London, April 22 .- The Daily News today states that it is possible before the close of the next week that the present Gladstone Cabinet will resign and be succeeded by a Conservative Ministry, and that a general election for members of parliament will follow, should the government be defeated in the House of Commons, when the division occurs on Mr Fawcet's Bill relative to the University of Dublin, which has been made a Cabinet question.

London, April 22. - Two theories are now advanced concerning the pelitical prediction in the Daily News of this morning. One is that the Ministry will really resign if defeated on Mr Fawcett's Dublin University Bill; the other that this announcement has been given out for the purpose of filling the Liberal benches at the session to-night. The announcement that a dissolution of Parliament was probable has flattened the financial market.
