A WARNING KNELL.

PREPARING TO ANNIHILATE THE GAS COMPANIES—EDISON'S LIGHT.

The United States Electric Company nave purchased the building on the northern corner of Twenty-fifth street and Sixth avenue, New York, and are now putting in the necessary apparatus for furnishing electric light to the city for the circuit of a mile distant in every direction. It is said that the power that will be concentrated there will enable the company to light four miles each way, but that for the present they will confine themselves to one mile in each direction. The advantages to be derived are an increased volume, a greater intensity and cheaper light than has ever yet been introduced. It is thought the cost of illuminating will be as three or four to one, or in the other words, what now cost one hundred dollars will by the new process be reduced to thirty-three dollars or twenty-five dollars. Already several of the large halls and buildings within the district have made arrangements with with the company to introduce the light into their establishment. At present the officers of the company are not inclined to give information as to what their plans or intentions are. There are difficulties to be overcome, and until the light has been successfully utilized they do not desire to become the object of criticism. It will at least be a month before they will be able to say what their plans for the future may be. Meanwhile the work will not only be pushed forward as rapidly as possible, but Edison will give it care and attention. That it is the first practical step towards the entire displacement of gas is confidently believed. Should it prove successful the gas companies will have time to mourn over the imperious manner in which they have lored it over the community.

Stock-Jobbing Scheme.

The Bill introduced in Congress by Mr. Hurd, of Ohio, to establish regulations as to imported goods in bond and with duties paid, which provides that it shall not be lawful to transport imported goods, wares, merchandise in bond or with duty paid or any products or manufacture of the United States, from one port or place in the United States to any other port of place therein, when any portion of such transportation is made through the Dominion of Canada by land carriage, except that the same is permitted by existing treaty, is looked upon by the railroad managers in this city as having been inspired by stock speculators in the interest of Jay Gould, who just now seems to have considerable influence with certain Congressmen. No one believes that such a Bill could have been introduced for any other purpose than to aid Gould and other stock-jobbers to depress the value of Canadian and Northwestern roads and help to give Gould's Southwestern lines a "boom." A law of that kind would not only ruin all the Canadian roads having their termini in the United States and forming portions of east-and-west trunk lines, but would also ruin the Michigan Central, Detroit & Milwaukee, and nearly all other Michigan roads, while the Northwestern lines from Chicago would be immense sufferers. The railroad men here say the scheme is too ridiculous to be considered in earnest for one moment. It is not believed that Vanderbilt had anything to do with the matter. While the destruction of the Grand Trunk might prove very pleasant to him, the fact that the Michigan Central and Canada Southern, in both of which he holds a controlling interest, would prevent him from siding in such a scheme, not considering at all the fact that the Great Western forms the best connection between the Michigan Central and the New York Central Railroads.

If any real attempt should be made to pass such a law the entire Northwest would rise to a man and teach the corruptionists that their interests cannot thus be trifled with. It is not believed, however, that there is any danger that the scheme will ever be heard of again.—*Chicago Tribune, April 11.*

Puzzling the Doctors.

Lizzie Collins, a Kentucky girl, near Louisville, is one of the latest curiosities. She is a somnambulist, and fifteen years of age. She is of delicate frame and weighs ninety pounds. She has a pretty face, inheriting the beauty of her mother, who was considered the handsomest woman in Nicholas county. From infancy Lizzie has been delicate, and she has had but about seventeen months schooling, yet she is intelligent beyond her years and very lady-like in her manners. Last New Year's her spine began to trouble her, and she was forced to take to her bed.

A few months ago strange phenomena in connection with the disease began to manifest themselves. At irregular intervals, sometimes in the morning, but generally in the early evening, the girl to all appearances falls asleep, always on her right side, with her arm doubled under her head. Her eyes close, her breathing becomes short and spasmodic, and low moaning escapes her lips.

In her normal condition she presents a body, the nerves of which are sensitive to a high degree. In her abnormal condition the nerves lose their sensitive quality. Naturally she is shy and quiet in manner, choice in her selection of words, and intelligent in conversation. In the somnambulistic state she is the reverse, romps with strangers, talks with an infantile lisp, has the pettish, wilful manner of a spoiled baby, and reasons like a child. When herself she is fond of reading the more obstruse books, poetic and prose masterpieces.

Abnormally, she cares only for nursery rhymes and books written for little children. But there is also another phase of this strange condition. She will frequently call for her books and slate and proceed to study her lessons, do difficult sums in arithmetic, write letters to relatives, etc., all with her eyes closed entirely. When awake she has no recollection of what she did or said in the somnambulistic state. When awake she writes with her right hand altogether, and when asleep she writes with her left hand altogether, and in either state pens a fine but very different hand writing. Dr. Kenny of Paris, Ky., made a careful examination of her while in a state of somnambulism, and states that her eyes are really closed all the time. He has never came across a similar case in all his practice, and does not know of a similar one on record.

ONE AND THE SAME THING.—Dyspepsia and biliousness are synonymous terms, and both are the result of over eating. The digestive organs, like all our organs, need and must have rest; when they are taxed beyond endurance they become weak and cannot perform their functions. Constipation frequently results from dyspepsia, and dyspepsia often causes constipation. Either way, the system becomes and remains clogged. Colds are also productive of costiveness, as Bacon says, "Of cold the property is to condense and constipate." There are thousands of our people whose normal condition is costiveness. They resort to drastic medicines, when the infl ction becomes unbearable, and heavily purge their bowels, merely to find frequent recourse to purgation necessary. The excellence of DR. HERRICK'S SUGAR COATED PILLS lies to their natural removal of the offal, without undue discharges and weakening consequences. Their composition is the result of an experience of more than a quarter of a century, and their history is a continued series of triumphs over what was believed to be chronic biliousness.

Rheumatism; yes, and neuralgia too, are greatly relieved and often entirely cured by the use of Pain-Killer—Try it.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottles 10 cents. For sale by J. G. King, Druggist, Market Square, Kingston.

From W. R. Chisholm, M. D., of Bedford: "I have employed the PERUVIAN SYRUP successfully in cases of dyspepsia, chronic diarrhœa, nervous debility, neuralgia, erysipelas, boils and diseases of the skin; also, chlorosis, leucorrhœa, prolapsus uteri, and in female complaints generally. As an alterative tonic, the syrup ought to be used by clergymen, editors, cashiers, clerks, lawyers, and others who use their brains more than their muscles; as well as operatives, printers, tailors, shoemakers, seamstresses, and all those whose occupation confines them in ill-ventilated and over-heated rooms, who are liable to suffer more or less nervous debility."

AN HONEST MEDICINE FREE OF CHARGE.—Of all medicines advertised to cure any affection of the Throat, Chest or Lungs, we know none we can recommend so highly as Dr. King's New Discovery for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness, Tickling in the Throat, loss of voice, etc. This medicine does positively cure, and that where everything else has failed. No medicine can show one-half so many positive and permanent cures as have already been affected by this truly wonderful remedy. For Asthma and Bronchitis it is a perfect specific, curing the very worst cases in the shortest time possible. We say by all means give it a trial. Trial bottle free. Regular size $1.00. For sale by J. G. King, successor to E. H. Parker, Market Square.

"TEABERRY."—The newest wonder for whitening the teeth, delightfully refreshing to the mouth. To try it is to become a friend to the piquant, irresistible, popular dentifrice of the day.

Health, Tone AND VIGOUR.
Sir Astley Cooper's VITAL RESTORATIVE,
For Strengthening the Nerves and Purifying the Blood.

Trade Mark "Elixir Vitæ"

THIS PREPARATION IS PRONOUNCED BY THE MOST EMINENT MEMBERS OF THE MEDICAL PROFESSION TO BE UNEQUALLED FOR ITS POWER IN REPLENISHING THE VITALITY OF THE BODY.

by its supplying all the essential constituents of the blood and nerve substance and for developing all the powers and functions of the system to the highest degree.

IT IS AGREEABLE TO THE PALATE, AND INNOCENT

in its action, while retaining all its extraordinary properties; and, as a specific, surpassing all the known therapeutic agents of the day for the speedy and

Permanent Cure of

Nervous prostration, Liver complaints, Palpitation of the heart, Dizziness, Nervousness in the head and ears, Loss of energy and appetite, Hypochondria, General debility, Indigestion, Incapacity for study or business, Lassitude, Trembling of the hands and limbs, Impaired digestion, Mental and physical depression, Consumption (in its first stages), Impaired sight and memory, Nervous tancies, Impoverished blood, Nervous debility in all its stages, Premature decline, Shortness of breath, and all morbid conditions of the system arising from whatever cause.

THE ACTION OF THE VITAL RESTORATIVE IS TWO-FOLD,

on the one hand increasing the principle which constitutes nervous energy, and on the other the most powerful blood and flesh generating agent known; therefore, a marvellous medicine for renovating impaired and broken-down constitutions. It quickly improves the function of assimilation to such a degree that, where for years an emaciated, anxious, cadaverous and semi vital condition has existed, the flesh will rapidly increase in quantity and firmness, and the whole system return to a robust state of health.

The Vital Restorative

acts electrically upon the organization, for instance, it assists nature to generate that human electricity which renews and rebuilds the osseous, muscular, nervous membranous and organic systems. It operates on the system without exciting rate or thought upon the individual as to the process. It moves the lungs, liver, heart, kidneys, stomach and intestines with a harmony, vigour, yet mildness, unparalleled in medicine.

The Vital Restorative

gives back to the human structure, in a suitable form, the phosphoric or animating element of life which has been wasted, and exerts an important influence directly on the spinal marrow and nervous system, of a nutritive tonic and invigorating character, maintaining that buoyant energy of the brain and muscular system which renders the mind cheerful, brilliant, and energetic, entirely overcoming that dull, inactive, and sluggish disposition which many persons experience in all their actions.

Finally, the Vital Restorative

maintains a certain degree of activity in the previously debilitated nervous system; its use enables all debilitated organs to return to their sound state and perform their natural functions. Persons suffering from Nervous Debility, or any of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual and even speedy cure by the judicious use of this most invaluable remedy.

THIS MEDICINE IS EXTENSIVELY USED IN THE ARMY, and is also in very general use in Hospitals and Public Sanitary Institutions throughout the land, as well as in private practice, and is considered as an invaluable remedy.
