Is not "all the world a stage ?" Are not "all the men and women merely players ?" Have they not "their exits and their en. chasers. trances?" And while they play their parts,

There is a reaper whose name is death, And with his sickle keen He reaps the bearded grain at a breath. And the flowers that grow between."

Each year adds to the long, long list of those who swell the number of the dead Like "an ever-rolling flood" time bears all its sons towards the great ocean of eternity On earth social distinctions may separate, but when the "dark valley" comes to be crossed neither rank, nor wealth, nor position, nor talent, can be urged as a plea for immunity from 'nature's stern decree : "It GRAND TRUNK RAILWAY. is appointed unto man once to die." Twelve months ago many who during the year have passed away from the busy scenes of time looked forward to the future with hopes as bright as any of those who survive, with expectations of long life as justifiable as any of those who read these words, ! But alas !. human hopes are at the best only hopes; human expectations, too often built sandy foundations! human aspirations, how the loss of those, who this year have been called hence to be no more seen of men. I not of universal at least of wide application are the words:

"It singeth low in every heart, We hear it each and all -A song of those who answer not

However we may call; They throng the silence of the breast, We see them as of yore -

The kind, the brave, the true, the sweet Who walk with us no more."

Among the names of the prominent persons who have dred in the different walks of life this year we mention a few : Pore Pius IX; Victor Emmanuel, King of Italy; Earl Russell; Judges Keegh and Monaghan of the Irish Bench; George, ex-King Hanover; the young Queen of Spain, a few months after her marriage; William Cullen Bryant ; George Cruikshank ; Cardinal Franchi; Bishop Conroy, Papal Delegate (postolic to Canada, succeeded by fishop Gillooley; Rev.
