Ottawa, April 4.-The course that the Opposition will take in reference to the address from the Legislature of Quebec protesting against the action of the Lieutenant-Governor in dismissing the De Boucherville Government has now transpired. As was supposed, a motion in amendment will Supply, but the motion may not be made for some days yet. Some surprise had been felt at the delay, and people could not divine the cause, but I can now give it. Mr DeBoucherville and his friends have been engaged in preparing a statement in reply to that for-Honour Mr Letellier. This was completed but if he finds that he can, it will be presented without delay. He will doubtless consult his ministers on the point and be guided by their advice. If it should be termined that he cannot receive it, then an effort will be made to have it laid before the two Houses through the Secretary of State, and this failing it will be published to the country through the press.
