MESTING of St. Patrick's Society - 8 p.m. TUESDAY. WEESTLING MATCH at Opera House - 8 p.m.

In the Lancashire bye election it wil be remembered how the Home Rule vote assumed an attitude of stolid neutrality. and how the Tory candidate was easily rather an assistance than an inconvenreturned as the result. We pointed out at the time that thus to disfranchise the work to know precisely what was exthemselves by staying away from the polls could do their cause no possible the external beauty of the new edifice good, and this fact they are now realizing will depend yery largely upon the kind of for themselves. ject in this way, but is quite safe to say he would never have touched the subject at all had not Hon, Mr. Blake's Bill suggested some action in the premises. In any case the Minister is immeasurably less capable of dealing with this subject than is the Hon. Mr. Blake, whose Bill was choked off by this jealousy of his would-be-tivals.

It is an omen that should be conducive to the success of the Liberal party in the impending struggle for power in England that Lord Derby has definitely declared himself for the Liberal party as against the present Tory Cabinet of which he was once a member. And the noble Earl has not in this respect been guilty of the inconsistency which has been so glibly imputed to him by Tory journals not only in the mother country but in Canada too. But the truth is that, holding the opinions and convictions Earl Derby does on the question of the foreign policy of the Empire, it would be grossly inconsistent for him to retain his connection with a party whose conduct he utterly disbelieves in and repudiates. the Liberal party's views on this and other questions meet his own it would be cast iron party rigidity, and not political consistency at all, for him to stay with the Tory simply because he was once identified with it, and because his father was before him. The accession of Earl Derby to the Liberals in this juncture will be a compensating offset to the defection of Mr. Cowen, a Liberal M P., who has also, from conscientious motives, no doubt, deserted his party on the very policy which has driven Earl Derby from the Tory to the Liberal

STONE FOR THE NEW BUILDINGS.

The selection of material for the construction of the new Parliament Build ings at Toronto is worthy of public attention. Once any contract is let it ordinarily the right of any contractor to go where he pleases for his material so long as he conforms to the specification but in works of this magnitude, and a public character, there is a difference In all such cases it is usual to specify the kind of material which shall enter into their construction, and it would ience to contractors when tendering for pected of them in this regard. County Treasurer, and the "Member for Lennox," read his defence in the Commons lately, he innocently disclaimed all pertaining to their sex. knowledge of the municipal deficits with which he had been charged, and assured the House that the whole thing was a trumped-up piece of political persecution against him. Of course Mr. Kirkpatrick, the member for Frontenac, and other gentlemen of equally undoubted financial honesty and Conservative fidelity, were ready to openly sympathize with the Tory martyr for Lennox and to attest to his injured innocence. The motion, that the whole case be referred to the Committee on Privileges and Elections, was voted down, although upon that Committee Mr. Hooper would have had the advantage of a large majority of political friends and sympathizers. All this was done on the theory of Mr. Hooper's self-asserted innocence, and that it was none of the business of Parliament to be dabbling in the personal affairs of private members. But as to the question of Mr. Hooper's guilt or innocence the fact of his defalcations has Is the Northern Railway cow again to been conceded by the actual payment by be milked at the ultimate expense of the bis sureties to the county of the full Canadian public?
