He then signified the Royal assent to 118 bills and two supply bills, and then livered the following speech :-

Gentlemen of the Legislative Assembly,-I thank you for the diligence with which you have laboured for the public good. I have cheerfully assented to the various

important measures which you have passed. I rejoice to observe that your independence has been further secured against influence as well of local presure as of other powers. That you have resumed the exercise of your constitutional privilege of determining the appropriation of public moneys, and that you have as sented the right to speak and act in reference to the unpunished murder of a fellow country-

I notice with pleasure the hearty approva? which you have given to my proposals, for the distribution of the existing railway fund. providing for further aid to these enterprises. You have recognized the duty of guarding the faith of the Province. I am persuaded that what you have done will greatly advance our material interests.

I hope that the steps you have taken as to immigration will result in gaining us a number of those hardy labourers whom we need so much, and who are best suited to subdue our unsettled lands; and there can be no doubt that the remissions you have authorized in respect of settlers in the common school and free grant lands will tend to promote their contentment and prosperity.

I thank you for the prudent liberality with which you have provided for the wants of the public service, and I shall take care that the moneys you have granted me will be properly

I congratulate you on the great prosperity which we now enjoy, and I am sure you will join with me in the prayer that our present mercies may continue, and that we may be permitted when we meet again to renew the expression of our thankfulness to Him from whom these mercies flow. The Hon. Mr Gow then said, -

Mr Speaker and Gentlemen of the Legislative Assembly, ... It is His Excellency the Lieutenant-Governor's will and pleasure that this Assembly be prorogued until Friday, the twelfth day of April next, to be then here holden, and that this Provincial Legislative Assembly be accordingly prorogued until Friday, the twelfth day of April next.
