Mr. Holbrook, residing at Berlin, U. S., had a brother named Franklin, to whom he was very deeply attached. About sixteen years ago the latter went to America, and, to the chagrin of his wife, it was lost in the English Channel. For years he was sincerely mourned by his relatives, but about two years ago Mrs. Holbrook, in Berlin, was surprised to receive a letter from India, signed Franklin A. Holbrook, stating that he was serving in the English Army and having no time for purchasing his discharge. Overjoyed at learning that he was alive, she wired \$100 and sent it him. Nothing was turned back from him for several months, when her sister was received from England, asking help towards buying a ticket home. Another \$100 was sent him, and soon after he arrived at his brother's house in Berlin. During his past two years, everything possible was done to make his home comfortable, and savings never crossed the mind of Mrs. Holbrook that he was leaving after his youngest daughter, a handsome girl of nineteen years, last March. Franklin Holbrook went to Boston and engaged a room at 39 Pleasant street. A short time after Miss Holbrook expressed a strong desire to visit various friends in Hudson, and obtained the consent of her mother. She, however, proceeded at once to Boston, and joined her uncle there, taking with her a quantity of jewellery and a sum of money. Mrs. Holbrook followed her and informed Queen Erie, Wade of that city. Ever since that police have been endeavoring to find them. Chief Paradis, of Montreal, received a communication to the effect that the runaways were supposed to be in Montreal.

Billions complaints arise from a morbid or unhealthy condition of the liver. This unhealthy action goes on slowly for two, three, or may be four weeks, the morbid deposit gradually increasing and accumulating until the crisis arrives, the overcharged liver can contain it no longer, and a discharge of vicious bile takes place into the stomach, which produces a sickness, attended with headache and more or less unpleasant symptoms. The liver thus becomes engorged of its unhealthy matter, the system suffers for a few days, then usually recovers, and goes on for another season. Hence the importance of using Dr. H. G. GERMAN'S STOMACH PILLS, which are composed entirely of oil meal, calculated to produce this proper discharge, and thus save the unpleasant week's illness which must else be borne. It is the most certain way to obtain relief. Beginning always, in the case of those who are constitutionally bilious, in the appearance of the first symptoms of an attack, the attack will be lighter every time, until they succeed, finally in breaking up that morbid condition which gives rise to the disease.
