THOMAS' ECLECTRIC OIL Worth Ten Times Its Weight in Gold. De You know anything of it? If not, It is time you did.

There are few preparations of medicine which have withstood the impartial judgment of the people for any great length of Oil, purely a preparation of seven of some library stories." of the best Oils that are known, each one physicians know that medicines may be formed off several ingredients in certain from the use of any one of them, or in dif- terature ; it is indeed a family paper." ferent combinations. Thus in the preparation of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, or any other ingredients, and entirely different from any thing ever before made, one which produces the most astonishing results, and any medicine ever before discovered. contains no alcohol or other volatile liquids, consequently loses nothing by evaporation. Wherever applied you get the benefit every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small quantity of Oils which they may contain.
