A KINDLY WORD.—The Canada Presbyterian remarks, at the conclusion of a lengthy editorial: "Promotively cut off as, judging by mere outward appearances, men might be ready to conclude has been, Mr. Mackerras has still accomplished a good and permanent work, and he will live long in the lives and labors of not a few whom he has helped to guide and stimulate in the higher and better life."

THE GEORGIA MINSTRELS.—The Watertown Dispatch says of them: "A full house greeted, cheered and frequently cheered this popular troupe last evening, and very justly, too, for they fulfilled to the letter the expectations of the large audience. Their jokes and songsters were generally new, their singing, both of sentimental and amusing and ludicrous, were first-class and in good taste. In our opinion they far excel any burnt-cork troupe that has ever visited Watertown."

CLOSED FOR REPAIRS. THE REDPATH MONOPOLY'S HOUSE-CLEANING TIME—INTERVIEWING THE "BOSS," AND ALSO ONE OF HIS EMPLOYEES.

Montreal, Jan. 10.—The Redpath sugar refinery, announced some time ago as about to close for a few days, has been closed for a fortnight.

"I called, Mr. Redpath, to ask the reason why the refinery has been closed?" "Well, we have been closed for a week or a fortnight. We generally take advantage of this season of the year to clean up."

"Then I may infer that you are closed for repairs?" "Yes, but besides that there has been a falling off in the demand on account of the increased supply. There always is a dull time at this season of the year, and we have taken advantage of the period to clean up a little. We will open up again shortly, however."

"When will that be, sir, may I ask?" "Oh, in a short time." "Will it be a week or so?" "Oh, no; I cannot say that. It will certainly be within the present month, however."

"Will you run on full time then?" "Yes, sir, we certainly will do that."

Some time after speaking with Redpath upon the subject, your correspondent met a workman in the refinery, who, upon being questioned, replied: "The sugar, it is! The sugar refinery has been closed for three weeks—bad cess to it!"

"Have the men been out of work all that time?" "Yes."

"How many of them?" "Very better ask the boss about that. When we are going to commence he'll tell you that when you ask him."

And the suspicious employee would say no more.

Literary Table.

The "International Review," published by A.S. Barnes & Co. of New York, for February, is replete with interesting reading. The writers are well known, and the subjects handled are of recent occurrence.

We have just received from the publishers, the "Illustrated Annual of Phrenology and Health Almanac" for 1880. It is filled with reading matter, containing valuable information relating to Phrenology, Physiology, Health-Hygiene, Diet, etc.

"Peterson's Magazine" for February is already on our table, ahead of usual, and is even more beautiful, in some respects, than the January one. The fashion plate, the illustrated story, and some new and exquisite designs in Japanese embroidery, are among these.

We have received a copy of Dr. McLellan's "Teachers' Handbook of Algebra," one of the iron-bound series published by W. J. Gage & Co., Toronto. This algebra is authorized, and is the work of one of the first mathematicians in the country. It should be in the hands of every teacher.

The "Delinquent" for February has been received. Within its pages the ladies will find the prevailing fashions of Paris and New York, and from which they may learn how to be in the fashion. It also contains numerous other articles of interest to the fair sex. E. Entertick & Co., 555 Broadway, New York, are the publishers.

The Toronto News Company have sent us a copy of "Macdonald's Guide to Manitoba." It contains a concise compendium of the latest facts and figures of importance to the emigrant, capitalist, or tourist. It also has the latest Government maps and official land regulations. Any person thinking of emigrating should procure one of these books, and by this means become acquainted with the country he intends settling in.

The Municipal Act.

In the Legislature yesterday Mr. Calvin's Bill came up for its second reading, but at the request of the Attorney-General it was allowed to stand for a time. Its object is to provide a better means for securing a remedy against injustice in the equalization of township assessments than the present law provides. According to his statement—and it was confirmed by Mr. Deroche—the majority of the County Council of Frontenac is made up of Reeves from the back townships, who insist on valuing at too high a figure the townships in front. Formerly the appeal against unjust equalization lay to the County Judge alone, but by a recent enactment the Sheriff was associated with him. Mr. Calvin proposes to substitute for this tribunal one made up of three County Judges, one of whom is to belong to the county interested, and the others, except where there is a junior Judge, to two neighboring counties.

Fatally Burned.

About eight o'clock last evening a sad affair occurred at the residence of Samuel Hayes, Napanee. Mrs. Hayes' clothes caught fire in some way, when she rushed out of the house on the street screaming. Meeting a young man named Holder he succeeded in cutting her clothes from her body, but not until she was fatally burned. It is reported she was six or eight months pregnant.

Chicago Grain Blockade.

A grain blockade of prodigious proportions is a feature of the grain trade in the Chicago market at present. The elevators of the city, which contain an aggregate of 16,000,000 bushels, are very nearly filled to their utmost capacity. Several roads refuse to receive grain for the Chicago market, because when it arrives there are no accommodations for it. There are in storage 14,250,000 bushels, at this time last year. The explanation is that the grain syndicate, of which Kansas is a representative, has by constant purchases forced the market price of wheat in Chicago to a point where it can not be shipped to New York, nor from New York to Liverpool. The farmers are unable to market their grain, and the price is consequently depressed. The outcome of this unprecedented situation will be watched with much interest.

A Thief Tracked.

Last week a man named James H. Kerr was assisted out of this city by the St. Andrew's Society. He went to Gananoque, and was employed as a penman in the office of Mr. E. E. Abbott. On Friday evening the house of Mr. W. S. Macdonald, late a resident of this city, was entered and robbed of an overcoat, a hat, and two fancy boxes containing a collection of photographs, cards and other articles. Kerr was suspected and arrested. The hat was found in the hotel where he was staying. Kerr was in bed. The hat that had been left at Mrs. Macdonald's was then placed beside the other one, and Kerr was called down stairs. Being asked which was his he immediately picked up the one left at Mrs. Macdonald's and claimed it. He was then asked how it happened that he wore Mr. Macdonald's hat, and he explained that it was a "put up job" against him; that some one had matched off his hat on the street and jammed another one on his head, and that on turning around to see who had done it he was knocked down. The overcoat was found behind a pile of wood in the shed, and the fancy boxes were found broken up on a vacant lot. At the examination the prisoner persisted that he was the victim of a conspiracy. He was committed for trial. After being sent to Brockville he is to be tried by a jury at the next Assizes. The Reporter chronicles the facts.

NEW WORKS NECESSARY.

The following external improvements and constructions are required, and appropriations will be recommended to enable the works to be proceeded with next year:

First.—The erection of a picket fence (of the same description as at the London Asylum), all round the Asylum property, and the reconstruction of the stone wall at the entrance to the Avenue, with an iron railing on top.

Second.—The erection of a stone wall to enclose sufficient space on the female side of the Asylum, for an airing yard for refractory women patients, the want of which is one of the most serious deficiencies in this Asylum.

BALDNESS. GREYNESS. Dandruff. Hairfalling.

CAN BALDNESS BE CURED? It has been settled in the affirmative by C. M. Wintecroft, late of H. M. Royal Navy, who has accomplished in Toronto and Hamilton during the last three years what has never been done by any advertised remedies of the century, by restoring the hair to a number of the most hopeless cases.

This is no deception, as hundreds of the citizens of Toronto, Hamilton and elsewhere can testify to the truth of this statement. The restorative is put up in bottles, at \$1 per bottle, or six for \$5. For further information address W. D. GORDON & CO., 124, Princess St., Agents. Jan. 16th, 1880.
