### A Conundrum.

The News asks what becomes of the statement of the Canadian Free Traders, that Protection is running the country, when the number of failures is annually decreasing. We should say that Protection has little to do with the improvement of the times, having been without an influence for good when it was most desirable. If Protection is such a large benefit, and has a tendency to reduce the number of failures, how comes it that the failures in Canada increased from 1,607 cases in 1878 to 1,902 in 1879, or a percentage of I in every 23 in 1878

KINGSTON BIBLE SOCIETY.

THE ANNUAL REPORT-PINANCIAL STATE

MENT - OFFICERS FOR THE YEAR.

The annual meeting of the Kingston Bible Society was held last evening in the St. Andrew's Hall, there being a good attendance. Rev. F. W. Dobbs, the reetc. The three local refuges for children | tiring President, occupied the chair ; and of the clergy present we noticed, Rev. Dr. Grant, Prof. Mowat, Dr. Jackson, W. Jackson, F. W. Kirkpatrick and J Young, all of whom occupied seats or Speaking of the Orphans' Home on the platform. After singing, prayer was made by Dr. Jackson. Prof. Mowat read a chapter, and again there was singing. and the response was quite liberal.

The Chairman made a few observations in introducing Rev. Mr. Young, who submitted the following report of the year's benediction. The Committee of the Kingston Auxi-

liary to the British and Foreign Bible Society beg leave to present a brief re- rifles. port on the return of another anniversary. While conscious that their Society 18,380 days, consequently the Clovern, has not compled its field with an energy ment grant for 1880 will be \$367.60, equal to its duty, they are not without a hope that something has been done, and they believe that the cause which they new Superintendent and Matron alvocate has such inherent vitality that thoroughly understood their duties. The the interest displayed in former years dormitories were found in a particularly may be revived and much done to assist the noble parent Society, which they represent, in its honourable work on behalf of the Bible. The Committee feel that an air of tidiness and neatness which there is no need that they should dwell upon the obligations of Christian people towards the sacred volume. They are persuaded that their constituents, as rule, have learned to value the floly Scriptures and are willing without furlady managers have under consideration ther proof or argument to admit that the question of erecting an addition to they owe it to the Bible and to Him whose word the Bible is, to assist in giving to the world God's message of rodeeming love. At the present day the The Orphanage connected with the influence of the British and Foreign Bible Society is being everywhere felt. It may seem needless on the present occasion to quote the various claims which the Bible has upon the affections of men, but it may isirly be noticed that the period time which has elapsed since the founda tion of the Society in England has wit nessed more reforms, social, political and piritual, than the whole preceding period of Christian time. Is it too much to say that a large amount of the gredit for these reforms is due to the enlightenment which has come with a more extended posses sion of the Bible, and that, therefore, the Bible Society, which has been so largely the agent of this extended possession, is entitled to its share of the credit. It is then a privilege to be associated, even in so humble a degree as we are, with parent whose aims are so lofty and whose works have been so full of blessing to the

world. Exom its depository in London have gone forth millions of copies of that word, which, Jehovah has assured us, "Shall not return unto Him void." The light of eternity will alone reveal the measure of blessing which has attended the work of the Society, but surely it is the part of God's people to believe that it shall "accomplish" the thing which He pleases and that His word shall "prosper" in the work whereto He sends it. But the strength and vigor of the Parent So ciety will largely depend upon the amount of life and zeal which characterizes its branches and auxilaries throughout the world. It is a matter of devout thankfulness that these have so largely assisted, and the pleasure which we may feel in recognizing the success of their work is only diminished by the consciousness that we have not done all that we should have done" n our local branch. A brief

review of our work may, however, be given. A contribution to the funds of the British and Foreign Bible Society, as a free gift, has been made to the amount of \$125. Sales have been effected at our Depository in Kingston under the charge of Mr Hobart, to the amount of \$290.26 during the past year. Here t colporteur found an anxiety for his so vices, and a wish was expressed that should return on a future occasion. Another agent of the Society has entered upon an engagement for the winter months, but has, as yet, only rendered service in Kingston, where he has been directed to collect the annual aubscrip tions. Owing to the extreme difficulty of finding suitable collectors to enter upon the work as volunteers, and at the same time to asce tain what families still lack possessing God's word, you: Committee beg leave to express the hone that the Christian people of Kingston will endeavor 'to forward by liberal sub-

CAN BALDNESS BE CURED? It has been settled in the affirmative by C. M. Wintercorbyn, late of H. M. Royal Navy, who has accomplished in Toronto and Hamilton during the last three years what has never been done by any advertised remedies of the century, by restoring the hair to a number of the most hepeless cases.

This is no deception, as hundreds of the citizens of Toronto, Hamilton and elsewhere can testify to the truth of this statement.
