## CONSUMPTION CAN BE CURED IS A FACT ATTESTED BY THE HIGHEST MEDICAL

AUTHORITIES IN THE WORLD. A careful observance of the laws of health, and the systematic and persistent use of Scott's EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME AND SODA WIll accomplish this result. This preparation has all the sirtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomact, and we make the unqualified statement that Scorr s Emulsion is being used with better results, and endorsed and prescribed by more physicians for Consumption-and the diseases leading to it, such as Chronic Coughs, Bronchitts, Scrofula, Ansemia, General Debility and the Wasting Disorders of children, than any other remedy known to medical science. The rapidity with which patients

MESSES. SCOTT & BOWNE.—Get tlemen-Within the past year I have used in my own family and in my private practice prescribed very extensively Scott's Emulsion of Cod Liver On. with Hypophosphites and found it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach, which renders it a very reliable agent as a nutritive remedy in consumptive and scrofulous cases. A. H. SAXTON, M.D., Baltimore

MESSIS. SCOTT & BOWNE-Gentlemen-Within the last two months I have fairly tried Scott s EMULSION OF COD LIVER OIL with HYPOPHOSPHITES, and I candidly declare that it is the lungs and other wasting diseases we can consider it our most reliable agent, in a perfectly legant and agreeable form.

MESSES. SCOTT & BOWNE:- Gentlemen-In September, 1877, my health began to fail and my physician pronounced it spinat trouble; under his care I got some relief from pain but my general health did not improve, and early in the winter I began to raise blood and rapidly worse, In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and mornng coughe, night sweats, short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various prepara | Call and try it for yourself. Now Ready. tions, but they did me no good. I lost all hope of life, and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better I then bought a dozen bottles, and have taken all with the following result-Cough subsiding, night aweats stopped, appetite returned, pa na in spine disappeared. strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your EMULSION, and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks what cured you, and I answer Scott's Emulsion of Cop Liver Oil, &c. I have a triend who has not spoken aloud for 15 months and he is getting better. I gave him a bottle and he bought two more, then got a dozen and save it is food and nedicine for him. He was given up to die a year ago, but he is improving now wonderfully. My recovery is exciting the surprise of many people, and I shall do all I can to make known your valuable medicine.

I could retain INSURANCE. trated that no one who saw me thought I could live but a few days at most. I could retain nothing on my atomach and was literally starving. I commenced the use of the EMULSION in small doses; it was the first thing that would stay on my stomach; I continued its use, graqually increasing the dose, and from that hour I commenced mending, and now am able to ride and walk and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall enti.ely recover,

likewise dealt with A member-Ald, C. F. Gildersleeve's Committee has reference to municipal legislation.

Ald. Dupuis thought this was a matter

that ought to be decided by the whole Council, that each Alderman should deliberate upon the matter and talk it over with his neighbors and the rich men and capitalists of the city to ascertain from them their views. As for himself he was of opinion that when it was proposed to establish in this city any manufactory to which there is none similar-or in other words one which does not come into competition with any other already existing -that it would be for the interests of the city to require only the taxes paid upon the property used by such manuactory previous to its occupation thereby for a certain number of years, and that all improvements for and in connection with said manufactory for the time specified be exempt. These had always been his views as he thought that that much encouragement to new manufactur-

ing establishments would be for the city's advantage. Ald. Irving said the principle of exemption could have been advocated in this manner twenty years ago, and that had it been carried out one half of the population by this time would have been paying the taxes and the other half would be

going "souttfree."

Aid. Dopms-That cannot be. Ald. Allen-It can be. Ald. Irving said the sympathy of the Council had gone out to Mr. Waddingham in consequence of the disastrous fire which he had sustained, but if municipal principle was to be sacrificed in so doing the effect would not be easily calculated. Rather than that a bad precedent should be established it would be better for them to take sufficient from the public funds to meet a part of the man's loss. He agreed with Ald. Pense

Ald. Pense said the School Board, in asking for the grant for schools, calculated upon continuing improvements which had cost about \$1,000 per annum for about ten years. The interest on the proposed grant would be very small. The School Board had had a perfect scheme of repairing, and a sum for school enlargement at the present time would not be asked for if it were possible to get along without it. He had his own ideas of how asked to be allowed to carry on business schools should be built. He was of opinion that some of the buildings now in use were not fitted for school purposes. Some rooms were too large, others too small, and there seemed to be no remedy for the defects. A central school would beat relieve the overcrowding and permit pair for fish which they should obtain for of a development of the excellent grading system which was now followed so far as the limited resources of the schools would allow. No School Board in the Province was more economical than that of Kingston. They had to have a Secretary, the school law not permitting one person Rathbun & Co. to the effect that the pe- to act as Secretary and Inspector.
