> Kingston, Nov. 4 1871. Dr. WHEELER'S Compound Elixir of Phosphates and Calisaya.

THERE is no diseased condition of the body in which Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, may not be used with positive benefit. Being a Chemical Food and Nutritive Tonic, it acts physiologically in the same manner as our diet. It perfects Digestion, Assimilation, and the formation of healthy blood. It sustains the vital force by supplying the waste constantly going on, of nerve and muscle, as the result of mental and physical exertion, enabling mind and body to undergo great labour without fatigue. Its action in building up constitutions broken down with Wasting Chronic Diseases, by fast living and bad habits, is truly extraordinary, its effect being immediate in energizing all the organs of the body Phosphates being absolutely essential to cell ormation and the growth of tissues, must for all time be Nature's great restorative and

July 31. FELLOWS' compound Syrup of Hypophosphites.

S ALL LIFE-ENDOWED BODIES, whether they be beasts, birds, reptiles, insects, or even zoophytes and subjects of the vegetable kingdom, are governed by vital force, which binds all the springs of existence; and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed boon to the world. Modern chemistry has ventilated the ques-

tion and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are This, then, is substantially the basis on which Fellows' Hypophosphites is built; its

direct action is upon the blood, the brain and nervous system, and the muscles. Strengthening the nerves, it causes the rapid distribution of vitalized blood in the muscular organs of the body. Rousing the sluggish heart and liver, strengthening the action of the stomach and bowels, and enabling the lungs to be fully in-

Colours stated with oxygen. It is adapted for all cases of weakness and emaciation, whether arising from a sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in pulmonary consumption, many confirmed cases having been cured, and all benefited, where its use has been continued over a fortnight.

In bronchitis it is a specific, and in asthma it gives relief where every other remedy For nervous debility it stands unrivalled and may be used with confidence n all cases' As this is entirely distinct and different from every other preparation of Hypophos-

phites, be careful to ask for Fellows' Syrup, and take no other. Sold by Apothecaries. Price \$1 50; six for
