As ALL LIFE-ENDOWED BODIES, whether they be beasts, birds, reptiles, insects, or even zoophytes and subjects of the vegetable kingdom, are governed by vital force, which binds all the springs of existence; and as nothing can save them from d struction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed

boon to the world. Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are

This, then, is substantially the basis on which Fellows' Hypophosphites is built; its direct action is upon the blood, the brain and nervous system, and the muscles. Strengthening the nerves, it causes the rapid distribution of vitalized blocd in the muscular organs of the body. Rousing the sluggish heart and liver,

strengthening the action of the stomach and

bowels, and enabling the lungs to be fully in-

flated with oxygen. It is adapted for all cases of weakness and emaciation, whether arising from a sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in pulmonary consumption, many confirmed cases having been cured, and all benefited, where its use has been continued over a fortnight. In bronchitis it is a specific, and in asthma

it gives relief where every other remedy For nervous debility it stands unrivalledand may be used with confidence n all cases" As this is entirely distinct and different from every other preparation of Hypophesphites, be careful to ask for Fellows' Syrup, and take no other.
