Ras. Persotrat Grant's Lecture on "Nor SATURDAY. Niebolsou's -- I p m.

When the excitement of the local election, which resulted in the signal defeat of Sir John Macdonald, was at its height, it will be remembered his supporters, it their desperation, sought to make point against the Government by raising a hubbub about some tubing for the Mili tary College. It was alleged that it was of American manufacture for our public works. Before the slander had time to work the intended mischief. It was re futed by a statement of the fact that the contract for the work had been let to Montreal frm, and that the Government cocki exercise no control over contractors as to where they should get their ray material. This and all similar cries com plotely failed to avert the Chieftain's ignominous defeat as the member fet Kingston. But what will the local Tories say for Sir John and his Government, in view of the fact that now he is in power his Government actually advertises in American newspapers for contractors to tender for the work of the Pacific Railway! The above two facts furnish another illustration of the inveterate Tory habit of straining at a gnat and swallow-

Canadians have been accustomed to the impression that the Government and the public service in the United States have been nearly honeycombed with corrup tion; and we have laid to our souls the flattering unction of the political phari see, that we were not in this respect as as other men and capecially these rock less Yankees. The Pacific Seandal cisclosures largely deprived us of the oppor tunity any longer to induige in this super-rightsons boast at the expense of our neighbours. The latter are bad en ough no doubt, but when they do do serve a need of praise it should be cheerfally secorded them. And so we have pleasure in acknowledging the honesty of the noble army of American postmasters Two hundred and fifteen millions of dol lars have passed through their responsible hands during the past year and ye the Government loss on their account has not been equal to one twentieth of one per cent. In other words the leakage from this source from fraud and accident has been less than five cents on every hundred dollars. This very creditable state of affairs cannot but mapire and maintain public confidence in the postal system as at present administered across the lines.

By many, especially in Toronto, it was thought that when the Queen City refused by a large majority the proposed bonus to the Toronto and Ottawa Railway, the so seme would fall through. It is proving itself, however, to be possessed of much object. This looks like business, and success at the polls. It must not be sup will ultimately be built. Of course the Grand Trunk influence will be opposed to the project as as the new road would be in direct competition with it, but opposition of this kind would be overborne by Joly and honest Government as against the paramount general interest. The opposition in Toronto, apart from Grand Trunk influence, has arisen chiefly from the fact that for other lines, terminating in Toronto, the electors have operously taxed themselves, and they naturally hesitate just now to increase their civic barden by the assumption of fresh resa-qualbilities. When other interested municipalities shall have demonstrated their willingness to assist the line it hardly likely that Toronto, its proposed terminus, will withhold its sanction and support from a line which cannot fail largely contribute to. its importance and prosparity.

BLAKE ON PARTY PO.ITICS.

As y's anticipated the Conservative critics of the Hon. Mr. Blake are Buding it very difficult to appreciate or to under stand the truly biberal sentiments ununciated in his Bowmanville speech of Monday last. The manly assertion of the with large portable plantabed copper Reser voir; combines more important features than any other Reservoir Cooking Stove, and is the early low portable Reservoir Cooking Stove in the world with warming oven under the fire. is that of a blind unreasoning subservience to the dicts of party leaders. And because Mr. Blake asserted for and resert ed to himself the right of independent personal judgment, which indeed, every true Literal claims for himself and extends to others, the Mail for one tortures this manly position into an attitude of menace or hostility towards the Hon. Geo. Brown. We need not characterize this as a forced and fraudulent interpre tation of the hon, gentleman's words. His utterances upon this point it were perhaps too much to expect a Tory par tizan to understand, but that part of his

speech which deals with this question is quite within the apprehension of the Libersl mind and might safely be adopted as the formulation of the belief of the whole Reform party upon the question. Referring to his first public political ut terances when elected member for West Durham many years ago Mr. Blake declares "I advocated at that time the principle of party Government as the only safe practicable mode upon which parlialiamentary action could be carried out." and further on, "I adhere to the view expressed to you twelve years ago, and express myself, as I then did, a party poli tian." Like a fair and candid man Mr. Blake does not deny the difficulties of party Government. Instead of blinking these, indeed, he specifies and de plores them, and proceeds to show how by the exercise of individual judgment may be largely mitigated convicted while, by subordinating ba next spring. personal opinion in mere matters of plan and tactice party anccess may be promoted, and the general good subserved. YESTERDAY'S ELECTIONS

The coalition trick has again been a

tended with a transient success in th

Province of Quebec. The history of coalitions is that of the duping of the Liberal by the Tory party. If the latter is strong enough to hold its own with out accessions from the Liberals we nex er hear anything about coalitions. Thus every effort was plied by the Bleus in the Quebec House, even to the extent of twenty-two defeated non-confidence motions in one session, to oust their oppo pents, and to secure the return of a Tory Cabinet pure and simple to power. Failing this the cry of coalition was start ad for the purpose of detaching enough support from the Liberal party to enable them to accomplish by treachery what they had so signally fail ed to bring about in open, manly, party warfare. And the villainous plan has again succeeded. Society of the Church of England Pictor.

The Young Ladies' Aid Society of the Church of England in Picton in announcing their intention of holding a Grand Floral Ex-hibition and Bazzar in the City of Kingston, beg to intimate that there is a large debt on their Church, and they take this method of raising money to assist in liquidating it. Con-tributions are not asked, but they desire to any that all who may favor them by purchasing will receive value for their money.

They therefore take pleasure in informing the citizens of Kingston that they will hold one of the above Hazzarain the CITY HALL.

On Wednesday 3rd Dec, Next,

The collection consists of DRIED NATU RAL FLOWERS, GRASSES, &c., taste cally and artistically arranged in Boquets, Wiesths, Crowns, Crosses, Anchors, & , Baskets of Flowers.
