Hindoo life. Surely the idea of absorption and immersion in the Deity is one of these ideas of Vedantie Hindooism which i prevail extensively in India. From the highest sage to the humblest peasant, millions of men in this land believe the Pantheistic doctrine of man'a id- utit with the Godhead. The most ill terat man is heard to say he and the Lord ar one. The doctrine of absorption in the idea, I believe, India will reach Chris Will be not fulfill the Indian scripture I am reminded of the passage of the gos pel in which He says : "I am not come to distroy but to fulfill." The religion of our ancestors was pa theism from beginning to end, and what is Hindoo pantheism? Essentially, it nothing but the identity of all things with God. I do not mean that you should retain pantheism as it exists in Indian books. Ob! there are mischevious errors and horrid ideas mixed up with it which you must eschew. Christ's pantheism is pantheism of a loftier and more perfect type. It is the conscious union of the human with the Divine Spirit in truth, love and joy. The Hindoo sage realizes this union only during meditation, and he seeks unconscious absorption in his God, with all his faults and shortcomings about him. But Christ's communion is active and righteous. It combines purity of character with devotion. Hindoo pantheism in its worst form is proud, being based upon the belief that man is God; it is quietism and trance. There is no dreamy mysticism in Him, for He is ever doing the will of His Father. In Christ you see true par And as the basis of early Hindooism is pantheism, you my countryhave already seen how, in His outward forth and appearance, with flowing garments, he is acceptable to you. Now, You have a natural infinity to the invisible as well as the visible Christ. Can "you deny it ! He comes to fulfill and perfect that religion of communion for which In dia has been panting as the hart panieth after the water brooks.

HOW TO RECEIVE CHRIST.

Let the people in this country who bear the Christian name remember that it is not by presenting a western Christ to our countrymen that they will be able to regenerate India. If you like, present the English side of Christ's many-sided character to the English nation. If you wish, present a German Christ to the Germans, an American Christ to the American people. But if you wish to regenerate as Hindoos, present Christ to us in His Hindoo character. When you bring Christ to us, an not bring Him to us a civilized European, but as an Asiatic ascetic, whose wealth is devotion an I whose riches prayers. That horrid form of asceticism which prevails in this country in the form of mere self-mortitication is, indeed, most harmful and pernicious. True asceticism, a indicated by Christ, means simply this: 'Seek ve first the kingdom of God and His I have done. The time is coming, and now is, when India shall worship the Father in spirit and in truth. Say unto Christ as unto your best friend: Welcome! I say emphatically, and I say before you all, that Christ is already present in you. He is in you even when von are unconscious of His presence; even if your lips deny Christ, your hearts secretly accept Him. For Christ is 'the hight that lighteth every man that cometh into the world.' If you have in you the spirit of truth and filial devotion, self sacrifice, that is Christ. Achieve the triumph and rejoice, for the bride groom cometh.

THURSDAY EVENING, DEC. 4.

According to the Hon. Mr. Sullivan the people of Prince Edward Island, for whom he assumes to speak, are a most disinterested lot. "He did not think Deity is India's creed, and through this Prince Edward I and had expected nor was it enjoying, perhaps as much benefit from the National Policy as other provinces," and yet he proudly claimed it as the most Conservative spot . in the whole Dominion. If the little Island is deriving less prosperity from protection than the other provinces are receiving it is indeed to be commisserated. The other provinces are deriving no benefit whatever from it so far, nor are they likely to and to be worse off than this is to be in very bad way indeed. The admission o Mr. Sullivan is a significant one, and we have upon it the prediction that another election will completely spoil his boast about the ascendency of the Conservative party in Prince Edward Island.

The application on behalf of Col. Stol lery, of the Tenth Royals, Toronto, for a new trial of his libel suit against the Globe has come to grief. Chief Justice Hagarty and Judge Cameron both concurred to refuse it on the ground that the evidence adduced in the recent trial did not warrant any re-hearing of the case This is hard upon Col. Stollery, as it virtually confirms the verdict of the Court below to favour of the Globe, and, by implication, confirms as true the strong charges which that journal published of the abuse of his office by Col. In the same issue of an independent contemporary in which the evils of party are deplored a couple of significant admissions are made as to the slowness of the growth of party neutrality among the people. As to the United States it is declared that if Hayes had been a hot party man he would have been sure of nomination for a second term; but as it is he is left utterly out of the question. And referring to the lat; Quebec elections we are told "after people think they have dealt out justice they again." When the work of conversion from party infatuation proceeds so slowly it is no wonder that independent journals implore the support of party organs to bring about what they themselves are confessedly unable to accomplish. The no-party millenium is yet in the far distance, and it is just as well, in fact all righteousness, and all things shall be the better, for the country that it is so added unto you." ### BEACONSFIELD'S POLICY.

It would seem to be the mission Beaconsfield to match and to counteract the real or fancied designs of Russia upon the territory of Turkey and the peace of Europe, The "sick man" has lately been suspected of giving England away in this matter by purposely falling into the hands of his recent (Russian) conqueror. There seems indeed to be just now a rage all round for precautionary alliances. That between Prussi's and Austria was the first of these, and was followed by rumours of alliance between Russia on the one hand and France and Turkey respectively on the other. The last of these being hkely been taken for a similar understanding between Great Britain and Germany. It this should be effected the "triple alliance" of England, Germany and Austria would form an insurmountable barrier to the aggressive purposes of Russian ambition, even if allied to the power of what its own conquests have left of the Ottaman Empire. These alliances will serve very good purpose if they only prevent conflicting interests from exploding into

### Slaughter of Sheep.

To the Editor of the British Whig.

DEAR SIR, -Kindly permit your page to convey to the citizens of Kingston and county of Frontenac the intelligence that there is at present going on in this county a wholesale slaughter of sheep by dogs. These dogs come from the city and county. I am of the opinion that the greater portion of them come from the city. Mr. William Reid, Mr. James Gowdy, Mr. John McCammon and myself have had very large numbers of sheep killed during the last two months by dogs. The export of sheep is assuming Clarge dimensions, and every Canadian is interested in the advancement of this new branch of trade which promises assist our county very largely.

If we lived in the seclusion of a forest we might expect nightly raids from wolves or other wild animals, but on the frontier of Ontario civilization we should expect protection from the laws.
