No newspaper in the country was warmer advocate of the National Policy than the Toronto Telegram, and yet that journal now refers to it in these terms "It is certainly not going too far to say that it has not realized all that was predicted of it. We shall have to try some thing else." We do not quote frem our contemporary with any desire to impute inconsistency. Such a thing is out of the present parliament, and last of all the question with independent journals, the existing Government for the exceswhich have a patent right to change their sive expenditure which has started the opinions in proof of that freedom of outcry against the College. The attempt thought which is their chief charm. But the charge of front above indicated is the revulsion of opinion against the N. P. in the popular mind, which is always sure columns, and if he whines about misrepreto had its views mirrored in the opinions of the press.

The proposition to pre-pay the ocean passage of three thousand British navvies, in order to employ them on the Pacific Railway, is not being very cordially received by the Canadian people. With | commination to the Presidency, does him thousands of men out of employment at infinite credit. In moderately indignant home the question is not unreasonably language he alludes to the great wrong asked, Why should not these rather be carried at the public expense and given since heartily supported the present Govwith a vengeance.

The Dominion Government has appointed its Commissioners to act with those of Ontario and New York State in reclaimof the Falls from these dishonest monopolists, and that soon the people of both the pleasure which the grand sight insuggestion which the Joint Commission has been appointed to carry into effect Lord Dufferin will long be gratefully remembered by the people of both nations, who will hereafter be able, as never before, to enjoy a visit to the Falls of Niagara.

The Ottawa Free Press has been justly complaining of the intolerable burden which the private citizens of Ottawa have to bear because of the immunity from taxation which is enjoyed by the army of office holders at the Capital Nothing could be more glaringly unjust than that the civic taxes of Government officials should be paid for them by their fellow citizens, and of course the injustice is much more palpable at the Dominion Capital than elsewhere, owing to the far larger population of Government employees who necessarily live there. Gov. ernment officials are, as a rule, a better paid class than people of the same social status who are entirely dependent on their Jones" et al, try and be a man for once. own resources. If this were not so there Come out fairly under your own name and Flynn's bet with the greatest ease would not be such a keen anxiety to get these positions. The men who obtain these offices are better able to pay taxes than they were before, and it is a legalized fraud that their taxes should be paid for them by other people who are not as well able to do it as they are themselves.

CHANGE OF FEELING.

We have frequently stated our firm and sincere conviction, that were a general election ordered the position of parties would, in short order, be reversed in the Dominion Parliament, Ontario has already given a tengible intimation of what may be expected from her by electing a two to one Liberal majority to the Provincial Legislature. Quebec would not begin to reduce this advantage by the small Tory majority that may be returned from that province, not even were the small contingents from Manitebe and British Columbia to be mainly Conservative. As to the maritime provinces they are so atterly disappointed and disgusted with the so-called national policy that they would certainly sweep the party that forced it upon them out of existence at the next election. Even from Conservative sources the intimation comes up from the sea-board provinces that they are one and all "on the verge of rebellion over the national policy, and regard it as the "greatest fraud that was ever perpetrated upon a people." So strong and universal is this feeling down there that an cratwhile pronounced Conservative of Prince Edward Island writes to a Toronto journal that "the Provinces of Nova Scotis, New Bruns' way we do our rafting or he would not wick and Prince Edward Island will not return a single member supporting the Government at the next election." There is no denying the fact that a great revulsion of popular feeling has set in against the national policy and the Government which represents it, and the pity is that the people must wait so long as the balance of the term of the present parliament before giving effect to their sober second thought on the protectionist swindle and the Tory swindlers that em- Columbia tis 330 white men and 101 ployed it to snatch a party victory.

THAT QUESTION OF CONSISTENCY.

The local Tory organ intimates that the effect of our exposure of its palpable inconsistency "is absolutely nil." So far as our neightour himself is concerned we have no doubt that this is quite true-Those who know the News never expect argument or facts to make any impression upon it, and, therefore, we are not at all A SHARE in the V.M.C.A. Building at surprised at this refreshing confession of its own obtuseness. The organ has even the inconceivable stupidity to virtually repeat its paradox, but, like the "slave of duty," does not yet see the force of it. The action of the late Goernment is again declared to have justified ail the increased expenditure of the Military College, and yet the present Government is now admitted to be the solely responsible party. The latter clause of this statement is, of course, the only true one, but it was only in late is

sues the organ was driven to this admis sion. At the first it certainly laboured to prove that the Government was merely carrying out in good faith the provisions of the Act for which the Liberal Government which passed that Act was re sponsible. If that was not trying to saddle he responsibility upon the late Government we must pive the News credit for using language without the slightest regard to the sense which ordinarily attaches to the terms employed. There is no getting over the fact that the organ did first seek to blame the Liberal ministry, next of the WHIG to brand the News with inconsistency is not? 'farfetched." The mamone the less valuable as an indication of terials with which it was done were "fetched" from our contemporary s own tentation the only consolation we can offer him is that he has simply misrepre-

A contemporary, which not long his opinion that to wrest the administration from those who have been so long ly occupied in conversation on the French ernment in its pretended "Canada for consolidated in the possession of it it is the Canadians" policy, now says "it is necessary that two-thirds of the whole of beginning to look as if the Canadian Gov- the people should be in favour of the ernment was far more deeply concerned change, a declaration this which gives in the welfare of outsiders than in the one an alarming idea of the terrible hold welfare of our own people, for it appears upon power which that party wields, that to be a friend of every country but its has in its possession the spoils of office own." This is Canada for Canadians and all the electoral weapons which that fact implies. And yet with this tremendous advantage all against him Tilden reminds the Convention that he carried the sountry by a popular majority of a quarter of a million. He then recounts ing the Falls of Niagara and their sur- the various phases of the tripartite trick, roundings from the sharks who have long for which, however, he disclaims all infested the neighbourhood; and made responsibility; and which finally, by this wonder of the world the terror of the casting vote of the Republican ampire all tourists who, to gratify their love of of the commission counted out the man the beautiful and the marvellous, had to elected by the people, and counted in the consent to be fleeced at every turn with- man who had been overwhelmingly deout mercy. We hope no time will now feated at the polls. Mr. Tilden shows be lost in accomplishing the redemption that he has necessarily been from then till now the representative of the wrong which was done to the people, and to the countries will be able to visit nature's spirit of the constitution whose corner greatest demonstration without having stone is the supremacy of the majority in all electoral and political matters. OLLEGE MATTERS-BOOK ROOM REPORT MEETINGS OF CONFERENCE -- MISSION ARY WORK.

On Saturday morning after the opening of Conference a longthened discussion took place as to the statustical returns of members under the age of fifteen years. The Rev. Dr. Burwash, Dean of the Theological Faculty of Victoria University, was introduced to the Conference, also the Rev. Dr. Fulsom, of the Vermont Conference of the M. E. Church.

t was resolved that the Book Room Committee be requested to publish a suffi cient number for distribution of copies of Dr. Ryerson's historical statement of controversies in Canadian Methodism about the year 1834.

A prolonged debate took place on a resolution of the Rev. S. Rogers concerning the time for holding the annual sessions of Conference, Mr. Rogers proposing that the time be the last Wednesday in May, instead of the third Wednesday in June as at present The motion was carried The Rev. W. Briggs, Book Steward presented a statement of the business the Book Rook, Toronto, which has con siderably increased during the past year, the advance of the Christian Guardian account being \$2,100.

After the opening of the afternoon session a resolution was moved by the Rev. Mr. Constable and carried, condemning the custom of improperly designating in the Guardian and other papers our Church as the "C. M.," or "Canada Methodist" Church.

The Rev. Mr. Chambers thought that the evil condemned would continue until there is the desirable return to the old name of the Wesleyan Methodist Church.
