FELLOWS' Possessing the largest circulation of any New-Compound Syrup of Hypophosphites. A S ALL LIFE-ENDOWED BODIES, whether they be beasts, birds, reptiles, insects, or even zoophytes and subjects of the

vegetable kingdom, are governed by vital

force, which binds all the springs of exist-

ence; and as nothing can save them from de-

struction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed boon to the world. Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper

Contracts and yearly agreements for Adverproportions the brain and nervous system are strengthened This, then, is substantially the basis on which Fellows' Hypophosphites is built; its direct action is upon the blood, the brain and nervous system, and the muscles. Strengthening the nerves, it causes the rapid distribution of vitalized blood in the muscular organs of the body.

Rousing the sluggish heart and liver,

strengthening the action of the stomach and

bowels, and enabling the lungs to be fully inflated with oxygen. It is adapted for all cases of weakness and emaciation, whether arising from a sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in pulmonary consumption, many confirmed cases having been cured, and all benefited, where its use has been continued over a fortnight. In bronchitis it is a specific, and in asthma

gives relief where every other remedy For nervous debility it stands unrivalled and may be used with confidence in all cases' As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for Fellows' Syrup, and take no other.

Sold by Apothecaries. Price \$1 50; six for JAMES I. FELLOWS, Chemist. St. John, N.B.
