The Maid of the Mist.

TRUE STORY OF THE LETTLE STEAMER OF NIAGARA FALES

The story of the Maid of the Mist have never seen in print, not even in the guide books. . As an instance of reckless the boat was part cowner of the but towards morning was induced to step on shore for a few moments. The instant he was safe on terra firma the captain gave the signal to swing off, and steam being up, the Maid of the Mist was quick-

The captain had conceived the bold

idea of running down the stream and escaping to Lake Ontario. It appears that the engineer and fireman, the only the persons on board, were ignorant of this lesign, and thought they were merely oussing the river. It took but a few minutes for the vessel, aided by steam and current, to be whirled down the fearful torrents She quickly passed the railroad suspension bridge, and soon was amid the tierce waves of the whirlpool, when the captain found that he could not in the slightest degree, control her movements. The engineer-a good Baptist-fell to praying. The boat was whirled around, her smoke-stack fell, and the few persons who were witnesses of the scene gave her up for lost. In a few minutes, however, she emerged from the whirlpool and dashed on her way down the stream. The danger was over, and at this time the staunch little vessel is doing ferry work in the vicinity of Kingston. The captain who thus imperiled his own life and that of his little crew was paid \$500 for his pluck, besides procuring whatever advantage accrued to him from the escape of the steamer. The Baptist engineer, it is said, at first thought of auing for damages, but as he had only been frightened, he finally abandoned his in-

STRANGE. - Is it not strange that Mr McMullen, who is so bad a fellow, was quite good enough a few months ago to stretch his legs under the table of Sir Hugh Allan, to hob-nob with Mr. Abbott as d tecome the medium of communication between capitalists and the Cahadian Financial Minister!

Geo. P. Rowell & Co's fame as Advertising Agents has rendered their firm name a household word. Every body has heard of them; but perhaps every one does not know that this firm have for two or three years leased a column or more of apace in nearly every prominent and reliable newspaper in the country. Journal Recorder, West Meriden, Conu.

Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence therefore makes it the the business of everyone to take care of a cold until until it is got rid of. Fortunately "Bryan's Pulmonic Wafers," are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages of consumption, asthma and bronchitis. Sold by all Druggists and country dealers. Price 25 cts.

A Question. - Why will people keep four or five ill-looking sickly horses to do the work that one good horse might perform ! If a horse has the heaves, has a cough or cold, or his wind in any way affected; if his appetite is bad, or his digestive organs deranged, has a rough skin or is hide bound, we would in all cases recommend the use of "Darley's Condition Powders and Arabian Heave Remedy;" it never fails to benefit and almost always removes the disease; it is free from anything that can injure, and may be used at all times with safety. Try it and you will be satisfied. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada, Sold by all Medicine dcalers.

NE of the most notable properties of DR. WHEELER'S Compound Elixir of Phosphates and Calisaya is its sustaining power during active mental and physical exception. Business men, editors, clergymen, lavyers, physicians, and all classes engaged in any occupation requiring great application and consequent fatigue, will find this remedy invaluable, as it will enable them to accomplish their work with comparative case. Phosphate of Lime is an active agent of nutrition. constituting more than tifty per cent of the system; Phospherous, a powerful Nerve Tonic; Phosphate of Iroh, a blood maker; and Calisayaan agreeable supporting Tonic.
