It is a work of 254 pages, and contains a large amount of descriptive matter, in addition to the ordinary advertisers and subscribers' classified business directory, a street guide and a miscellaneous directory, to which is added Directories of Barriefield. Cataraqui and Portsmouth. The Directory has been corrected to the 15th February, 1878, so that but little time has been lost in its publication. The miscellaneous directory contains a list of the companies and societies doing business, with a list of their officers, times of meeting, &c , also the list of stages and steimboat routes. As far as we can see the Directory appears very accurate, and the price of it to non subscribers is only \$2, so that it should obtain a wide circulation.
