WEDNESDAY EVENG, JULY 17, 1872

IN GENERAL.

A case of abortion, resulting in death, came to light in Cambridge, Mass, on Saturday last.

The proprietor of the Dennison House, St. Louis, cut his throat on the 14th inst., in a fit of delirium.

Mrs. Yelverton (Lady Avonmore) is said to be in Africa with the intention of joining Dr. Livingstone. Why?

The gross revenue of the United Kingdom for the year ending June 30th, 1872, was nearly £76,266,008.

The London *Echo* says that Catacazy's pamphlet is not worth noticing, that it only shows what a good thing it was to get rid of him at Washington.

Spontaneous combustion is given as the cause of the fire by which a large carriage factory in Portsmouth, N.H., (worth $50,000) was destroyed lately.

The schools of Paterson, N.J., had to close before the time for the usual holidays on account of small-pox, which prevails in every ward of the city.

A writer in the N.Y. *World* says that never was England so prosperous as she now is; never was trade so great, wages so high, or money so plentiful.

The people of Southampton, England, are going to entertain Admiral Alden and the officers and men of the American fleet now there.

Seventy Chinese workmen are engaged at the Beaver Falls Cutlery Factory in Pennsylvania, to take the places of the native operatives who struck recently.

The young men of New York amuse themselves by intoxicating the sparrows by cherries steeped in Bay rum, which the birds eagerly devour.

The report goes that thirty skilful engravers from Europe are engaged in New York in manufacturing plates of European bank notes.

Gambetta in a recent speech spoke of the Republic as the embodiment of order, self-government and prosperity, and highly eulogised Thiers and his Government.

The Permanent Board of Water and Sewage Commissioners of New York have been no better than other rings, having left obligations amounting to several millions for the city to meet.

The sculpture of the memorial to the Prince Consort in Hyde Park was officially opened by the Queen on the 1st inst. The central colossal bronze statue is all that is now needed for completion.

Passed through the Welland Canal

For Montreal Line.

Schr—S S Lamb; W J Greenwood, Coburg to Erie, iron ore.

Props—Georgian, Europe.

Schrs—A Falconer, Kingston to Port Huron, light; C P Dorr, Polly M Rogers.

The Orange Parade in New York.

The only disturbance reported in the New York papers in connection with the Orange procession is thus given by the *Sun*:

Just as the procession had passed Twelfth street, a young woman who was waving an orange handkerchief from the steps in front of No. 126 was seized by a ruffian and flung to the sidewalk, and the handkerchief snatched from her. Several officers sprang to the spot, whence the ruffian had already fled. The officers pursued, and as they were about to arrest him he struck one of them. The officer dealt him a blow with his locust, which cut an ugly gash in his scalp. He was taken to the Thirty-seventh street station-house, where he gave the name of Peter Campbell. During the excitement an officer dropped his revolver on the pavement, discharging it. The report caused a panic, and it was thought a riot had begun.

THE YACHT HENRIETTA.—The famous yacht Henrietta, the victor in the race to Cowes with the Sappho and Vesta is now employed in the fruit trade between the Spanish Maine and New Orleans. After going out of the hands of Mr. Bennett, the Henrietta was engaged in the African trade, in which she continued until last fall, when she entered her present trade. She still sustains her character for fleetness.

PHILANTHROPHIC.—The journalistics of New York have of late been distinguishing themselves in a new role. The *Herald* sent an expedition to hunt up Dr. Livingstone. The *Witness* furnishes 20,000 drinks (of ice water) to 20,000 thirsty souls per day, and receives 20,000 blessings in exchange. But, best of all, the *Times* has started a subscription for the purpose of getting up excursions for poor children, and to provide fans, ice, and necessary comforts for the sick children who are languishing in crowded and ill-ventilated tenements.

A San Francisco party has sold fifty tons of barley, for which he is to receive two cents a pound if Grant is elected, and nothing if he is not.

It is said that men who never drink between meals are less troubled with thirst, and generally less distressed by the heat than those who drink freely.

The Swiss guides are excellent fellows. They have associations among themselves, under the best regulations, to prevent any imposition upon travellers.

Advices from the wheat-growing departments of France speak with confidence of an abundant harvest, now that bad weather is followed by a warm atmosphere.

It is estimated that 15,000,000 tons of bituminous and 18,000,000 tons of anthracite coal were mined in the United States last year. There were imported 431,108 tons of coal.

Straws.

[Hamilton Times.]

What Cornwall would do out of pure cussedness, what Kingston would do out of pastoral liking of the Hon. Sandfield, it would not do at the bidding of the MacDonalds and Cameron of the broken down Ontario faction. The Borough has wheeled into the Reform ranks, and has been first to sound the key note of the coming Victory.

Where are the Tories safe now? The Local representative of Kingston was carried by the Reformers under the very High Joint nose of Sir John. The constituency of the late Premier of Ontario has been won by the Reformers at the first contest. The wall is made plain from the beginning. Ontario is ours from east to west. The struggle of the old faction is in vain. They are to certain defeat at the polls, and they know it. Demoralized and demoralized, a score of patriotic sating Sir, John cannot save them from overthrow. As Mackenzie prophesied at Montreal, we are going to sweep the Tories out of existence at this election.

EXTRAORDINARY SCENE AT TRALEE, IRELAND.—An extraordinary scene occurred in the Petty Sessions Court, Tralee, on the occasion of the trial of two privates of the Kerry Militia, on the charge of forming part of a riotous assembly who hooted the effigy of Judge Keogh, and committed a savage assault on Head Constable Walker. The building was thronged by a furious mob, the witnesses for the prosecution were hooted and threatened, and the disorder at length reached such a pitch that the magistrates had to send for an armed force of police, and clear the court. The prisoners were committed for trial.

HIGH FALUTIN.—An enthusiastic reporter on a Pennsylvania paper, in speaking of the belle of the evening, remarked that "the profusion and colour of her hair would lead one to look upon it as though it was spun by nimble fingers of the rosy hours, as they glide through the bright June days, whose many sunny rays of the light had been caught in the meshes, and were content to go no farther." This was much better than saying that her hair was red.

Do you want the best shoe ever made, one that will not rip or come apart? Then buy the Cable Screw Wire Boots and Shoes—all have the patent.

Poverty is bad, but the worst kind of poverty is poverty of the blood; this makes a man "poor indeed," for it takes away his strength, courage, and energy; but enrich the blood with its vital element, Iron, by taking the Peruvian Syrup (a protoxide of iron), and you will feel rich and "as good as anybody." Try it.

The cathartics used and approved by the physicians composing the various medical associations of this State are now condemned, and sold under the name of Parsons' Purgative Pills.

We copy the following from an exchange, which is important, if true: "Chronic diarrhœa of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of Johnson's Anodyne Liniment. We know whereof we affirm.

After sour, pestilence and intemperance—colds lead to the greatest destruction of human life, mainly, because it is considered by many to be of no consequence and hence systematically neglected, until a simple, curable disease, is converted into a fatal pulmonary one. Everyone troubled with what is called a slight cold or cough, should immediately use Dr. Jayne's Pulmonic Wafers—they allay irritation at once, and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all druggists and country dealers. Price 25 cts. per box.

Did you ever think that what is termed a common cold, when systematically neglected, often leads to that most fatal and distressing disease—consumption—but, when attended to at once is generally easy of cure. If you are troubled with a cold or cough, "Bryan's Pulmonic Wafers" will be found to be the most efficacious in removing it. They give immediate relief, and generally effect a cure when used in time. Sold by all Druggists and country dealers. Price 25 cents per box.

"Every pleasure has its accompanying pain."—This maxim of the Greek philosopher is daily verified during the summer season, when our pleasure in eating delicious fruits is somewhat dulled by the dreadful prospect of colics, cramps, diarrhœa, dysentery, cholera, and other disagreeable consequences of an over-feed. But the pain of anticipation vanishes and the present pleasure alone remains, when we reflect that "every bane has its antidote" and that all diseases of the bowels are checked and cured by the timely use of Arnott's Arnica Anodyne.

Office of Evans, Mercer & Co., Wholesale Druggists, Montreal November, 1871.
Mr. James I. Fellows. Dear Sir:—We have a large and increasing demand for your Compound Syrup of Hypophosphites and there is no doubt as its valuable properties become more generally known, its sale will still further increase. The best proof of the efficiency and high character of the preparation is that medical men are largely prescribing it; and we hear from Dispensing Chemists that prescriptions for Syr. Hypo. C. Fellows are daily on the increase. We are respectfully, EVANS, MERCER & CO.

Hide Bound Horses.—A horse is said to be hide-bound when his skin will not slip under the pressure of the hand, but sticks as if it was glued, which condition is always dependent on a deranged state of the stomach and digestive organs—by correcting which, and giving to them a healthy tone and condition, the disease or complaint will disappear. Experience has proved the means best adapted to this end is "Darley's Condition Powders and Arabian Heave Remedy." It has been used in numerous cases with complete success, generally effecting a cure in a few days. It is the best condition medicine known, and may be given with perfect safety at all times, and does not require that the horse be kept from work. Remember the name, and see that the signature of Hiram & Co., is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

A Chemical Food & Nutritive Tonic.

THE GREAT POPULARITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is owing to its perfect reliability in building up constitutions run down with diseases of the Stomach, Liver and Kidneys which arise from Dyspepsia or Feeble Digestion, and result in poor blood and breaking down of the general health. It effectually relieves pain or a sense of fullness in the stomach after eating, Heart burn, Flatulence, Constipation from torpid liver, Bilious Headaches, Irritation of the, Kidneys and Bladder from the red deposit in the Urine, irritability and restlessness followed by nervous prostration and general debility which inevitably arise from the one common cause—Dyspepsia or feeble Digestion. All these defects and miseries that lack energy and vitality, and are unable to arouse themselves to any exertion or undergo any fatigue, will be astonished at the rapidity with which the whole system is raised out of this prostrate condition and energized and vitalized under the use of this preparation. It is a fabulous, delicious, does not lose its effect, and is not followed by a relapse. Sold at $1.00

June 27, 1872.
