaving orders at his house, or by writing down the required information in blanks on the sheet to answer the questions put to him by the enumerator when he calls.

"EDITH" is of a very enquiring frame of mind. She writes to learn from us the proper method of breaking a boiled egg preparatory to eating it—whether the top should be cut off with a knife or cracked with a spoon. She had a discussion with some "spooney" or other and wants the egg-sperienced head of our staff to decide between them. "Edith," we know, is a very fine and loveable girl, and we should be inclined to break off our *Brown* studies over the table of the members elected and their politics, to grant her pleasing request, but Edith has not furnished her name, and under the inexorable rule of newspaper offices, we must forego the pleasure it would afford us.

ACQUITTED.—The Williams Bigamy case, which arose in Kingston and was brought up in Court at Montreal, has been closed. McWilliams, an engineer on a lake steamer, it will be remembered wooed and married a young woman of respectable family in Kingston, and very shortly afterwards a woman with a grown child appeared on the scene of their domestic happiness, and claimed McWilliams as her lawful husband, he having deserted her in the Western States a year or two before. She was very violent in her passion against her presumed rival and her reputed husband, and it followed that he was arrested and committed for trial. The first marriage, however, could not be proved, and on Saturday in the Montreal Court of Queen's Bench, a jury formally acquitted the prisoner and he was discharged.

POLICE COURT, Tuesday.—Before the Mayor.—The young men Proctor, Priest, and Gallagher were brought up on remand, on the charge of general acts of vagrancy on Barriefield Commons, on Sunday last. A man named Dyke, who took part in arresting them, deposed that a knife stolen from him on Saturday night on the bridge, was found on Proctor. Proctor, however, claimed that he had found it, and the charge of robbing was not pushed. Being a bad pill, Proctor was committed for 60 days; Gallagher had to pay a fine of $5, and Priest went to gaol in default of paying that amount. John Daly, a very ordinary case of drunkenness, was fined $2. Mary Ann Bowen and Ann Moran, two notorious vagrants, were committed to gaol for 30 days each. The streets will be rid of that class of patrons for a while, judging from the harvest of them gathered in the gaol. They came out with the early spring, only to be nipped of suddenly.

THREE SCORE-YEARS AND TEN instead of being the limit assigned to human existence, should be its average duration, if people would avoid the causes that excite disease, or use the proper remedies to remove it. At this season when the melting snows and the spring showers make earth and air equally damp, the respiratory organs are peculiarly liable to be affected, and a neglected cold often settles down upon the lungs, producing Consumption, Asthma, Bronchitis and other formidable disorders. Three remedies are however to be found which obviate such evil consequences, viz. HOBART'S PULMONIC TROCHES as an internal medicine, ANODYNE, used externally on the chest and throat; and in chronic cases, HOBART'S COD LIVER OIL WITH HYPOPHOSPHITES. Every one suffering from a cold should profit by this advice.

GOOD NEWS FROM IRELAND.—During the Irish famine we sent a million of dollars worth of food to Cork. Ireland is now repaying the debt with interest, not from her exchequer, not from harvest fields, but from the adamantine rocks on her coast. An enterprising company in New York is importing ship loads of the edible moss that grows on her cliffs, and converting it, under the name of SEA MOSS FARINE, into an economic source of nourishment and palatable food. The new source of aliment is prepared under a patent, and although but a year in the market, has already taken precedence of all the gelatinous agents heretofore used in cookery. No epicure who has taste in puddings, custards and jellies made from SEA MOSS FARINE, will deny that they are incomparable. The saving effected by using this article instead of manzena, farina or corn starch (all of which it excels in palatability), is about fifty per cent.

DEAF. Did you ever think that what is termed a common cold, when systematically neglected, often leads to that most fatal and distressing disease—consumption—but when attended to as once is generally easy of cure. If you are troubled with a cold or cough, "Bryan's Pulmonic Wafers" will be found to be most efficacious in removing it. They give immediate relief, and generally effect a cure when used in time. Sold by all Druggists and country dealers. Price 25 cents per box. 68

BEAUTY.—The largest collection of beauty ever published in the United States is afforded in the Parlor Album, advertised in another column. This Album embraces the finest specimens of chromo lithographs, steel engravings, and fine wood engravings ever afforded the public. The American Publishing Company of Rutland, Vt., desire an active Agent in every town and village, to whom they offer liberal terms. Read the advertisement of PARLOR ALBUM. 54

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ½lb., ¼lb. and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

GREAT CONDITION MEDICINE.—As a condition medicine for Horses "Darley's Condition Powders and Arabian Heave Remedy" has no equal, its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless, have by the use of a few packages been restored to a healthy and sound condition, all traces of the disease having been completely removed, and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get "Darley's Condition Powders and Arabian Heave Remedy," we know you will be perfectly satisfied with the result. Remember the name and see that the signature of Hurd & Co is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

HOW TO MAKE MONEY.—Send to the American Publishing Company, Rutland, Vt., for their beautiful Specimen Book, and make ten dollars the first day you show the book. Read their advertisement in another column, concerning the Parlor Album, and you will get full particulars. The Parlor Album contains more beautiful embellishments than any other work extant. The Specimen Book is sent free on receipt of postage.

AYER'S AMERICAN ALMANAC, for the New Year, has arrived for delivery gratis by druggists to all who call for it. This little annual has the largest circulation of any book in the world, made by the fact that it furnishes the best medical advice which is available to the people—enables them to determine what their complaints are and how to cure them. It contains the startling announcement of the conflagration of a world, or the combustion of one of the stars in the firmament, with all its attendant phannets. 60

CLARK WRIGHT

FIRST PRIZE HATTER AND FURRIER; begs to inform his customers and friends and the public generally that he has now just received a large and complete assortment of Fine English Felt Hats, and also of the lower grades, besides having a large stock of his own make. He is also making the Latest and most Fashionable Styles of Silk Dress Hats; and will make to order on the shortest notice any Hat required, and fit it by his Patte Conformateur, which will give ease to the wearer. I recommend a few leading styles: The Melton Hat, Montague, Lorne, Mornington, Harrington, Basset, Crown Prince, John Bright, John A., St. John's, Tyne, Paris, Lacrosse, Marquis of Lorne, the Oxford, Wolsey, Cambria, Cambridge, Cavendish, and Congress. Also a good assortment of Cloth Caps.

FARM TO LEASE.

THE undersigned wishes to lease for a term a Farm of about 400 acres, nearly all cleared, within one mile and a half of the city limits, and capable of keeping from 60 to 70 cows the year round. The owner would stock the farm with cows, if desired, as he has about half the number required. There are new Stables for nearly that number, and five large Barns, and it is one of the best Dairy Farms in the County, having water in nearly every field.

I would sell the farm or divide it in two, to suit purchasers, on very reasonable terms of payment.

I wish to engage a married man by the year, who is a good farmer, as I have other farms to work.

Possession could be had on the first of March.

JOHN BREDEN.
