There is now promise of an excellent regatta, in which a great interest has been awakened. The omission of prozes for rowing races at first gave dissatisfaction, since at the present time there is an uumistakeable fondness and preference for this kind of recreation. There being but one first class yacht in the harbour it was suggested that the money appropriated for a rage between boats over twelve tona should be caucelled, and the \$130 applied to the addition of an extra prize in the second class race, and the sformation of several purses for single and double sculling races. It would never do to abandon the original programme, because there have already been four entries for the first class race-the 'Ella,' of O. wego; the 'Oldrieve,' Cuthbert's new boat, and a yacht from Cobourg. The Regatta Committee has been granted \$50 from the amount voted by the Council and distributed by the Finance Committee. Such action will meet with general public support; in fact the award was based upon the suggestions of many representative men. The Celebration Committee will meet this evening to hear the report of the Canvassing Committee, and make the final arrangements. As but one
