had more attraction for him than political honor or political honesty. The vindictive denouncer of Parks-the Radical Hincks in a short time joined the Tory ministry, and was placed at the head of the Treasury. For that office he was admirably adapted. A thorough bustness man, with great energy and industry, no place could have fitted him betto fill it as the first choice of his party on their advent to power, which came shortly. But no! Dazzled by Sydenham, it was said by some with the prospect of being placed at the head of the rank spoken of, he lost this head and grasped prematurely, and with shame, what, with a little patience, he would have had in all bongs, and with the approval and applause of every Reformer in

SATURDAY EVENING, NOV. 15.

Protectionist journals are admitting that one effect of the National Policy has been to dimulate smuggling to an enor mous extent, and are invoking the inter vention of the Government for its suppression. The increase of smuggling was one of the results the Liberal press pre dicted for the prohibitory tariff, and so the event has proved. When Sir Samuel Tilley gives to Parliament a reseate resume of his boom hunt, let him not forgot to specify among the blessings of protection the "hum" of the smuggling interesis.

It takes a good deal of careful legisla tion to protect the willing victims of deeigning fraud. Another considerate move in behalf of these verdant fools being made by the United States authorities. Postmasters are strictly forbidden to deliver registered letters or money or ders to any parties known to be engaged in undoubed swindles. Morthan this, all such letters and money orders are to be returned to the senders. If people will persist in being duped, spite of such sensible precautions to put them on their guard, they deserve to suffer the penalty of their infatuation. The regulations are necessary and whole come, and it is to be hoped they will prove successful in abating, if not abolsehing, the more rampant forms of fraud-.....

A sample of true Tory meanness cam to light during the hearing, before th Supreme Court, of the appeal against Mr. Glen as the member for South On tario. Mr. Glen's hberality to churches and charities seems to be the only lever with which his political enemies have any chance whatever to eject him from seat he fairly won by a large majority over Hon. T. N. Gibbs, the death-bed minister of the Pacific Scandal Cabinet Some time before the election Mr. Ghr. attended a 'Sons of England' picnic at Ushawa, and while there was importunately urged by a Mr. Dingle to make denation towards the charitable object. of the Association. Mr. Glen did as he was desired, and now the identical Mo Dingle at whose solicitation the dona tions were given comes forward to testify that in his opinion the subscription was a corrupt one and made to influence votes in favor of Mr. Glen in the succeeding election. The ingretitude and treachery which the incident reveals will make Mr. Glen rather chary for the future about dispensing his charities at the solicitation of Tory philanthopists. Mr. Glen can be unseated on such miserable plea as this then liberality to commendable charities must be hereaf ter considered an inseparable bar to par liamentary life.

THE MAYORALTY. In another column will be found card of Mr. Alderman Carson announce ing his candidature for the Mayoralty of to walk the course; but it was fully ex 1880. GRANTISM.

Almost every day adds fresh probability to the Republican intention to renominate General Grant for the Presidency, and to the real willingness of the latter in a literal sense to accept the situation. The affected reluctance with which his eagerness for a shird term has been occasionally veiled will not avail to hoodwink outsiders even, much less delude American electors of either party, If proof were wanting of the intentions of Gen. Grant or his admirers in this matter it has certainly been supplied by the proceedings which have marked his latest reception at Chicago. With the honors

If the plans of Grant and his friends do not mis-carry, it will probably be found that his foreign travel was undertaken with the intention of securing the "third term" upon which, prior to the election of Hayes, it was no torious he had set his heart; and that the present President, from a Ulysses point of view, has been merely utilized as a sort of warming-pan at the White House during the interval which was subject. considered necessary to improve his

predecessor's chances of re-election.

During the last election for the Local House somebody in Toronto made use of the probability that the Government of Ontario was about to erect new par liament buildings in the "Queen City. It is quite unnecessary to say that the rumor was not authorized by the Government, although it was no doubt em ployed by rome zesions supporter of the Hon. Mr. Mowat to promote the latter's then pending election for East Toronto Of course it was stigmatized at the time as a bribe to the constituency, and the Premier was saddled with the responsibility for it. As Mr. Mowat, after all did not quite win the seat, he was also be Tabered in advance for his predicted abandonment of a premise he had never made. Thus the Premier was unjustly blamed at once for bribery and treachery when he had neither been guilty of the commission of the one offence nor the contemplation of the other. Now, how ever, without the slightest reference to the fuming of irate and suspicious political enemies the government is eviuc ing a willingness to erect new parliament buildings in Toronto. This contemplated

work is a step in the right direction, if the finances of the province are in a condition to bear the outlay. We do not sympathize with the opposition to the expenditure involved simply because t new buildings would have to be erected in Toronto. As that city is the seat Provincial Government, it is the proper and only place for them, and although the new buildings would add another architectural adornment to a city already handsome with beautiful buildings, yet, as the common property of the Province. the new pile would be a source of par donable pride to all the people of Canada. The present barracks in which the Ontario Legislature holds its sessions are a disgrace alike to parliament and pro-

vince, and new buildings should be erect ed if the condition of the provincial trea sury will warrant the expenditure.

THE QUEBEC ELECTION.

It was fully expected that determined

opposition would have been offered to

each of the five ministers in the Quebec

Government who held seats in the As sembly, and who had to vacate them or assuming office. It has therefore excited no small surprise that two of these should have been allowed to go by de fault. Comparatively secure as Mr. Lo ranger was known to be in the Conserva tive County of Laval, it would have been no great wonder had he been permitted pected that the new Premier would have been challenged in his appeal to his constituents. Certainly this was the intention, and a candidate, Dr. Prevost, was regularly nominated by the Liberal party Why the doctor cravenly backed out at the last moment no satisfactory explana-
