Important to Users of Steam.

### REASONS

WHY TANDY'S PATENT BOILER IS SUR-PERIOR TO ALL OTHERS :

1st.-It is simple in construction, easy to keep clean and less liable to get out of than any other Boiler.

2nd -- It is constructed on sound scientific principles, the water circulating as near as practicable at right angles with the action of

3rd. - The water circulates inside the tubes

which gives double the strength and one third more effective heating surface with the same number and description of tubes when fixed in an ordinary Boiler. power and cheaper in a corresponding 5th -- It can ot prime, it gives perfectly dry steam and effects a saving in fuel of at least 30 per cent on any ordinary Boiler.
6th.—It requires no brick work to set it and is applicable to every variety of purpose, both for steam engines and heating buildings by

In use with my Patent Boiler and take the HENDERSON saving in fuel in part payment. It can be seen in operation at my Works.

G. J. TANDY, Engineer, Millwright, Poilermaker, Iron and Brass Founder. Feb 7, 1876.

### NOTICE TO CONTRACTORS.

TENDERS will be received till TUESDAY, the 25th April, at noon, for the Masons, Bricklayers, Carpenters, Tinsmiths, Painters an Glaziers work required in the erection of Cattage on Colborne street. Plans and specifications may be seen at my office, Marble Block, Princess street. The lowest or any tender not necessarily April 19, 1876.
