The Machine I offer is the Dodge Self W. B. & S. ANGLIN. Rake Mower and Heaper, and has been perfected and combined, taking from the Buck-Eye the principles that were found to be first clas, and from the Ohio those adapted for Resping, and for this reason it is sometimes called the Buck-Eye

and Ohio combined. It has two judependeat wheels supporting the frame which are both Drivers of large diameter, thereby giving more power in motion and running stea-& Waddell's dier on uneven ground and is always out of being the best in my opinion, operating perfectly to tall or short, tangled and lodged grain, gathering Seed Clover with as great facility as grain. After ten years experience in building and operating Respers, I now affirm as the result of that experience, that the Dodge Eake is a perfect working Self Bake.

There is another item of experience to to which I will a lude, I have heard agents assert that the separate Reaper and a separate Mower, would supercede Combined Machines. Experience has convinced me of the fallacy of that assertion. I am satisfied in our comparatively new country we | Timber, require strong machines to resist the strain they er often subjected to; that the light Machines after a lew years wear on large and rough farms, will be laid aside for stronger once, as not being adapted to such beavy labor, and the cutting portion of the Reaper is also worn, compelling the owner to replace them with a new one at a cost

of say \$ /00. Now take a Combined Machine at a cost of \$150. It is conceded generally, that the gearing will wear our both the cutting apparatus of the Mower. That the Combin-Single Mower, consequently lasts longer, and must tell at least \$50 in favor of Combined Machines.

RAKEF, the only perfect Com bined Machine offered in Market, and made only by
