The Sinking of the Northfleet. Landon, Jan. 25. -It is reported this morning that a steamship has been discovered sunken at the scene of the collimon off Dungeness light house, on Wedneeday night. The opinion is becoming general that the vessel which ran into the Northfleet also went down with all hands before the engigrant ship. The ewner of the Spanish steamship Murillo, who landed at Dover two hours before the collision occurred, believed it was his vessel which was in collision with the Northfleet, and that both were destroyed.

turing to the people of Meaford upon the Liquor Laws, and in his address attered some wise suggestions anent the restraint of drunkenness which deserve publicity. In the first place, he expressed himself in favor of an increase in the excise and custems duties on spirits, and though it has been objected to this that its chief re-'sult would only be to offer a premium to adulteration and smuggling, we believe that a very considerable addition to the revenue might be raised in this way without the evil eifests thus anticipated. also advocated the abolition of "bars," and would not allow liquor to be sold in the same room in which it is kept. This strikes us as a very sensible prepasition, for it is very evident that much of the excessive indulgence in spirita is due to the pernicious system of drinking "treat" pressing unlicensed greggeries, Mr. Beaty question.
