A CUNNING FRAUD. - A Parisian swind ler recently managed to obtain the sum 50 francs from the janitor of the house is which he lived by a very ingenious plan. He wrete a number of postal-card-meseages, addressed to himself, as if coming from different persons, in which frequent references were made to a certain large sum of money that he was shortly to receive. The porter, of course, read all these notes before taking the cards to the tenant's apartment; and so it happened that when the ingenious knave asked the perter one day to lend him 50 francs, he readily consented. He never saw either the swindler or his money after that.

Inflammatory affections of the throat and chest are cured by a few applications. Full directions for use are given with each bottle.

Be Wise. - Too often a cold or slight cough is considered a very ordinary, triff ing affair, just as well left to go as it can e, and hence systematically neglected until a simple curable affection is converted into a serious pulmonary disease. The more prudent, aware that a cough or cold should never be triffed with, promptly use "Bry an's Pulmonic Wafers," which have sustained their reputation for over 30 years. They are always efficacious, and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all Druggists and country merchants. Price 25 cents per bux.
