SECOND SESSION.

Toronto, Feb. 27. - After routine prosirable that the management of the Indian | Service5:00. lands in Ontario be transferred to the Government of this Province, and that such steps be taken as shall bring about that result. He said a petition on this subject had been sent last session from the County of Essex, stating that there were about 9,000 acres of Indian lands in that county very pourly cultivated.

Mr. Crooks said that the metion was very important, as there was no doubt in many instances these recerves stood in the way of the general progress of the country. He considered that it would be very dithcult to bring these lands under the control of the Province, and also difficult if transferred to others.

Mr. Sinclair thought that the Indians were willing to sell their lands, and it would be a good policy of this Government to purchase from them and settle them; a portion of the surplus might be very advant grously expended in this direction. Mr. Scott, of Ottawa, was in favor of this motion. Carried.
