CITY AND VICINITY

RECEIVED.—The general rules and orders of the Supreme and Exchequer Court of Canada have been issued. They are neatly printed. To the legal profession the book is most useful.

BOARD OF HEALTH.—About fifty of our most notable citizens were appointed to the honorable position of being connected with the Board of Health. And yet not one of those citizens have had the privilege of using their prerogative, and all the while the big piles of dirt and strong smelling sewers are next thing to shouting for removal and cleansing. We have spoken; who'll be the next?

OVERWORK.—The Pembroke *Observer* records the sad death of a promising and estimable young aspirant after knowledge, Mr. James Brown, of Stafford Township. He entered Queen's College last session, and weakened by hard study, his system was unable to bear up under an attack of inflammation of the lungs, of which he died. The deceased, not yet having attained his majority, was an exemplary and much esteemed young man.

THAT CART.—The watering cart is not out to-day. It is not needed, the dust is laid by the rain, for which Providence be thanked, as it gave us the only pleasant day for walking of the season so far. The Corporation officials have not woke up to the necessity of the thing yet. They will not until the dust one of these days chokes some one, in which event the city will be at the expense of a Coroner's inquest, and at present we can't make up our mind which is the most unpleasant occurrence—a storm of dust or a Coroner's enquiry.

GYPSIES.—The city is being visited by a band of gypsies, who make the usual bustle and stir. Their chief stock in trade is a collection of horses of more or less value, which they are ready to trade at any time and under varied conditions and terms. They are certainly entitled to be styled a peculiar people—peculiar in mode of life, and most peculiar in the manner in which they get hold of fine horses, for they are always selling and always getting. Don't ask how, for there we are mystified.

MILITARY COLLEGE.—The gentlemen undernamed, having passed their examinations in the order of merit, have been approved for admission as Cadets to the Military College at Kingston:

Charles Albert Desbrisay, Bathurst, N. B.
Victor Brereton Rivers, Brockville, Ont.
James Speilman, Ottawa, Ont.
Charles Oliver Fairbank, Petrolia, Ont.
Alyesworth Bowen Perry, Napanee, Ont.
John Bray Cochrane, Brockville, Ont.
Francis Joseph Dixon, Belleville, Ont.
George Edwin Perley, St. John, N. B.

IN MORE TROUBLE.—At Toronto on Saturday a man named Edward Wickham was committed for trial on a charge of bigamy at the Police Court. He has served a term of three years in the Penitentiary for killing a colored man, as he asserts, in self-defence. It was previous to his incarceration that he married number one, who, while her husband was in prison, lived a loose life. On his leaving the Penitentiary he took unto himself wife number two in Toronto, and number one appearing on the scene shortly after he found himself under arrest for bigamy. The King.ton Penitentiary graduates very often distinguish themselves.

VALUABLE WORK.—From Mr. S. G. Beatty, Principal of the Belleville Commercial College, we have received a copy of his latest publication—"Beatty's guide to elegant writing"—a book by which young men and young ladies may be self-instructed in the most approved styles of penmanship. Accompanying it are a number of specimens of writing, beautifully executed—lithographs from the writing of Mr. Beatty. The Belleville College is considered the best in the Province. Mr. Beatty's writing was chosen for the Centennial Exhibition.

EXCITING.—During the launch on Saturday afternoon an exciting scene took place in the harbor. A party of young girls were rowing along the front of the docks just as the new schooner "Hyderabad" glided from the ways. The event must have been unexpected to them. The plunge of the big craft into the water and its approach in the direction in which they were rowing seemed to create great consternation, and the scuffling and confusion was such that the wonder grows that the frail craft was not upset, and the excited creatures immersed and probably drowned. Oars there were plenty, but the girls knew little about rowing apparently, and made more splashing than the "Geneva," when running at 18 miles an hour. Finally the little boat was propelled out of the course of the "Hyderabad," and the youngsters breathed easy but felt weakened by the fright which they had received. One of the young ladies lost a parasol in the scare.

"HEWED DOWN."—Another old landmark has been removed. Some time during Saturday night the apple trees, which constituted the only ornament of the Market Battery grounds, was roughly hewn down by some one's little hatchet. What particular harm the tree did or wherein consisted its offensiveness we fail to perceive. Certainly in the past—not during the present year, however—it has been used for purposes for which it was never intended—i.e., as a post to suspend a long line of clothing from, of sundry colours, shapes and designs, which, flaunting and flapping in so public a spot made the duds and the place a shade too conspicuous; but then the past should have been buried, and the apple tree spared, to bud and blossom and give to the small radius which it covered a somewhat civilized and respectful appearance. Some busy body has been imitating George Washington, in this Centennial year, and has been mischievously wielding his little hatchet for want of something better to do.

TEMPERANCE.

Yesterday the temperance meeting in the Victoria Music Hall was addressed by Rev. James Elliott, President of the Wesleyan Conference. An interesting speaker at all times, the Rev. gentleman seemed to throw into this old theme the power novel theme a freshness that was really appreciative. Noting the fact that in all ages of the world there had been leading questions which captivated public thought and agitated public opinion he proceeded to dwell upon a few of the principal topics of the present day and one of the chief of these was temperance—the reformation of the social usages of society. He discussed it from many standpoints, inclusive of the relation it bore to the civil government. In this latter respect he held that the question of revenue was considered very important, that while the revenue was in a sense considered essential, it was doubtful if the licensed sale of liquor was in the end profitable—that the country paid dearly for it. Still no Government could cope with it and secure abolition of its own moving. The people must be educated for it, and when the pulse beats sufficiently strong it will be reasonable to expect prohibition. He hoped for this end; he urged the temperance people to work towards this end. He then touched upon the means of fighting against the evil of intemperance, and to be completely successful he commended the influences and agencies of the Church, and through it and its Christian members the influence of God, the Guide and Giver of all things spiritual and mundane. He referred to many instances which had came to his own knowledge where the happiness of households had been destroyed by drink. Sad were the pictures he had witnessed, bitter the lamentations he had heard—all the result of drink. He spoke encouragingly of the success of the temperance movement. He prayed for greater success in the future.

The chair was occupied by Mr. A. Chown. The singing was very fine, though the audience was not large the voices blended in one grand, melodious chorus, at once inspiring and worshipful.

LAUNCH.—On Saturday the new schr. Hyderabad was launched from the Marine Railway. To see the event a large number had collected in the ship yard, while many occupied prominent places on the adjoining wharves, fences and buildings. Four was the hour at which the launch was to take place, but it was somewhat later before the arrangements were complete. A large number of persons boarded the vessel to experience the sensation of the launch, and those persons must have had their greatest expectations gratified, for a prettier baptism could not well be imagined. Most evenly balanced on the ways, as soon as the fastenings were loosened she commenced to move, first slowly, but increasing in speed until as she neared the end her motion was such as to propel her far out into the harbour. She entered the water most gracefully and without a rock, and sailed away, stern foremost, for some distance, then made a curve, by which she cut about a vessel anchored off the Foundry wharf as neatly as if under some guiding hand. The tug Lady Franklin took her in two, and brought her to the wharf, and all was over—the enthusiasm attending the active part of the launch had subsided, and the gay bunting and scattering crowd were all that indicated the recent event of so much nautical interest. The new craft is 127 feet keel, 26½ feet beam, 16 feet hold, 137 feet over all, and 17,000 bushels capacity. The Hyderabad makes the sixty second craft built under Mr. Power's supervision.

THE WATERING EXPENSE.—The delay in bringing out the water carts, for which a suffering public has called so loudly during the past week, has been, we understand, owing to the fact that in past years the expense has been borne by private subscription, while this year it is proposed the Corporation should assume the liability and furnish the means. We hold that the private subscription system is not fair and equitable, because by it a few generously and liberally disposed are really providing comfort which the public generally share; and, again, the subscribers to a private fund on Princess street do not include all the merchants or nearly all. The Corporation should properly pay for the watering. We hope the Council will take this view of the matter, and at the meeting to-night refer the case to the Committee on Fire, Water and Gas, and that under its direction the carts may be ordered out forthwith. Public indignation will be hard to repress unless something be done.

HIBERNICA.—On Wednesday and Thursday evenings Bordwell's Hibernica—an entertaining variety of comedy and panorama—will be placed on the boards of the City Hall. It is on the programme announced for a stay of three nights, but this intention has been frustrated by the Company's failure to secure the Hall on Friday evening, owing to its engagement for the annual meeting of the Orphans' Home managers, teachers and children. The Hibernica paintings are said to be beautiful works of art; the comedy sprightly and amusing.

ANY HOPE?—No apparent arrangement has been made for a yacht race on the 24th. We regret this, as such an event would have been looked upon with no small degree of favour and interest. Is there still no possibility of a regatta? We ask the question in hope of it finding a satisfactory response.

"THE CHRISTIAN WORKER" is the magazine published monthly by the Young Men's Christian Association of Montreal. The contents are of a very readable nature. It gives an intelligent and interesting summary of the Association work in all parts of the Dominion. The last number speaks highly of the valuable services in Montreal of Mr. Crombie, now engaged in evangelistic work in this city.

POLICE.—Charles Dougherty, drunk, paid his $2 like a little man and stepped out. Two cases were amicably settled—a case of assault and another of disputed wages. A case of larceny is on the boards for to-morrow—Ashley vs. Newman.

ARRIVED.—The Canadian S.S. "Sarmatian" arrived at Father Point at 2 a.m. on Sunday, with 71 cabin and 237 steerage passengers. Mails due here to-night.

WIND WAFTS.

The new time table came into operation on the Grand Trunk Railway to-day. We presume the trains will be about as regular and punctual as usual.

The Clayton *Independent* critic took what he calls a flying visit to Gananoque last week. He was not shot at, as this is the close season for geese in Canada.

The Thousand Island Camp Meeting Association announce the holding of a Sabbath School Convention at their grounds on Wells Island about the 15th of June.

The Clayton people have an excursion, accompanied by the band, on str. Faxton, to Kingston on Wednesday; the Rochester takes a run down the river on the same day.

South Bay is the place for muscalonge. Big fellows forty and fifty pounds each are hooked in abundance. Muscalonge are game fish, and piscatorial artistes must be kind of game in order to take them.

Joe Wilson and Robert Berry, two men who reached and took what wasn't their'n, have been booked for the Kingston Penitentiary for two years apiece. That will put them nicely over the hard times.

The Mayor of Kingston has issued his proclamation for the 24th, but the *Enterprise* fancies the people of that city do not take much interest in it. What they want is a sprinkling cart. Verily the *Enterprise* man speaks like a prophet!

The work on the Belleville Street Railway has been nearly finished. Ours is not so far forward. Kingston people are not advised to be too fast—but we may gently hint that the street railway will likely be begun shortly.

The Clayton *Independent* prints the particulars of a map—an old relic of a thing—on which is inscribed: "Thousand Islands—position uncertain." This is the source of knowledge from which the *Eagle* man drew his inspiration in writing up the history of Carleton Island.

Mrs. Spencer, of Port Ontario, called Theodore, her husband, a "dirty mean thing," and sailed away for Oswego or some other virtuous town on the American side. Theodore was taking after his Brooklyn namesake—he was too promiscuous in his love.

The depth of water on the lock sill of the Lachine Canal to-day is one inch more than it was yesterday at noon. On Saturday measured 28 feet 6 inches. In this harbor the water rises and falls daily three and four inches. The variation is caused by the tides which to many seem an uncommon, if not an unknown, thing.

The yacht Gypsy Girl has arrived at Belleville. The *Intelligencer* admits that she is a neat little craft, that she sails well and is an acceptable addition to the fleet, the *Ontario* pronounces her a handsome piece of naval architecture. Thus our contemporaries admit what we have been contending for all along.

Mrs. Thorne, of Prince Edward, is peddling chromos in Belleville, and the *Ontario* recommends her to public patronage because she is a superannuated teacher. If she's that kind of a dame she needn't call on us. The picture of little Mrs. —— high hung amid an array of *Grip* cartoons, is quite sufficient as a reminder of a superannuated gossip whose case Charley Rykert so pathetically commended to public notoriety.

OBITUARY.

THE LATE MRS. GREENLEES.—There was last evening carried away at a ripe old age a respected resident of Sunbury, Mrs. Greenlees. She had spent an ordinary life time in the county, had won esteem for kind and neighbourly qualities and died regretted by all who knew her; and they were many indeed whom she had encountered in her active days. She was exemplary in her character and raised around her a family which bears a wide respect also, and to whom she had left the heritage of a good memory and a sad mourning as well. She had for a number of years previous to her death been living a devoted Christian life. Through her short illness she was never heard to complain, although she suffered much pain.—A.M.

ORANGE FUNERAL.—Yesterday afternoon the remains of the late Mr. John Laturney were buried in Cataraqui Cemetery. The funeral was very large and very respectable. The cortege embraced a large representation of city Orangemen, the 'Prentice Boys and the Orange Young Britons, who appeared in regalia, and by their numerous attendance attested to the great respect in which the deceased was held by them. The band of the 47th Battalion headed the procession and played solemn dirges in an appropriate manner.

RAIN FALL.—The rain storm of Sunday morning early was short but very heavy. A deal of rain fell, nor was it confined to this immediate neighborhood, but seems to have extended to Toronto and beyond. The rain of last night and to-day was welcome indeed. The face of nature seems to be completely renewed by it, and no one can rightly calculate the immense benefits that will follow—that are being already manifest—from an agricultural standpoint.

SUNDAY FUNERALS.—At one of the city Churches—the Brock Street Presbyterian—the Rev. pastor spoke against Sunday funerals, in every case where they could be avoided. His grounds were well taken. It's time to protest when regimental bands, for display sake, play so gaily through the streets succeeding the burial of a prominent citizen.

DEPOSIT SYSTEM.—The grumbling continues against the deposit system, so persistently followed in regard to the engagement of the City Hall. It is a great piece of nonsense—no gain to the city, but a draw back which is doing the city much harm. By resolution of the Council this evening we want to see the nuisance abolished.

EXCURSION.—Prominent among the attractions of the 24th the excursion to Cape Vincent on the str. 'Maud' should be remembered. It is the first of the season's cheap excursions on the "Maud," and promises to be delightfully pleasant.

The Churches.

Yesterday the churches were filled better than at any time this year except on Easter Day. The glorious bright sun brought out troops of fair-weather Christians.

Announcements of services on Ascension Day (Thursday) were made—for St. George's Cathedral at 11 a.m. (with sacrament) and 3 p.m.; at St. Paul's 7 p.m.; at St. James' 7 p.m.; at All Saints—p.m. The Rev. Mr. Kirkpatrick in his morning sermon called for a better remembrance and observance of this day than has been evidenced in the past. It was no solemn fast day, but a joyous Festival, which many neither thought of nor recognized, though it stands equally with Easter Sunday worthy of the church's brightest praises.

The Ven. Archdeacon Parnell preached to St. George's congregation in the morning. *On dit* that some of the members of this aristocratic congregation do not enjoy the interim services in St. George's Hall, the Cathedral being closed for repairs, because "You don't know who you have got to sit by, you know."

The Rev. Mr. Duke, who has but recently arrived from Cork, Ireland, and intends to become connected with the Canadian Wesleyan Conference, preached yesterday morning in the Sydenham Street Church and last evening in the Queen Street Church. His sermons were earnest and practical.

The Rev. Mr. Lang, M.A., temporarily occupying the pulpit of Chalmers' Church, at the morning service yesterday paid respectful tribute to the memory of the late Mr. Matthews, for some time an elder and for thirty years a member of the church. Mr. William Cunningham followed by playing in beautiful style the "Dead March in Saul."

If it had been known that one of the evening sermons (Anglican) was to be specially devoted to the ladies there would have been a larger attendance of the fair ones and their inevitable companions. The text contained the words from James, "Slow to speak."

With the warm weather come yawning congregations and murmurs against long sermons. The Toronto *Telegram* remarks that any intelligent clergyman can speak off all that need be said on one subject in half an hour. Because the Jews were wandering in the wilderness for forty years is no reason why a clergyman should take forty minutes describing their sufferings in the journey.

OUTRAGE.—Between Picton, Belleville, Bath, Fitzroy Harbor and Portland the clergy and laity of the Diocese of Ontario are having a lively time—the other kind Christian revival. High and Low do not evidently know how good and blessed a thing it is for brethren to live together in unity. The latest scandal comes from Portland, Leeds, where on Tuesday night last, when some parties unknown entered the English Church through a window, doing serious damage to the organ, which belonged to the Incumbent, he having had recent differences on ritual and discipline with his parishioners, to which cause the outrage is attributed.

REVIVAL.—Last evening Mr. W. P. Crombie commenced a series of revival services in the Victoria Music Hall. There was a very large attendance—the hall was filled. The singing was strong, and the religious exercises which followed were of an interesting and impressive order. Mr. Crombie is an exceptionally active and vigorous worker, and he has that essentially better qualification of being intensely earnest in all that he says or does. The evangelistic services will be continued every evening during the week.

MARINE NEWS.

MISHAPS.—The steamer Oswego Belle was reported to have run aground in the Napanee River on Saturday. The schr. Mary Battle, timber laden for Garden Island, run ashore on Amherst Island, but was got off without much difficulty by the Hiram Calvin, Capt. Donnelly.

THE SQUALL.—The harbour was visited by a lively squall at 10:30 o'clock this morning. Among the fleet lying at the M.T. Company's dock the effect was damaging. One of the barges in its wild plunges made a wreck of the jibboom of the schr. Lady Dufferin, and the fluke of the Lady Dufferin's anchor knocked a hole in one of the barges, while the bark Acorn carried away the timber heads of the schr. Brooklyn. The schrs. Clara White and Ben Franklin are also relieved of their jibbooms.

McPhie's Wharf.—Arrivals: Cecilia Jeffrey, from Port Dalhousie, 9,010 bush wheat; Caledonia, from Cobourg, 3,742 bush peas and 2,330 bush wheat; Defiance, Port Dalhousie, 8,515 bush wheat; Gladstone, Port Dalhousie, 10,500 wheat; Montauk, from Chicago, 21,381 bush wheat; Madeira, from Milwaukee, 21,940 bush wheat. The tug Frank Perew arrived from Montreal with five barges, light, and left with the following: Tuscorora, 19,316 bush wheat; Tiger, 6,958 bush corn and 5,750 bush wheat; Lion, 13,020 bush wheat; "D," 13,857 bush wheat.

M.T. Co's Wharf.—Arrived: Schr Clara White, Toronto, 3,440 bush corn; A Falconer, Pt Darlington, 10,615 bush wheat; Nellie Hunter, Cobourg, 12,000 bush wheat; Brooklyn, Milwaukee, 24,000 bush wheat; John Walters, Toronto, 10,123 bush wheat; W. W Grant, 10,031 bush wheat.

Swift's.—The props Shickluna, City of Montreal and Persia, and str Corinthian passed up from Montreal. The prop Georgian passed down from Lake Erie. The schr Franklin arrived from Cleveland with grind stones, and the Jura from Rochester with tiles. The steambarge Water Lily arrived from Ottawa, and the steambarge Nile left for Smith's Falls.

Holcomb & Stewart's—arrived: Sea Gull, from Toledo, 13,900 bus corn; Sweepstakes, from Milford, 13,000 bus wheat. The Laurel leaves for Gananoque with 7,000 bus wheat; the Aerial is bound down from Port Hope. She is receiving some necessary repairs at the Railway. On Saturday the steambarge Clinton arrived with 16,000 bus wheat from Milwaukee; the tug Wren arrived from Montreal with the barges Jet, Eagle, Star No. 1, Annie, Martin and Swan. The Wren left with barges Siren, 25,500 bus wheat; Lark, 13,000 bus wheat; and Annie, 14,000 bus wheat.

Oswego, May 20.—The schr Marysburg, from Toronto, collided with the schr America below Oak Orchard on Saturday night. The Marysburg lost her bowsprit, jib-boom and had her bow above the water line stove in. The damage to the America is not known.

March 11 1876. A. ROSS.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made simply with Boiling Water or Milk.—Sold only in packets labelled—"JAMES EPPS & Co., Homœopathic Chemists, 48, Threadneedle Street, and 170, Piccadilly, Works, Euston Road and Camden Town, London."
