REMINDERS. BOARD of Audit-11 a.m.

It would seem difficult to satisfy the rapacity of some men who are inordinate ly greedy for public apoils. For example Mr. Mayor Macintosh, of the Ottawn Citizen, admitted before the Parliamen very Printing Committee that he got \$12,000 for the corrupt withdrawal of his tender, and yet it is stated on good authority that thousands of copies of a Government pamphlet on Canada are now being completed in the job office his journal. This certainly looks like being bribed to abstain from competition and then dishonorably violating the terms of the compact. Twelve thousand dollars was a pretty handsome premium for the preparation and withdrawel of a printer's tender, without afterwards hankering after it, and obtaining work which properly belonged to the firm which had paid him such a price for his retirement in their favour, and for his influence with the Government:

Referring to the probabilities in regard to Earl Beaconsfield's now inevitable resignation, the Toronto Telegram, in quotly, by a vote of non-confidence, give the of getting it is that suitable accommodaderance of all historical precedent would number of pupils attending. The City Council will we feel power.

Referring, without naming him, to the successor of Lieutenant-Governor Macdonald the organ-in-chief of the Dominion Government declares that whoever he may be "he will shake the dust of the lation. policical arena off his feet the moment he has been sworn in." If so then he will not much resemble His Honour Mr. Robitaille, who made it his first business after supplanting his predecessor to lend himself to the Tory intriguers of Quebec in order to expel Hon. Mr. Joly from office by unconstitutional means. Neither will he be much like His Honour Mr. Tilley, who had barely time to "shake off the dust, etc.," when he hied him home from the "debria" of the Pacific Scanual Cabiget with his Commission as Lieutenant-Governor in his breeches pocket, and stepped down from his nominally neutral dignity the moment the opportunity of fered to strike hands again with the corrupt clique with whom he had diagracefully fallen from power. We are glad to some curiosity the definite announcement | day. of the next Tory Governor of Ontario.

The Montreal Railway officials compute the departures of Canadians from that point to the States to be at the rate of one thousand per week. The exocus from the Maritime Provinces also con tinues unabated. In spite of the Ottawa Citizen's idea that the depletion is inevitable and beneficial the people in the depleted districts do not appear to be at Sir John Macdonald that those who go immigration. One of the specific benefits Canadians for Canada, Depletion, so much deplored by Sir John Macdonald when it did not exist, was to be utterly impossible under the N. Judged then by the tests submitted by its founders the National Pohey has proved an unmitigated failure.

There seems to be as much ufystery Printing Scandal as there is about the crueity? Truly those who would be as he is well aware that he would not enabout equally verdant in regard to their the law of nature, be made to suffer a of conducting a government constitutionpersonal complicity in their respective due penalty. For

some time past the crowding in many of the rooms has been far in excess of the limit allowed by law, and if the matter i much longer allowed to go unheeded and unremedied, there is a very great danger that the Legislative grant to our schools will be withdrawn. We entirely dissent. and so will the vast majority of the tax payers, from the assertion that the withdrawal of the grant would be a great benefit. How it would prove such when its first effect would be to increase by so much the burden of local taxation it is not easy to see. The severance of Church and State is all very well; that is as it should be; but the separation of Education from Government is a very different matter. Every enlightened and civilized State now recognize its obligations to encourage, supervise and assist by every means in its power and by every available facility the ing precedents, incidentally remarks that education of its youth, and no money it "Mr. Mackenzie appeared to exhibit better expended than is the per capita undue tenacity in holding on to the reins | allowance made by our Provincial Governof power." Contract Plunder.

(Port Hope Guide.) Mr. C. H. McIntosh, mayor of Otta way and proprietor of the Citizen, has explained before a Parliamentary Committee how he managed to make his big haul out of the public treasury. There was nothing particularly ingenious in the filching, but what was lacking in this respect is abundantly made up for by the coolness of the operation and the shame less audacity of the confession. He owns frankly that he never did anything for the \$12,000 he extorted from the people of Capada through McLean, Roger & Co., and that he never had the slightest intention to do anything. To quote his own sworn testimony, "I had no intention of doing the work; I could not say that would go on with the work, as I did not control the tender myself; the service l rendered was the service McLean, Roger have the assurance of the organ that the & Co. are now rendering,"-that is to "conscientions man" who is to be the say, he got them a job. Berlin, April 7. - Bismarck has tender ed his resignation as Chancellor of the German Empire, owing to the vote on financial reform in the Federal Council. Loudon, April 7. - A Berlin correspon dent says the news of Bismarck's resignation has created a sensation, but one believes he earnestly desires to withdraw, as he has too much unfinished work on hand, nor is it believed that the Emperor could accept his resignation. The Chancellor probably does not care about the proposed receipt stamp tax, but in its rejection he discovers a convenient opportunity for altering the state of things in the Federal Council, which have long annoyed him. A funde mental change of the Imperial constitu tion, affecting the Bundsereth, is probably his real object.
