WIND WAITS.

FROM VARIOUS SOURCES AND ON VARIOUS THEMES.

Some one has been giving our contemporary "Laffy."

The Richelieu and Ontario Navigation Company's boats will only run tri-weekly for awhile after starting.

The musical bullfrogs has commenced his concert. The principal hall is on the Regiopolis College grounds.

The Baby Pinsors Company is now making a tour of the Province. The children range from 3 to 9 years of age.

The Recorder says that great improvements are being made this season at the St. Lawrence Central Camp Grounds.

The Ottawa correspondent of the Chicago Inter-Ocean says Mr. Blake is the peer of any man on either side of the House of Commons.

Capt. A. G. Fraser, late of Watertown is visiting here preparatory to assuming the charge of his tug, the "Prinderville," of Detroit Mich.

Probs. Fresh to brisk winds, gradually shifting to north and east, partly cloudy warm weather to-day, with showers in some localities, followed by cooler weather to-night.

Among H. Sandham's drawings, with the first paper "The Dominion of Canada," we note "originally the effective, luminous and altogether charming sunset view of Kingston Harbor.

"Taking a rib" is a common expression wherever good English is spoken. One editor in Kingston was terribly shocked about it the other day: What is the state of his sensitive feelings to-day, we wonder!

A Muscular Policeman. Last evening P. C. Snodden, while on his beat, encountered Tim O'Grady, the authority on the shoemakers exodus, lying helplessly intoxicated on Wallington street.

No rolling or shaking could arouse the inebriate, and no vehicle was in sight O'Grady had to be taken to the police station. The police officer contemplated the situation for a moment. Seizing the individual he threw him across his shoulders and coolly marched down the street, amid the cheers of the bystanders. Tim was laid on the guard bench, and continued his sleep. When he awoke he was disgusted to find himself confined in the police station. This morning he was dismissed, as he manifested a very penitent spirit. It is rarely a policeman performs the service which fell to P. C. Snodden yesterday, and rarely has a man had his feelings so firmly advertised as had Tim O'Grady.

The Late Mr. Black. Mr. John Black, of Newburgh, died at his residence on Friday last, at the age of seventy-four years. The deceased took ill about four weeks ago, and kept sinking till last Friday. The Newburgh Reporter says Mr. Black was born near Belleville in 1804, but spent the years of childhood in Kingston, to which place his parents removed when he was quite a little boy. When he removed to Adirondack it was a perfect wilderness. The village of Newburgh was not then in existence. The forest was in its natural state, and very few settlers. The deceased gentleman died a large and extensive tannery trade. He was always willing to do all that he possibly could for the welfare of the place.

Marine. A Port Colby despatch says the "Wawanesa," Toledo, cleared light wind south west, light.

"G. W. Moberly," formerly a gulf pilot boat, then a Kingston pleasure yacht, and lastly a dynamite carrier, will this year supply the Government lighthouses with oil.

NEW ENTERPRISE. We understand that a Montreal Company are negotiating with the Messrs. Rouk for the purchase of the extensive water-power and flour mills at Kingston Mills. The Company intend erecting a paper factory thereon, also enlarging the flour mills. This is an admirable position for a paper factory as paper and wood, which now enter largely into the manufacture of paper, can be laid down at this point at the lowest cost. The Company will also utilize thousands of tons of marsh hay which is now burnt or allowed to rot annually. The work will give employment to a number of men.

The North American Review for May continues the series of papers on the Third Term Question. Mr. Lesley Stephen writes of "The Religion of all Sensible Men." The creed of the future, he says, must be capable of assimilating modern scientific theories. George Tickner Curtis continues his series of articles on "McClellan's Last Service to the Republic." Mr. Francis H. Underwood contributes an essay on R. W. Emerson and his writings, and an anonymous writer on the Munroe doctrine.

MORE CHEAP WORKS. Three more of the standard series of I. K. Funk & Co., 10 Day Street, New York, have appeared. They contain Ruskin's "Letters to Workmen," and Tennyson's "Lays of the King." The letters are full of quaint Ruskinian advice to all sorts of workmen. The "Lays" in this series is headed, the paper and press work are good, avoiding that common objection to cheap books—burlesqueness to the eyes. Ruskin's work sold in this way at 30c, usually costs 52.

DIFFERENCE IN ROUTE. The distance from Chicago to Montreal, via the Well and St. Lawrence canals, is 1,261 miles; the distance from Chicago to New York, via Buffalo and the Erie Canal, is 1,419 miles, or 158 miles in favor of the former route, a gain of 71 days in favor of the Montreal route. The time on the Erie Canal is shortened about three days when steam is used.

A LASSER CONVENTION. Beecher preached before the largest congregation before whom he had ever appeared, yesterday. A new telephone with a patent transmitter was placed to-day within a foot or two of where Beecher stood upon the platform. Lines reached to several cities where congregations had assembled, and they had the pleasure of listening to the sermon and all the services to Plymouth Church. Connections were made with Orange, Newark and Elizabeth, N. J., and several points in New York. Beecher's sermon and music both were distinctly heard. The farthest point was seventeen miles distance.

THE SCHOONER NORTHMAN.

MISSING SINCE THURSDAY—KINGSTONIANS UPON HER—CAUSE FOR ALARM.

On Thursday it was reported that a vessel had foundered at Port Credit. The Mail says: "The despatch of the following day, that no wreckage had come ashore, served to strengthen the belief that no vessel had been lost, and the rumour was fast dying out when a telegram from Captain Hall once more attracted public attention. It was then learned that the schooner 'Northman,' of Hamilton, had been an unusual length of time making her trip to Kingston. The 'Northman' left Port Dalhousie on Thursday afternoon, the 15th inst., with a fair wind and fine weather, bound for Kingston, loaded with 23,400 bushels of wheat and 600 bushels of corn. After she left port nothing was learned of her until the rumour appeared in the Mail that a boat was seen bottom up this side of Toronto, which, it is conjectured, was the ill-fated craft. The crew were eight in number. The captain was Frank Cardotte, of Three Rivers. The mate came from Kingston, and the cook, his wife, with five seamen, were all wreath from the Lower Provinces, and names are not known. The 'Northman' was a comparatively new vessel, having been built scarcely five years ago, and she was considered one of the best of the lake fleet. She had a registered tonnage of 225 tons, was valued at \$16,000, and was insured for \$6,000 in the Anchor Company. She was loaded by Mr. Merritt, of the Welland Railway, at St. Catharines.

We may add that the names of the mate and his wife was Garpe, they lived on Ontario street. It was stated in the city that the 'Paris,' which arrived here this morning, had passed a calm about the lake, but to our reporter the captain of the boat denied the statement.

Chancery Court. Yesterday at three o'clock the Court of Chancery opened, the Vice-Chancellor presiding.

YANLIVEN VS. YANLIVEN. This was an action to recover by mortgage the amount of a note paid by the plaintiff for the defendant. A decree by consent was given Messrs. Walker & Walker for plaintiff, Macdonell & Mudie for defendant.

RAYMOND VS. MAXWELL. An action brought by the plaintiff (a widow) to recover from the defendant, who was the executor for her husband's estate, a parcel of land given to the defendant. Decree by consent. Messrs. Hutton & Whiting for plaintiff; Mr. J. McIntyre for defendant.

ANDERSON VS. COWAN. Question of account for work done. Verdict by consent for \$609.63. Messrs. Macdonell & Mudie for plaintiff; Messrs. Walker & Walker for defendant.

ESTES VS. ROSE. A decree by consent, vesting the property in dispute to plaintiff on payment by her to the defendant of \$250 within a month. Mr. T. L. Snook for plaintiff, and Messrs. Bowden & Machar for defendant.

MURPHY VS. ALLEN. Decree for redemption by consent, Messrs. Kirkpatrick & Rogers for plaintiff; and T. L. Snook for defendant.

CAMPBELL VS. WILSON. Application for \$600 salary, 10 per cent. Commission, and wrongful dismissal. Bill dismissed with costs. Mr. A. Shaw for plaintiff; Messrs. Baile & Machar for defendant.

M'GILL VS. DAVIDSON. At a distress sale of real property held by a trustee under a mortgage, Mr. J. Richardson claimed it as a part of the estate. Mr. McMullen brought an action to recover the amount of money paid for it. Decree for Richardson, to pay \$61 and costs to McMullen. The bill against Davidson, Doran & Co., was dismissed without costs. Messrs. Smyth & Dickson for plaintiff; Messrs. Macdonell & Mudie and Bowden & Machar for defendant.

The cases of Tryon vs. K. & P. R. R., and McDowell vs. Barney, were settled out of Court.

Action Called For.

In view of the decision of the Supreme Court, by which the Canada Temperance Act has been sustained, the Council of the Dominion Alliance, has called for the immediate organization of all friends of temperance and prohibition, for the purpose of making systematic effort in harmony with the principles and aims of the Alliance.

Each branch is called upon to determine upon counties in which the Canada Temperance Act can be most advantageously submitted, and to throw all the influence the Alliance can command into such counties with a view to securing majorities in favor of the Act, because its adoption by a large number of constituencies will clearly manifest the existence of a general approval of prohibitory legislation, and furnish ground of appeal to Parliament for further legislation in that direction.

It must, however, be acknowledged that the Canada Temperance Act cannot yet be adopted in several localities where its operations are most needed; it is, therefore, imports that a general agitation in favor of the principles of the Alliance should be constantly maintained, that in so far as the various Provincial License Laws furnish restraints upon the Liquor Traffic the provisions of such laws should be honestly and rigidly enforced.

The Alliance earnestly and respectfully urges all to discontinuance the use of intoxicating drinks, and to aid the various Temperance Societies.

It is important that those conducting the commercial and industrial operations of the country awake to the necessity of liberally contributing to the various branches, that they may be enabled to carry on the work upon a scale commensurate with its importance.

Persons desiring to co-operate with the Alliance are requested to correspond with the following officers of the Provincial Branches: Ontario—Mr. John McMillan, Toronto.

Quebec—Rev. Thos. Gales, Montreal. Nova Scotia—Mr. P. Monaghan, Halifax, N. S.

New Brunswick—Rev. Jos. McLeod, Fredericton, N. B. Manitoba—Rev. W. Ewing, Winnipeg.

SCHOOL ACCOMMODATION.

A VISIT OF ALDERMEN TO THE PRINCIPAL SCHOOL.

Yesterday the Finance Committee of the City Council paid a visit to the Public Schools that they might judge of the need of the accommodation for which a grant of \$4,000 was asked. The School Board will, probably, feel that this inspection is somewhat of an insult added to injury, but that, we cordially believe, is a wrong view of the matter, at least in the opinion of the Aldermen. The action taken merely denotes a closer oversight by the Committee, charged with the finances, into all of the affairs of the public for which taxes are levied, and will pave the way for an early inspection of the works for which street appropriations are soon to be asked, and of the fire brigade and police departments for forthcoming appropriations—that is, if the Committee be consistent. After such an extraordinary departure it cannot, however, be otherwise than consistent.

The Committee visited the schools in the following order, with the results given: MODEL SCHOOL.

Mr. Summery's room—Four seats now vacant, but all the fifth class scholars in the Model School session begins there are twenty desks too few.

Mr. Campbell's room—Just full up to this week, when a few boys went to work. Expects to have every desk occupied by ordinary scholars.

Miss Hayward's room—68 good sized scholars in attendance; desks for 88.

Miss Allen's room—This is only 16. 18 feet large, and contains over 50 pupils; desks for all, but the teacher reports the room too small and crowded.

Miss Livingston's room—Average of about 55 scholars in attendance; desks for 55.

Miss Clark's room—Another small room, almost all the space occupied by children; a few empty seats, but not a full attendance.

Miss Haywood's room—88 good sized scholars in attendance; desks for 88.

Miss Allen's room—This is only 16. 18 feet large, and contains over 50 pupils; desks for all, but the teacher reports the room too small and crowded.
