Bombardment of Cartagena-LONDON, Nov. 29.—Special despatches lars of the bombardment of Cartagena on Wednesday. The arsenal and barracks were chief marks for the besiegers' artillery, but the cathedral and hospital were also struck. On Friday the theatre, Protestant church, and two entire streets were destroyed, and two hundred persons killed and wounded within the city. The insurgents have raised the black flag on the forts. At last accounts the fire around the city was subsiding. The loss of the besiegers has been exceedingly small. The officers of the foreign squadrons succeeded in obtaining an armistice of four hours on Friday night.
