The City Council of Montreal has been investigating the history of Baby Farming, lately brought so prominently before the public. It is shown that no less than 719 illegitimate children were placed in the general hospital of the Grey Nuns, Montreal, and out of this number only 88 survived. The Sisters have made a statement of the Nangle case, to which we referred a few days ago, denying some of the assections, and representing that the work in which they are engaged involves ant's favor. They ask for a searching inquest, so that the public may know what they are doing, and to whom the blame, if any there be under the peculiar circumstances of the system, rightly belongs. The Grey Nunnery is the only institution of the kind in Canada, and as a consequence is overcrowded with these helpless waifs.

THE PENALTY.

The Leader rises to explain. A great ado has been made over the non-fulfillment by the United States Government of their part of the Washington Treaty, so far as it relates to Canada. Ald. Ald Dupuis did not even say that he considered the customs referred to right, but naturally presumed that they are considered right on account of the class of people that indulge in them-namely, a class, many of whom set themselves up for examples to such poor erring mortals

who suffer from the effects of Errors and Abuses in early life, as Mental and Physical Debility, Nerrousness, &c., by Rob, J. Claverwell, M.D. The celebrated author, in this admirable esmay, clearly demonstrates, from a thirty years' successful practice, that the slarming quences of Errors in youth may be radically chied without the dangerous use of internal medicine or the application of the knife, pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer no matter what his condition may be, may cure himself cheaply, privately and radically.
