NEW POST OFFICE. - We are informed that negotiations are in progress for the opening of a post office at the present terminus of the Kingston & Pembroke Railway, on the River Mississippi.

PROBABILITIES for next 24 hours: For Lower Lake region, fresh northwest to southwest winds, clear to fair weather; possibly light local rains at night. For the Upper St. Lawrence, fresh winds, cloudy to fair weather, with areas of snow.

CORNER LOAFING .- Now that the fine weather is come, corner loafing has been resumed. As an exchange remarks, "The fashion of corner loafing has not at all changed this year." The same fellows who indulged in the practice before continue it, and the police should make a note of it.

REMOVED. - The City Registry Office was yesterday removed to the new building at the Court House. Whether or not the removal will be agreeable to those who are in | Kirkpatrick in Europe. the habit of visiting the office is a question. The lawyers will certainly not appreciate having to walk such a distance to attend to their business.

CHICKEN STEALING. - This practice still prevails in different parts of the city. This morning information was received that some valuable fowls had been stolen from a gentleman residing on Earl street, this being the second theft from the same place. Parties having fowls would do well to see that they are carefully secured at night.

TELEGRAPHIC NEWS. - As a specimen of the news received by telegraph from the States, we may mention that this morning a despatch was received from New York announcing that a butcher's boy in Brooklyn, N.Y., had, while cutting meat, severed an artery. Many of our American despatches are committed to the waste basket as so much useless trash.

MAJOR TOT COMBINATION. - The Intelligencer says : "This company made their first appearance in the Belleville Opera House last night, and succeeded in creating a favourable impression. The 'Major' is, besides being a very small specimen of humanity, clever and amusing." The troupe will perform in the City Hall, Kingston, on Wednesday and Thursday next. THE STEAMER ARMENIA. - This fine boat, the first on the Bay of Quinte this season, is well deserving of patronage. Since last season she has been entirely refitted, and her machinery moved more towards the stern. This adds greatly to the accommodation of the boat, which is now very comfortable. The great advantage of her running on the Bay is that she leaves for Picton in the evening, thus saving a day. We hope that the proprietors will meet with the encouragement their enterprise deserves.

BLACK WOOD'S MAGAZINE for March (Leonard Scott Publishing Co., 41 Barclay street, New York), which has just reached us, opens with the ninth part of "Mine is Thine," in which we are treated to a very amusing account of a deer drive. The second paper is a historical and practical description of the Canadian Fisheries, explaining the object and action of the Halifax Comission. Under the heading "New Books" several works are notleed. "Only Jean" is a quiet Scotch story. Then there is a long retrospective paper on the Storm in the East, and a shorter one on the relative position of of England and Russia.

JUSTICE.

'How little is understood by the term justice! At its mention lawyers' pleas (and fees), judges' charges, obstinate juries, and visions of prison bars, flit through the mind and the simple justice that is socially our neighbor is forgotten. Jealousy and envy prompt men to circulate slanders against a more successful competitor, forgetful of the fact that merit alone secures permament success, and that the passions of rivals are as the refiners fires, making standard those wares surviving the ordeal. The Family Medicines manufactured by R. V. Pierce, M. D., of Buffalo, N. Y., are no exception to this rule. His Golden Medical Discovery is now prescribed by many physicians for the cure of Bronchitis and Consumption. It is unsurpassed as a tonic and alterative, readily regulating any irregularity of the liver and bowels, radically curing scrotulous tumors, boils, ulcers, and eruptions.
