"THE TRUST AND LOAN SERVANTS." - Such is the manner in which the officers of this large monetary institution are spoken of. One would think that they had as good a right to exercise the franchise as any other voters, ospecially as they voted in accordance with their principles, which is more than could be said of the editor of the Whig. The Whiy is discreetly silent concerning those two Grit voters who were brought from St. Catharines at a cost of \$100 to vote for Carruthers.

PERSECUTION. -John O'Hern was not the only voter dismissed from the shipyard for voting for the Premier. We have heard of several others. What has Mr Annexation Allen sume these men had no right to vote according to their principles or their conscience. Possibly Mr Allen thinks they had neither.

An auction of two hundred torches and a band waggen will be held shortly, the proceeds of which will be applied towards paying Mr Carruthers' expences. For further particulars apply to the President of the Reform As.
