DAMAGED GOODS

There Is No Denying the Fact.

THE LATE FIRE CLEARED the TRACK and made havoc among property owners, generally, but P. HARTY has made a revolution amongst the would be cheap Johns, in DRY GOODS in this city, and makes thousands happy everyday by giving them Goods at their own prices.

CHEAP GOODS

Will tell and so will the public at large tell one another. Everybody says without any exception whatever, that

The Best Styles, the Nicest Goods and the Best Bargains in the City, can be had at

P. HARTY'S,

Market Square.

He regrets that his opponents should have taken the matter to heart so much, but has no consolation to offer them, for as long as any portion of the Damaged Stock remains unsold, so long will he continue to slaughter prices right and left. Advertising and puffing cheap goods seems to be all the rage just now, some houses advertising Prints at 5c a yd as an inducement to purchasers, but the announcement is stale. P. HARTY has sold Fast Color'd Prints at 5c per yd long before the Fire and does so still. There are others again who advertize Bankrupt Stocks and Compound Stocks, and every other kind of Stocks they please; but fire proof Goods at fire prices will rule the market and compel Bankrupt and Compound Stocks to take the back track. Call early to avoid the rush and examine the goods before purchasing elsewhere. Don't delay too long, as the entire Stock must and will be sold in the shortest possible time.

P. HARTY,
Market Square.

July 25, 1876.

P.S.—Will show the contents of ten cases of Prints and Dress Goods to-day at prices that will astonish the world. P. H.

CITY AND VICINITY

☞ GOLD in New York at 12 o'clock M.

BAD.—There must be something wrong with the equator to-day. Feels as though it had been moved up North.

FOR ROCHESTER RACES.—See announcement of cheap trips by "Oswego Belle" and "Kincardine" to Oswego, Rochester, &c., for the race week.

THE *News* intimates that it does not like to make replies to are fun at its expense. It is sparing of our feelings, and we are so fearful of the old lady. Very!

BIG MARKET.—The country waggons, filled with light produce for market, came in handsome procession this morning. There was a total absence of failure in the crops of garden sass.

ON Monday our Police reporter will detail some of the scenes he has viewed and recount some of the sentiments he has heard at Court during the past week. They are kindly hooked up to-day to give precedence to other matter.

DOGS SHORT.—The Oswego *Palladium* thinks that the 436 dogs registered in Kingston are too few for 12,000 people. What then, we may enquire cursorily, is it for our actual population, 14,700, not including Portsmouth?

EXCURSION.—The ladies of Chalmer's Church have engaged the Maud for an excursion to Wells' Island on Wednesday, 16th August, the day the camp meeting services open. Advertisement on Monday.

ROCHESTER RACES.—Lovers of horse flesh and those who desire a cheap and pleasant trip across the lake, during this hot weather, should take advantage of the offers in our advertisement columns of cheap trips to Rochester for the big event of this month.

BATHING.—The restrictions placed upon bathing from the Government property has increased the offensive displays on Cataraqui Bridge and along the city front. The unnecessary prohibition is anothing but a pleasing contribution to public decency.

LIVELY SEASON.—There were ten steamers (9 for passengers) in and about Alexandria Bay yesterday, besides eight or ten steam yachts. Every room in the Thousand Islands House and Crossman House was taken, and some Kingstonians were among those who could not stay for the ball through want of accommodation.

AN EXCURSION.—On Thursday evening Ancient St. John's Lodge took the initiative in the proposal of holding again this year a Masonic excursion, a committee being appointed to confer with the other local lodges for a united action.

A CHANGE.—We should not probably have noticed any glaring change, but it is stated to us that since Lieut.-Colonel Van Straubenzie became Deputy Adjutant-General the Garrison horses are not used as much as they were for the private jaunts of the officers.

CROQUET PARTY.—A very interesting party of this kind was held in the Drill Shed, Odessa, on the evening of the 3rd inst. The *Beaver* says about a hundred guests were present. Dancing was introduced by way of variety. Montgomery's quadrille band, Kingston, furnished excellent music.

THE ISLANDS.—The Thousand Islands are now the places for a quiet retreat this hot weather. To pass among them and see the cosy residences which have sprung up upon these little isles, is to first admire them and then wish that Fortune would lavish her favours so that the "sweets" of life might be more generally shared.

A COMET.—We learn of the appearance of a comet, at present visible before midnight in the north-eastern and eastern heavens. To the naked eye it presents the appearance of a small nebula or a star enveloped in fog, and is scarcely discernable as a comet, but with an ordinary telescope or opera glass it appears like a comet with two tails extending in opposite directions.

ODDFELLOWS RELIEF.—The Grand Patriorch of the Grand Encampment, in his address, made allusion to the benefits of the mutual Aid Associations which are in a flourishing condition, one situated in Kingston in the east, the other in Hamilton in the west. The operations of these associations have been beneficial, paying promptly on the death of a brother a goodly sum to his widow or family at a time when most needed, and he had no doubt that in many instances relieve society of a great burden.

THE CHURCHES.

—The monthly Catechistical service in connection with St. James' Church will take place to-morrow afternoon.

—To-morrow is the day set upon by the Roman Church to commemorate the life of St. Alphonsus, the founder of the Order of the Holy Redeemer.

—A special meeting of the Presbytery of Kingston was held yesterday; the trials of Mr. Cormick were unanimously sustained. Mr. Cormack's ordination to the congregations of Harrowsmith, and Glenvale will take place on Tuesday next. The Rev. Mr. Young, of Napanee, will preach; the Rev. Andrew Wilson will address the minister, and the Rev. T. S. Chambers will address the people.

—The John Street Presbyterian Church, Belleville, have placed in their pastor's hands a sum of money amply sufficient to defray expenses of a visit to the Centennial and Washington, also pulpit expenses during his absence. The Rev. gentleman was in the city on Thursday at the meeting of the Kingston Presbytery.

—An association has been formed at Philadelphia, which, if it receives anything like the support it deserves should prove a powerful engine in furthering the recognition of the principle of free church sittings. While the main object of the new "Free Church Association" is to maintain the freedom of free sittings in all churches, and to promote the abandonment of the pew-rent system, it also devotes its attention to the recognition of the Offertory as an act of Christian worship and as a Scriptural means of raising money for pious and charitable uses.

THE DIOCESES.—A combined effort is being made by the Bishops of Moutreal and Ontario for the erection of a new diocese, to consist of the eastern counties of the Ontario diocese and the western of the Montreal diocese. It is worthy of remark that a movement with the object of disintegrating the diocese of Montreal is going on in both the Anglican and Roman Catholic Churches. In both instances the work is found to be beyond the power of the Bishop, who is compelled to neglect a large portion of his flock. The Catholic diocese, which is even larger than that presided over by the Metropolitan, is to be divided into three, the Bishop of Montreal taking charge only of the city and immediate vicinity. Bishop Oxendon's proposal is receiving the hearty sympathy of his colleague, Bishop Lewis of Ontario.—*Telegram.*

THE POLITICAL MRS. SQUEERS.—Grip's last cartoon contains a good moral, as well as gives effect to a good laugh. It is entitled "The Political Mrs. Squeers and her nauseous dose." The Mrs. Squeers is Sir John, attired in woman's garb, who with the aid of a limber gad, and Mr. Alfred Boultbee is physicing with the Pacific Scandal, the members of the United Empire Club, who are represented as so many school boys, and whose faces bear resemblance to those of the leading politicians of Toronto and the Province—Hon. Willie McDougall, Charley Rykert, Dr. Tupper, Beattie of the *Leader*, the Messrs. Gibbs, Mayor Medcalfe. The scandal is shown as a kind of medicine, very nasty to take. Pattersonof the *Mail*, has been the first patient, but he has passed through the unpleasant ordeal very courageously, for leaning against the counter, he makes a ghastly smile and remarks: "She (Sir John) can't sicken me. I can swallow anything. M. C. Cameron comes next; but Matt objects, and Boultbee holds him up. Boultbee's mission, while Mrs. Squeers takes a large spoonful of the physic and forces it into his mouth, at the same time saying: "Now, boys, come and be dosed. No compulsion, only if you don't there is expulsion, and you wouldn't get any of the good things that are coming when we get our Treasury holidays. Swallow it at once; you'll feel much better when it's over. It's not so bad; that is, not very bad; I mean, not so bad as it might be. Think what you'd have to swallow at the other school, and if it stuck, G.B. would ram it down with a Big Push at once. Hold him up. Hang that boy; he's got it in his eye; all the better; he won't see what the next spoonful's like. Next boy! If you make a face, my good little fellow, I'll skin you alive. Next! Take it at once; no nonsense, we have an organization here, and want no independents feeling round this school. Next boy!" On the wall are two placards, one being an extract of Sir John's speech at Colborne, "Nothing in my conscience or soul condemns it (the Pacific Scandal) morally! I would be prepared to do the same thing over again under like circumstances." The other placard bears these words: "Conservative treacle and brimstone, new dose, entered at Uxbridge, by Mrs. John A. Squeers. N.B.—The boys are expected to swallow this dose without wincing."

ARBITRATION.—The arbitrators *en re* the claim of Hon R. J. Cartwright, for and used in widening the Newburg Road from the railway bridge to Thomas street, opened court at Napanee on the 2nd of August. The *Beaver* says that on 15th of December, 1873, the town council passed a by-law for widening what is known as the Newburg Road. A portion of land averaging in width from eighteen to twenty feet was taken from the gore, the railway bride and Thomas street, the property of Hon. Mr. Cartwright, for which he claims compensation, this arbitration was appointed to determine the amount. The arbitrators have reserved their decision till next Tuesday.

EXCURSION.—In visiting Alexandria Bay one occasionally wonders where the people come from. The popularity of the resort must be great to make it attractive, the more so as the season advances. There must have been about a score of excursions yesterday; steamers of all desigus and descriptions were there from near and far. A gala day was advertised; people went to the Bay expecting a gala time and we fancy they realized all they expected.

THE CAMP ISLAND.—Capt. Hinckley, Sr., adding the testimony of his good memory and knowledge of the river to the discussion as to what the name of the Holy Isle was derived from, says it was long known only as Wells' Island. Therefore the present name, Wellesley, is likely a clearer continuation of the old name, Wells with the religious title, Wesley.

WELL, WELL!—What got into the young men last evening? By what strange impulses were they moved that so many, at an uncommonly late hour, mingled in noisy and disreputable demonstrations about the street! Nice goings on to be sure, in this enlightened and prohibition agitated age.

THE RAPE CASE.—We have received a correspondence from Messrs. Schroeder and Sexton, J. P., of Portsmouth, anent the late extraordinary charge of rape preferred against Mr. J. W. Allen, of Portsmouth. It will appear on Monday.

WIND WAFTS.

—On Tuesday next the Catholic Church of Cape Vincent will have a pic-nic at Channel Grove.

—The installation of St. John's Lodge, A.F. & A.M., Pittsburg, will take place on Wednesday next.

—These nights are positively too lovely to spend in sleeping. The moonlight is not often so brilliant.

—The "Maud" will have a moonlight excursion to Channel Grove, Simcoe Island, on Tuesday evening next.

—The Royal Mail steamers are well crowded these mornings. The season of travel is now at its height.

—Mr. Pisati and family, of Kingston, started for Italy, Monday, by the way of New York.

—Dr. Dickson has been elected by the Medical Association a delegate to the International Medical Congress to be held at Philadelphia in Sept. next.

—The Napanee *Beaver* is going to abolish its Christmas week of holidays and take them in summer when the heat makes work almost intolerable.

—In August days
When Sol's fierce rays
Burned like a school ma'am's ruler
'Tis sweet to think
That man can drink
More beer than when 'tis cooler.

—The Silver Leaf base ball Club of Napanee wants to play the Young Earls of Kingston. Well come on and let's have less "chin music."

—The Rochester races are the next prominent attraction for the sports. Several talk of attending them from this place.

—The young man Kinch, who a short time ago attempted to committ suicide by hanging in Hungerford, has since died from the effect of his self-inflicted injuries.

—The Cape Vincent *Eagle* reports the birth of five children the other day at Garden Island within in an hour of each other. Happy mothers! happy fathers!! happy Garden Island!!!

TO HAND.—Lowell Brown, the Cayuga chap, sentenced to two years' imprisonment in the Kingston Penitentiary, for destroying property, arrived here yesterday. He will assist in blacksmithing at the K.P.

—The Union Sunday School excursion from Philadelphia to the Thousand Island Park on Thursday, was attended by 450 persons. The route was via Cape Vincent.

—The yacht Oriole was unlucky enough on Wednesday evening, when *en route* to Alexandria Bay, to run aground on the shoals near Carleton Island. She was pulled off by the steamer T. H. Camp.

—H. S. Watson had better stop giving temperance lectures. He falsified Mr. Mackenzie, the Baptist Church repudiated him, and now he is being passed around the country as a person that does not always tell the truth. It does not do for him to preach morality.

—Says the Brockville *Recorder*: "The yacht "Sleepy Canadian" went to the Bay this morning to participate in the regatta held there this afternoon. As two yachts are expected from Kingston, she will have an opportunity of showing her speed." And she was so true to her name that no one knew when or in what order she came.

—Vennor has disappointed us somewhat these days, as he predicted a coldness we have not had feet and we don't like to lose faith in him, believing like an exchange, that the ways of noting when bears come out of their holes, by keeping track of how the beavers build their dams, by making notes of the eccentricities of the squirrels, by recording the thickness of onion peels and corn-cob spathes, and other old and obsolete plans are fast falling into desuetude.

MARRIAGE IN NEEDLE LIFE.

IN SEELEY'S BAY.—Of a roving disposition many things cross stray paths, and during these dull times, oppressed by sultry heat and business inactivity, much is accepted to stimulate one and relieve the monotony of a weary hour. It is always noticable in small villages trivial events are lauded with peculiar import, and every birth, marriage and death leavened with the gratified feeling of the narrator. On last Friday no surprise was manifested on hearing the correctness of the rumor that a marriage was on the tapis, and that two worthy members of the "shears" had determined to fell personally a graceful event, which even a Tooley St. tailor would find it impossible to unravel. We have the benefit of large advantages here, evidence is obvious—even to a church—but surprise was evident after an expose of a week's billing and cooing that two individuals of mature equal ages would so prematurely feel the onus of their position and outrage the social notions of the village. Sitting one day on the bench of Mr. James Young, it was obvious the eye of the needle was never more opened to a thread than theirs to a loving dart, and the consummation was reached last night when all assembled to do honor to the occasion and give a grand charivari in commemoration of an untoward event of the days of yore. We piously, (with a Kingston man) looked on, agreeably relieved when participating with the rat-te-tat of the moment. Such an infernal din was never heard at this side of the River Styx; such pros and cons, such hypocrisy and hate and all the others concommitants connected with a mature society will suffice for a next letter.—*Com.*

METEORS.—Next week the young folks will have something to look at besides the moon. The date of August meteors is at hand. These visitors from the interplanetary regions commence to enter the earth's atmosphere about the 6th of August, and from that time until the 15th are visible in various numbers. The period of maximum display occurs generally on the night of the 10th of August. They may be seen in all degrees of brilliancy by a steady gaze with the face slanted at an angle of 45°, and the north-west corner of the sleepy eye.

THE RIFLE.—Major Cotton, School of Gunnery, Kingston, has been chosen one of the Creedmore team, his aggregate score for the three days being: At 200 yards, 177; at 900 yards, 173; at 1,000 yards, 186—total, 536. He stood sixth in the list. Mr. J. J. Mason, of Hamilton is the "crack" shot.

POLICE.—John Prant, drunk, and Alex. Robinson, drunk, were fined $2 each or 15 days.

TO-DAY'S BUDGET.

—Hon. E. B. Wood is daily expected in Toronto.

—Rev. Dr. Puncheon expects to visit Canada next Fall.

—Sergeant Bates is to make another tour through Canada.

—Maskinonge fishing is better than it has been for years in the back lakes.

—Sims Reeves, Jr., is said to be as fine a singer as his father.

—The wife of a New York undertaker laid out 103 children during two weeks of the present month.

—Winslow is looking for a situation in London. No money lender should be without him.

—A barge laden with bricks sank in the St. Lawrence opposite Montreal yesterday.

—A perfect system of snow sheds is being constructed on the Intercolonial Railroad.

—Three coffins containing human bones have been dug up near the canal basin at Montreal.

—Seven hundred Catholics with a number of Turks have gone over to the Montenegrins.

—Eighty thousand dollars have been subscribed towards the opposition line of steamers between Montreal and Quebec.

—John Kilron, of Buffalo, cut his wife's throat on the 3rd, and then put an end to his own life. They leave 13 children.

—Miss Elizabeth Thompson, the famous English painter, has joined the Roman Catholic Church.

—Sojourner Truth was a slave in the State of New York, and was set free in 1827.

—From the late action taken by the Belleville Town Council, the Grand Junction Railway is likely to be at a stand still for some time to come.

—The Ballast wharf property at St. John, N.B., will probably be bought for $40,000 as a terminus of the Intercolonial.

—The linen travelling Ulster is a much abused garment. A man looks like a Munster in it. Connaught be done to improve it?

—Sergeant McMouemy, of Hamilton, has again distinguished himself by the capture of a criminal—one Kelly, who is wanted on a charge of brutal assault.

—Nine thousand men and twelve krupp guns have left Egypt for Turkey. Eleven thousand more men and twenty-four krupp guns will shortly leave for the same destination.

—The marriage of King Alfonso to a daughter of the Duc de Montpensier has been actually arranged, but the ceremony may not take place until next year.

—Mr. John Ross Robertson, publisher of the *Evening Telegram*, was on Wednesday committed for trial on a charge of libelling Mr. Wm. Kelly, proprietor of the Mansion House, in stating in the above paper that his hotel was bankrupt.

—The Reeve of Amherstburg has recently given a sensible decision. One of those trivial assault cases, in which one party is as much to blame as the other, came before him, and he fined both $1 each and divided the costs.

—Garibaldi is regarded with something like idolatry by the workingmen of Italy. He makes himself one of them, and is never ashamed to own that he himself was once a workingman.

—The fashionable thing among the bloods of Cincinnati is to go to Hudnut's butchery and drink the crimson elixir from the throat of the healthy bullock. Ladies are particularly addicted to gore.

—We find the following in the St. Catharines *News*: "Intense study of the Bible will keep any writer from being vulgar in point of style."

—During the last twenty years the British Government have added 573 ships to the navy by building, and they have purchased 44 more; 110 have been sold, 128 broken up, and 31 lost.

—Five applicants for second class teachers' certificates and sixty-eight for third class have passed in the County of Bruce. In Carleton fifty third class certificates were granted. In Wellington only three second class applicants were successful and seventy-three third class.

—Statistics show that New York is the most unhealthy city in the world. Its death rate is three times as large as that of London; more than twice as large as that of Paris, nearly twice as large as in St. Louis, Charleston and Boston, eight per cent. more than Brooklyn, seven per cent. more than Philadelphia.

A FIGHT.—Of course where a large body of men are collected together it is reasonable to expect that the rougher element predominates to a very large extent, such as that at Alexandria Bay yesterday. Where the rougher element showed what stuff it was made of by raising the biggest kind of a row towards the end of the day's proceedings. No one was hurt but a couple of fellows who wanted to fight badly, and who drew the blood pretty freely while the boxing lasted.
