A Sad Affair.

It is not hard to believe that Dickens's early hard experience was a grief even in memory. The despair of children is keen | Cheap at -as keen as their innate sense of justice. Here is a sad little story from Germany, the moral of which is applicable to any civilized country. In Muirenburg, a boy only ten years old lately hung himself in DASKETS, his school-room, leaving a letter in which he placed his death at his teacher's deor. bequeathed his small property to his sister, and asked pardon of his father and mother for the sin he was about to commit. Inquiry showed that during the morning's lessons the boy was inattentive. Of every description. and his teacher, instead of suspecting fatigue, could think of no better remedy for this than censuring and punishing him, in spite of his being usually a willing and industrious scholar, and of constit tion not strong. Taking exhaustion for laziness, the master struck, threatened fellow, utterly hopeless, scribbled his pa-thetic letter and went out of the world. is still enough of the old obtuse system

The Royal Canadian Insurance Company.

AUTHORIZED CAPITAL, \$5,000,000.

LIMITED LIABILITY.

THE present rates of Fire Insurance throughout the Dominion (the result of combi-I nation among the various Insurance Companies) are, it is believed, not only excessive, but unnecessary; and however severe the losses to those Companies may have been in the late calamitous fires in Chicago, Boston, and other cities in the United States, the losses in the business of Insurance throughout the Dominion does not warrant the great increase which has lately taken place in Kingston and elsewhere.

The improvements for extinguishing fire by the recent introduction of Steam Fire Engines and other apparatus have been ignored. Hitherto therisks have not been sufficienty classified, and taking past experience into consideration, it is ample to justify the promoters of this Company in saying a most profitable business can be done in the City of Kingston at much reduced rates than are de nanded and enforced by the existing comequal annual instalments, with interest on bination; it will also enable the citizens to retain with themselves large sums of money the unpaid balance of the purchase money which have hitherto been annually sent abroad.

Within a short period, the rates on special risks-such as the Cathedrals, Churches, a Hospitals, &c , have been micreased 100 per cent, while the mercantile community now pay from 100 to 150 per cent more on their stocks, than were the current rates of in-Copies of plan may b. had on application | surance in the same premises one year ago.

From the published official returns of the business of the principal Companies for 1872 within the Lominion, this great increase would seem unnecessary, as the follow-NAME OF COMPANY.
