recurrence in the future.

The partial defection from the Liberal party of Joseph Cowen, Home Rule Member for Newcastle-on-Type, and the return on the Conservative candidate for Liverpool by a good majority, have been eagerly accepted in Tory quarters as reassuring disproofs of the alleged Liberal reaction in England. In regard to Liverpool it has to be said! that the Liberals rather expected defeat there, especially in view of the unaccountable neutrality of the Home Ralers, who abstained from voting altogether. Being a Home Rule Liberal Mr. Cowen has taken a similar stand, and repudiates the jurisdiction of the Local Liberal Association so far as his future is concerned. The question whether he will be a candidate or no, is not, he says, one between him and Liberal caucus, but one between himself and the electors. This is all very well just now, but we fancy when the tog of war arrives the Liberals will have something to say, if not to his nomination, at least to his election. If Mr. Cowen will not let the Liberals nominate him, he cannot hinder them from depositing ballots against him. He may yet have occasion to repent at his leisure his present hasty and saucy action. The change from quarterly to monthly

payment of the teachers in the Collegiate Institute is a move in the right direction, and the new arrangement should be extended to the teachers of our public schools as well. In many other places, of quite as much importance as Kingston, the teachers are not required to work for three mortal months before receiving cent of wages, and there is no good reason why it should be so here. The disadvantages of the "quarterly" payment plan are obvious to every one who has to tive on what he earns. As a rule teachers do ing an imposition upon the poor man is work will be vigorously proceeded with not teach simply and solely from a love unjust. . To-day the second session of the present Dominion Parliament was duly opened by His Excellency. In the face of the fact that the past year has recorded fail. ares more in number and larger in aggregate amount than any former year, notwithstanding that there is much more destitution and poverty and misery in Canada than ever before, the Finance Minister has been hugging the delusion and making himself ridiculous with the lying declaration that "never before was Canada so prosperons as she is to-day. The poor and the financially prestrate bitterly know better. Their own hard experience gives the lie to the Tilley misrepresentation. Then, too, the deficits were to be no more, the booming revenue was to roll up a surplus and restore the haleyon times which immediately succeeded confederation. If not in His Excellency's speech then in that of the Finance Minister soon after we shall be informed how much the National Policy has done to fulfil the predictions of those who employed it as a stepping stone to clamber into power. The people already know to their cast that the National Pohey has proved to them a huge imposture, and they will be curious to see by what specious artifices its sponsors will try to hold it up as an unmixed and heavensent blessing.

AN "HONORABLE" ORCAN.

Our local contemporary has a service bly convenient memory. It caunot recollect a single case where a Tory Lieutenant Governor appointed by Dominion Cabinet has ever employed his office to subserve the interests of a party "like the Letelliers and the Macdonalda." We will jog our contemporary's ston House Committee, of which His consideration, doting recollection by citing the case of the present Lieutenant Governor of Queconstitutional stoppage of the Provincial supplies by an irresponsible Legislative collection on behalf of the Mansion and comfort. who by thus assuming this position out of the necessity of "defining his position" during the ensuing session of the House, as he would otherwise have been expected to do. Both for Sir John and the Governor-elect, therefore, the appointment will prove a decided mutual convenience. Then the Government has been able to kill two other birds with the same stone. The giant pan-phleteer collossal services and abilities recognized by the bestowment upon him of the Speakership of the Senate, a position

is physically, at any rate, well able to tress fill. And then "My Dear Boyd," to whom during the last Dominion election, the Chieftain telegraphed authority to conthe Senate vice Wilmot, promoted to the Lieutegant-Governor's chair. Thus the Chieftain has slid out of a delicate difficulty and made three of his supporters happy out of the single vacancy oreated n the New Brunswick Government House. It is not often that the work of death is so promptly and largely utilized for the benefit of party.

The Dog Tax.

To the Editor of the British Whig. DEAR SIR, -Allow me to give a few thoughts on the dog tax.

1. The dog tax is unpopular. Well, I would enquire, what tax is not unpopular? Facts seem to prove that individuals will get rid of paying all and every tax that they can, and the dog tax forms no exception

2. It is a legitimate tax, inasmuch it is levied on every dog alike; the presumption being that all dogs are of equal value, and that the "yelping cur" may do as good service in sounding the burglar alarm as the drover's dog in herding his flock, or the great Newfoundlander in pulling children out of the water. And it is not so oppressive as the income tax, for this no man can escape, while that he can escape by omitting to keep a

poor man who is not able to pay the tax louis! Railway has, without impairing does not, and for the most cogent of all be relieved from any considerable burden reasons, because he cannot afford it. in connection with its operation.

lieve such owners of their dogs.

5. But so far from being the poor laboring men who keep all the dogs it seems to me that many of them are owned by "city swells"-such men as the Demiaion officers, military officers, bank clerks, young law students and other lovers of sport, who with "dog and gun" and shooting jacket and long boots, ramble the marshes outside the city limits at various seasons of the year. practice their shooting powers on a few enipe and other small fowl. From many of this class of dog-owners nothing is collected for the city treasury, except what is got through their dogs, although they put on airs as if the whole city was their own, and they would crowd an honest tax-payer off the very sidewalks that his money had beloed to make.

6. Therefore the dog-tax is a legitimate, non-oppressive, beneficial, and just tax, end its unpopularity should have no more weight against its continuance than the unpopularity of any other tax should have against its existence. The next thought will be, how is the dog-tax best collected ? .

Ottawa, Feb. 12,-The Senate Cham long before the hour appointed for the official opening, and hundreds within the walls were atterly unable to see any of the vice regal party or staff. Shortly before three o'clock His Royal Highness arrived, escorted by an officer, Lieutenant Gordeau, and twenty men of the Princes' Dragoons, and was taken to the Speaker's entrance. Royal Standard was then hoisted, and salute fired from the Nepean Point Bat-tery. At three o'clock His Excullency arrived. He was attended his full staff. Colonel Gzowski, D. again for the despatch of the business of the country. The abundant harvest with Providence has blessed Canada is a cause for the deepest thankfulness, and I heartily congratulate you on the evidences which surround us of a recovery from the commercial and industrial depression which has so long weighed down the energies of its people.

Preparations must be made for their reception, and your attention will

be specially called to this subject. Every effort has been made to hasten the construction of the Canadian Pacific Railway from Lake Superior to Red River, and no donot is entertained that the railway will be opened for traffic between those important points within the time specified in the contracts. Under the authority given by Parliament last session, nearly one hundred miles from Red River to the western boundary of Manitoba has been placed under contract, and tenders are about being asked for for the construction of another hundred miles, from the boundary westward. The construction of these two sections will, at an early day, afford railway facilities through two hundred miles of the most fertile land in the North West. After an exploratory survey of the line from Port Simpson to the Pine River Pass, and through the Peace River country, it has been decided to adopt the location of the line to Burrard Inlet, and contracts have been awarded for 127 miles of the railway between Emery's Bar, on the 3. Platt was also made to say that he had been shabbily treated by the other city members, and unless he received satisfaction when he went to Ottawa he would immediately return and resign his ed 22. seat. The alleged difficulty between Platt and Patterson is the subject of a letter which appears in the Mail to-day, being a copy of one sent to Platt. Patterson says there is scarcely a word of truth in the whole interview, and that the facts have been misrepresented. In some cases the truth is diametrically opposite to the statement made, and in others the distortion amounts to a false hood. The closing paragraph of Patter son's letter is as follows: "As official etiquette debars me from answering you in the press perhaps some members of Parliament will give the Postmaster-General a chance to bring down all the papers referring to to the distribution of patronage | 11,60 March; 11,75 April. in this office among which will be found a letter covering a memorandum of my interview with you, and claiming his protection against your frequent and most unwarrantable attacks upon me."
