

A Newsboy's Death Bed.

(Detroit Free Press.)

I lay at the boy, whose years numbered fourteen or fifteen, and saw in the white face, hollow cheeks and the unearthly bright eyes, the unmistakable mark of that dread disease which places its victims beyond all hope—consumption. On the table lay an old Bible, a yellow page lying open where the mother had finished reading. The boy's mind was wandering. He was too weak to cough and the act of breathing his throat could not be removed. "Shine, yet I'm thinking up for a nickel," said the paper, sir! it's a terrible sickness from the pillow. Paper, sir! Missing paper! All the—
And the sufferer made an effort to clear his voice, which occasioned something like a death rattle. The mother was on her knees at the lounge sobbing, and Jack, her other son, who had brought me to the room, was by her side crying. I lit the wasted candle and went to the piano by the cracked glass that stood on the window-sill. He felt the cold hand on his brow and his mind can't go back. "Oh, Jack, I'm so glad you have come home. I shan't sell any more papers or black any more books. Jack, don't cry. Mother's been reading something better in newspapers to me. Jack, and I know where I'm going. Give my kit to Tim Jones. I owe him twenty cents. Bring all your money home to mother, Jack. Keep my bed bright, Jack. I wonder if I'll live?"
Good-bye, Jack. See you shine. Missing paper! The boy, the newsboy, was dead.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, &c. Every family should have a bottle of BOUCHEE'S GERMAN SURE. Don't allow for one moment that enough to take hold of your child, young or old, to cause consumption, asthma, pneumonia, cough, headache, and other fatal diseases of the system. Although it is true GERMAN SURE is curing hundreds of these diseased diseases, yet it is much better to have it at hand when these doctes will cure you. One bottle will ast your whole family a winter and keep you safe from danger. If you are convalescent, do not rest until you have this妙 remedy. Sample bottles 10 cents. Regular doses 75 cents. Send by your Druggist.

THE FOOL SITZ DOG.—Who does not pity the extremity of the poor spitz? It's everyone's hand to pull the owner's ears, even raised against the rage, and to their age, and to all that, and to their popularity those seemed to be no wanton, but times have changed. They are now seen to be dangerous, treated as vermin, their eyes well washed and combed hairs are now neglected and bunting like a wolf, and people give them a "white teeth." The question is, Are spitz dogs dangerous to human life, and if so how? Some say that all dogs are uncertain and unsafe, but the spitz has no friends outside the house. Expecting from society, the spitz dangers are worth more than a dog's. There are also other things about the house which should be driven out. Diseases come along these as well. But how? Simply by placing there a box of DR. HENRICK'S BEAR COATED PILLS, which at the first approach of sickness, should be summed up. They work like a charm, through the natural channel, without weakening the bowels or disturbing the palate. A child will not refuse them, and the invalid can keep them down.

STOP THAT COUGH.—If you are suffering with a Cough, Cold, Asthma, Boochache, &c., Consumption, has of voice failing in the throat, or an affection of the Throat or Lungs, see Dr. KING'S NEW DISCOVERY for Consumption. This is the greatest remedy that is causing such much excitement by my wonderful cure, curing thousands of hopeless cases. Over one million bottles of Dr. KING'S New Discovery have been used within the last year, and have given perfect satisfaction, in every instance. We may reluctantly say that it is really the only safe cure for that, and long after, and can cheerfully recommend it to all. Call on a general bottle free of charge, a regular bottle \$1.00. J. G. King, Successor to E. H. Parker, Market Square, Kingston.

A COUGH.—This disease is caused by the formation of a false membrane lining the wind-pipe, and obstructing the passage of the air, and is known by the shrill, crow-sounding cough and rattling in the throat. This membrane must be removed by expectoration. Take a double dose of Ash's Lung Balsam every ten or fifteen minutes, which will reduce it, after taking a few doses. The Balsam will and has saved the lives of thousands of children attacked with a cough, where it has been taken in season.
