In the House of Commons Mr Cochrane gave notice that he should to-morrow ask the Government whether it could produce the correspondence which passed between the Colonial office and the Canadian Government with relation to the Treaty of Washington. Mr Gladstone in replying to the question by Mr Luckinson, said the Imperial Government had agreed to guarantee a Canadian loan of £2,500,000 sterling for 221 to 221c for refined the construction of a railway to the Pacific, providing Canada should accept the Washington Treaty.

Naples, April 29, morning. - A sound as of thunder accompanies the discharges from Mount Vesuvius. The wind is blowing in this direction to-day, carrying dense clouds of smoke and ashes over the city. The ashes are falling in the streets like snow, and have already reached a depth of two or three inches. The rumbling inside the volcano continues, but no fresh craters have opened and the lava has since ceased to flow . Showers of sand have succeeded the rain of ashes which was falling this morning. The eruption is now accompanied by fearful electric phenomena. The lightning darts incessantly from the summit of the volcano, and thunder is con. tinuous. Burning cinders, stones, and scorize are falling fast and thick in the not yet recovered.

Matamoras, April 29. - Skirmishing has been going on all day between Certina's men and Treviro's advance, and the wounded are being brought in. The enemy is out in full force. This morning a black flag is floating on the fortifications around the city with cross bones and a death's head as insignia. This creates much indignation on both sides of the river, and apprehensions are felt that if the attacking army is successful they will show no quarter.

Cincinnati, April 29.—The hotels, streets and everything to-day indicate the near approach of the political conventions which the country for weeks has been looking to. A pretty close canvass shows that while there is a wide diversity of opinion on the question of the tariff, there is an earnest desire to harmonize on the platform. The revenue reform element preponderates, but the protectionists are firm, and hold that unless that question is ignored or very carefully expressed a large vote in the east will

New York, April 30 .- It is stated that |cen. the Assistant Secretary of the Treasury informed the President yesterday that the success of our funded loan, as well as financial schemes of various American Corporations in Europe, depended upon their success in London, and if the Treaty of Washington was rejected by England all would be likly to fail, as there could be no compensating success in other European money
