Geneva, June 21 .- The representatives of Great Britain before the Alabama claims arbitration tribunal have gone to Chamorix, where they will stay until to-morrow. The Americans have not left for Paris as they intended doing, but remain in this city. It is believed that the reason for this change in the programme of the movement of the representatives is that supplementary articles to the Treaty of Washington upon a totally new basis from the one submitted by Earl Granville are now the subject of negotiations between the English and An e ican governments. The chances for a satisfactory issue from the difficulties which now surround the arbitration are believed to be increasing.
