THURSDAY EV'NG, MAY 4, 1876.

Some of the Opposition organs have been busily engaged lately in the re-organization of the Dominion Cabinet, as a work of actual necessity, they tell us. To this kind of work the Ottawa Free Press | the Opposition in Parliament, by proving decidedly objects, and adds:

are awaiting the fulfilment of their predictions, it is satisfactory to know that the administration of the public business goes acronely and satisfactorily ou, and that Mesers. Blake, Huntington, Cauchon, their various labors just as if they had not been deposed by the Conservative oracles, and had no intention of gratifying the inclination of their disinterested Opposition friends."

----The new License Law, which went into operation on the 1st inst., will be closely watched and criticized by friends and form. Much is expected from its provisions in the way of better temperance infiltence, but this will largely depend upon the watchfulness and attention given the matter in question by Inspectors and others expected to look after those who may show an inclination to violate the las. The minimum of licenses permitted in municipalities has not been insisted on in many cases, although the cutting down has been considerable everywhere. Rej seted applicants for licenses have to close n) their houses and turn their attention to something else for gaining a livelihood We have every reason to believe that the Commissioners have acted fairly and the best of their ability. That somebody has been disappointed and made angry quite reasonable to suppose, but that political favors were permitted to influence appointments we do not believe.

is going to be done about North Middleattributed to Governmental interference, knowledge of that great "reaction." A constituency that was represented by the during part of this time unchallenged, can scarcely have reacted so powerfully cost. So much for Conservative figures as to intimidate the political party controlling it. There is no immediate necessity why the election should take place without delay, and certainly the Conservatives can benefit by time as well as Reformers. The demand so authoritatively made by the Mail may be heeded by Mr. Anglin for reasons quite foreign to those adduced, and then the country will know exactly how much of a "reaction" has gained a foothold in North Middlesex, and who the successor to Mr. Scatcherd will be. We have not the slightest apprehension of any advantage being gained by the Opposition through the coming election.

Intelligence has been received of the traffic death of the Hon. Ebenezer Perry at the advanced age of 89 years. The honorable gentlemen was formerly Deputy Sheriff of with the barges Marquis and Bentley, Northumberland and Durham. He was grain laden, from Toronto for Montreal. made a life member of the Legislative Conneil of Canada, holding the position from February, 1855, until the union He was called to the Senate on the 2nd of February, 1871. Mr. Perry was a Con- that the ice bridge is still strong at Queservative, and in his private as well as his bec, and that consequently there need be public life universally respected. It is stated that Mr. Carruthers, of Kingston, will probably succeed him. - Citizen.

The rumor of Mr. Carruthers being should not be surprised if it turns out a be made by the Government, but we and freight. occupy a seat in the Commons. Mr. Swift's wharf for Montreal. Carruthers is too much of an active busially. That his influence in behalf of good assistance this afternoon. government, of which he is and has been a zealous advocate, would be highly beneficial to the country all must admit

alanders, says:-which the utterer dered not repeat when ling: at Ostawa face to face with his opponents. Yo we see these same after-dinner slanders in cold-blood distributed all over the country as "The Conservative Hand book," to be retailed by minor slanderers. What does the Whig think of this feature

corn most them before the electors.

MORE ABROCATION.

As we predicted some time ago, the effect, and immediate force will be given | tion relates, with the assistance of serious complications hereafter.

THE CONTRAST.

their protective theories to be mere fan-"Meantime, while our contemporaries cies of the imagination and without foundation in fact. The enquiries extended over a wide range of industries, and were as thorough and satisfactory as could be expected. The object, also, was of na-Smith, Vail, Burpes and Laird continue tional importance, and carried out with an honest purpose of ascertaining as nearly as possible what the actual condition of inventor of the described improvements, our manufacturing and trade industries existing tariff duties. The result was so antagonistic to the hopes and calculations of the Opposition leaders that Herculean efforts were put forth by themsolves and their organs to belittle the whole proceedings, and make them appear as party manipulations intended to serve a necessary purpose. This attempt not succeeding as desired the Mail, as the monthpieco that the cost of the Committee had been something wonderful, even for Grit extravagance. The total expense for all purposes was put down as not far below \$5,000, and then the sympathies of prudent folks was appealed to in passionate language. Mr. Mills, the Chairman of to the effect that the entire cost of the in. vestigation would not reach \$2,000, much of Tuesday gave the actual cost of all the Select Committees of the Heuse of Commons during the past session, from which The Mail is very anxious to know what quiry-witnesses and reporting-cost cide whether the improvement is better sex. The delay in issuing the writ is Election case shows an expense of \$1,- the improvement is new and useful 347.70, or nearly \$250 more than the and not, merely the result of venality of the Speaker and a conscious Committee about which so much has been said. The total expense of all Comlate Mr. Scatcherd for fifteen years, and less than what the Mail said the Depres- cant can appeal from his decision to the Hon. S.C. Wood, the Minister, the year

WASHINGTON LETTER

To give some idea of the wonderful increase of business there has been possible. On account of Great Britain's Patent Office, it may be stated that there refusal to surrender the prisoner on were only 473 Patents issued in the year terms demanded by the United States, 1840, while there were 482 issued for the the latter have decided upon the abro- week alone, ending Feb. 22, 1876. During gation of the 10th clause of the Ash- the year 1849 the total seceipts of the burton Treaty, which provides for the Office were \$80,752, while the receipts for extradition of criminals between the two | the month of March, 1875, were \$80,495. ountries. This treaty specifies that the An application for a patent consists of a clause mentioned may be abrogated by fee of \$15.00, petition, oath, specificaeither Government in the usual way, and tion, model and drawing. The petition Secretary Fish has decided that the ac- is a mere request that a patent may be tion is fully within the powers of the issued to the applicant. The specification United States Cabinet, without the sanc- is a description of the invention, and tion of Congress. Formal notice has al- must be so full, clear and exact, that any ready been served on England to that one skilled in the art to which the invento the decision. This is another small drawings, can make and use the same, act by a great power, and may be esti- without any experiments of his part. If mated in the light of other treaty en- the specification is not thus clear, the gagements by the Government of the Courts will declare the patent null United States. It grates somewhat and void if it is ever brought before harshly on the jubilee music of a Cen- them. At the end of the specification, tennial year, and may be the means of and forming part of it, is the claim, in which the inventor sets forth what claims as new, and so exactly what he claims, the Courts in deciding up on the questions of infringement validity, rigidly hold him. In case The Depression of Trade Committee suit is brought against some one for selldid a work that had a chilling effect upon ing an article or machine, which an in ventor considers as an infringement upon his patent, the Courts do not stop to ask how new or meritorious the patented invention is, or how much the inventor might have claimed, but simply look to see what he actually does claim. The oath must declare that the appplicant believes himself to be the first and original and that he does not know or believe that was, and how much they were affected by the same was ever before known or used, hence it will be seen that only the inventor or inventors can make application for a patent. In case of the death of the inventor, his administrator can have the patent issue to him. The model should not exceed twelve inches square, and should show the invention perfectly. The drawings are made from the model, and should show all of its parts so perfectly that the operation of the machine can be readily understood. Where the invenof the Opposition, undertook to prove tion consists of a medicine, composition or mixture, specimens of the ingredients

Although the office is presided over by sign every patent issued, he knows nothing about any one of them, except those that have been brought before him on appeal, nor is it possible for him to do so. The inventions are divided up into that Committee, authorized a statement classes, and each class is under the charge of a special Examiner, who has a number of Assistants to help him. As soon as the application is filed in the Office, it is less the figure quoted by the Mail. This sent to the proper Examiner, whose dutywas pronounced a delusion and character- it is to thoroughly examine as to the paistically false Grit statement. The Globe tentability of the invention, and if he finds that it is new and useful he grants a patent. If the invention is old, trivial, or for immoral purposes, and is very frequently the case, a patent is refused. The we learn that the Depression of Trade en- Examiners are neither called upon to de than what has gone before, nor how use-\$1,107.96. The notorious Charlevoix ful it is. Having once determined that good workmanship or judgment, they must issue the patent. If an Examiner, does wrongfully refuse a patent, brings the operations up to the 31st of Demittees foot up \$3,498.06, or some \$1,500 as is very frequently the case, the applicamber, 1875. We find by the report of sion of Trade Committee alone would Board of Examiners, who, if they think 1875, in consequence of the agreement the Examiner is wrong, reverse his de- formed in November, 1874, for joint ope-

Henry Prentice on certificates of deposit night it was announced that Mr. John for \$12,000, total liabilities \$20,000. The McDonald, M.P., had offered two gold medals for competition amongst the scholars of the public schools.

MARRIED IN . HASTE.

A London letter says: The latest matrimonial romance of the stage is rather more romantic than the average run of these affaires de cour. The leading partner of a well-known and very wealthy firm of London solicitors, while enjoying an evening at the theatre, was smitten corps de ballet. Something happened. The rich lawyer, not over young himself, but with intentions strictly honorable, obtained an introduction to the fascinating coryphee, and very soon the acquainshe under twenty. The handsome girl belonged to an homble family of eleven children, and by one of those outbreaks the whole batch of them. The new wife, too, must be fitted for a position "unto which she was not born," and the doting a dozen servants to minister to his wants. On certain days, I am told, the ex-ballot girl, seated in an elegantly appointed Paris, May 4. - Several Deputies have on strength of documentary evidence in away from West End to her mother's abude in - street, an event which pro- It Glee-Calm be thy slumbers duces no small sensation among the gosof French workmen to Philadelphia, will sips of that humble neighborhood. From what I learn the lady is worthy the good fortune which has so unexpectedly fallen
