HOT WATER AND STEAM HEATING

HEALTH, TONE AND VIGOUR
SIR ASTLEY COOPER'S
VITAL RESTORATIVE,
For Strengthening the Nerves and
Purifying the Blood.
Trade Mark "Elixir Vitæ".
PATRONIZED BY SOME OF THE HIGHEST OF
THE MOBILITY.

CONSUMPTION CAN BE CURED

IS A FACT ATTESTED BY THE HIGHEST MEDICAL
AUTHORITIES IN THE WORLD.

A careful observation of the laws of health, and the systematic and persistent use of Sir Scott's Extract of Cod Liver Oil and Hydrocarbons of Lime and Soda with accompanying diet, has demonstrated the value of this preparation. This preparation has all the virtues of these two most valuable specifics in a form perfectly palatable, and suitable to the most delicate stomach, and we make the unqualified statement that SCOTT'S EXTRACT is being used with better result and endorsed and recommended by the most eminent medical authorities in the world. It is a safe, reliable, and efficacious remedy in Consumption and all the nutritive remedies in consumptive and scrofulous cases.

This preparation is pronounced by the most eminent members of the Medical Profession to be unequalled for its power in replenishing the energy of the body, by its renewing all the functions of the system, and especially of the nerve substance and for developing all the powers and functions of the system to the highest degree.

It is a specific for the pale, and innocent in the system, while retaining all its extraordinary properties; and, as a specific, surpassing all the known therapeutic agents of the day for the speedy and

Permanent Cure of
Nervous Debility. Trembling of the hands
Liver complaint, and limbs.
Palpitation of the Impaired digestion.
Mental and physical depression.
Dizziness.
Nervous headache in the head and neck.
Nervousness, and Impaired blood in all
its stages.
Nervous debility in all
its stages.
Lethargy.
Shortness of breath and impeded action of the Vital
System in two-fold—on the one side
creeping the principle which constitutes nervous energy, and on the other the most powerful blood and flesh generating agent known.
Therefore, a marvellous specific for Convalescence, and for the cure of all diseases of the human body, and especially for the cure of Consumption. It quickly improves the function of assimilation to such a degree, that, where for years a maniac, sanguine, cadaverous and semi-vital condition, he becomes a man of flesh and bone, and increases in quantity and firmness, and the whole system return to a robust state of health and vigour.

THE VITAL RESTORATIVE acts electrically upon the organism, for instance, it assists nature to generate that human electricity which renewa and renews the organism, and which is the secret of health. It acts directly upon the system without exciting or irritating the system, without causing any disturbance to the system, and without any violent action on the system without exciting or irritating the system, without causing any disturbance to the system, and without any violent action on the system.

THE VITAL RESTORATIVE gives back to the human organism a suitable form of physical nutrition, which, when once established, has been wasted, and exerts an im-

mense influence directly on the spinal marrow and nervous system, of a nutritive tonic and invigorating character, and a restorative to the heart, lungs, liver, kidneys, stomach and intestines, and especially to the brain, nerves and muscles.
